

PUBLIC ASKED TO RALLY TO SUPPORT COMMERCIAL CLUB

To the Citizens of Medford and Vicinity:

Your attention is kindly called to the condition of the Medford Commercial club, and the necessity for an active, aggressive campaign of commercial work, to place this city on the map as it once was and as it can be again. This region is possessed of resources the equal of any place on earth, has a more than usually intelligent class of people, has shown in the past that it is enterprising, and is looked to throughout the land as a desirable place for newcomers. Our climate is unsurpassed, our diversified agricultural interests are admitted to be the best, the value of our minerals is beyond comprehension, our timber is almost inexhaustible, our latent wealth is yet in the early infancy of its development, and we have every reason to believe that an aggressive commercial organization can bring to us great development and permanent prosperity.

On the other hand the commercial club is not in position to meet the requirements for which it was created, for the reason that its income is wholly unequal to the necessities and it cannot become an aggressive factor unless such income is greatly increased, which can only be done by additional members. Every man in the Medford region, who is interested in the welfare of the community should belong to it and pay his dollar a month. Its usefulness is limited to its capacity and its capacity is limited to its revenue, which is derived wholly from membership dues. Are you doing your part to revive the old Medford spirit? Do not be a knocker and sit back to find fault. Get in and drill. The damnation of this community consists of that class of men who sit back and croak about hard times and the mistakes of their neighbors. The worst mistakes on earth are being made by these disgruntlers who refuse to root, but are always ready to steal the results of others' industry.

If Medford had a commercial organization of a thousand members, there is no reason why this should not be a city of 50,000 people, but, if she shuts herself up in a shell of inactivity, refusing to assert herself, it is only a question of time when travelers will look out of the car windows and ask, "What little village is this?" It is up to you—to me—to every one of us. Will you do your share? If so, join the commercial club, pay your dues, be cheerful and become a southern Oregon booster.

MEDFORD COMMERCIAL CLUB,
By Will G. Steel, Secretary.

MINISTERS ADOPT ATTITUDE FAVORING LEAGUE OF NATIONS

The Medford Ministerial association has endorsed the League of Nations in the following resolution:

As citizens of this great republic, and as ministers of the gospel we are intensely interested in all that pertains to the general welfare of our nation.

We have watched with anxious hearts the progress of the world peace conference, and have prayed for the success of its efforts to build again the bulwarks of civilization. Of special concern to us and of immeasurable value to mankind is its work of securing permanent guarantees for the nations of the earth against a recurrence of world war. We find ourselves in hearty accord with the idea of a league of nations. We feel that such a course is imperative, and we give it our whole hearted support. We cannot see how such a covenant can imperil the peace of the world, neither can we see how it can be separated from the actual peace treaty. Consequently we are of the opinion that it must be an essential and constituent part of that treaty. We are anxious that our national interests shall be wisely safeguarded. And we feel that they will be by the duly appointed governmental powers who are clothed with the authority to make peace. At the same time we dare not refuse to recognize that this great Christian nation has its world obligations which it must meet, and as a people we cannot shirk our duty of sharing in the tasks and burdens of the world. We entertain no fears that America will ever fail in the discharge of any task which a loving providence may lay upon her.

(Signed) L. M. BOOZER,
W. T. S. SPRIGGS.

For the Ministerial Association of Medford and vicinity,
March 12, 1919.

ENTERTAIN SOLONS FOR VOTING DRY

A reception will be given at the Presbyterian church Wednesday evening, March 19th, in honor of the Jackson county delegation of legislators by the Women's Christian Temperance Union. Two years ago the organization honored the solons in like manner in appreciation of their united support of the dry amendment to the state constitution. Three of the present members served at that time. This year, a fourth, Mr. Westerlund, added his vote to make a full support from Jackson county to ratify the national prohibition amendment.

This reception gives opportunity to all friends of the Hon. Messrs. Gore, Westerlund, Thomas and Sheldon to greet them and enjoy a social evening where there is going to be no ice to break.

Will all friends please consider this notice a personal invitation and don't forget the date is Wednesday, March 19th, 8 p. m.

A Card of Thanks

We desire to thank our friends and neighbors who so kindly assisted us during our recent bereavement.

L. F. LOZIER AND FAMILY.

PALESTINE JEWS ISSUE CALL TO CREATE NATION

JERUSALEM.—(Correspondence of the Associated Press.)—A call to a constituent assembly of Palestine Jewry approved by the British government in April, 1918, has been sent out by the Zionist commission in Palestine, it was announced here today.

All Jews of both sexes who have reached their 20th year are entitled to vote and all who have reached their twenty-fourth year are eligible for election. One of the other qualifications necessary for candidates is that they will be able to read, write and speak Hebrew.

The provisional constituent assembly elected Dr. Chaim Weizmann and Mr. Nahum Sokolow, the Zionist leaders, to represent them at the peace conference.

It instructed its delegates to urge: "That the powers should nominate Great Britain as their representative, or trustee, and should confer on it the government of Palestine with a view to aiding the Jewish people in building its commonwealth."

"That an executive council should be nominated by Great Britain in agreement with the World Zionist Organization representing the entire Jewish people."

There has been great activity amongst the Jews of Palestine since General Allenby freed it from the Turk. Efforts are being concentrated on procuring agricultural machinery, the purchase of live stock, and development of credit facilities, while the American Zionist Medical unit is establishing hospitals and medical aid stations in the colonies. Everyone seems inspired with the hope that a splendid era of prosperity, in big agricultural, industrial and commercial enterprises are about to open out. A society of Jewish engineers has been recently started which is working in conjunction with societies of Zionist engineers in Russia and the United States.

CAPE TO CAIRO AERIAL SERVICE SOON ACTUALITY

LONDON.—(Correspondence of the Associated Press.) Actual construction work already has been begun in connection with the projected Cape to Cairo air service, the British air ministry announces. Aerodromes are being set up every 600 miles, the present non-stop limit, from one end of Africa to the other, the principal ones being built at Cairo, Khartoum, and two in German East Africa, at Kampala and Ujiji.

The route then passes into Rhodesia, and along the course of the railway to the Cape. Long before the famous Cape to Cairo railway is in operation, it is confidently expected that airplanes will be covering the route on regular schedules. The distance is 5200 miles.

After establishing this service, the plan of the air ministry is to hand it over as a going enterprise to a British commercial company.

The air ministry is acting as a pioneer in various undertakings and, according to one of its officials, its position to commercial flying will be analogous to that of the British admiralty and merchant-marine service. A "Lloyd's Aircraft Register" is expected to make its appearance in the near future. "Already wireless stations on the continent signal the passage, apparent condition, origin, nationality, cargo and destination of passing aircraft."

"England," said the official, "if only on account of empire communication, has more to ask of other powers in the way of flying right than she has to grant. Air travel will not be, in the main, over the sea. That is too circuitous."

Commercial signal codes are being considered at the ministry, also the question of air police.

POLISH TROOPS REPULSE GERMAN VOLUNTEERS

WARSAW, March 13.— Polish troops, with the assistance of local militia, have repulsed German volunteer forces which attacked the oil field in the region of Dombrowka. Sil-

CHROME MINERS MUST FILE CLAIMS FOR WORK DONE

The Oregon bureau of mines and geology, Henry M. Parks, director, issues the following notice to chrome miners:

A bill was recently passed by congress authorizing the secretary of the interior "to adjust, liquidate, and pay such net losses as have been suffered by any person, firm, or corporation, by reason of producing or preparing to produce, either manganese, chrome, pyrites, or tungsten in compliance with the war industries board, the war trade board, the shipping board, or the Emergency Fleet corporation to supply the urgent needs of the nation in the prosecution of the war."

The bill further provides that all claims must be made within ninety (90) days after its passage.

All chrome miners who are entitled to relief under this bill should write to the secretary of the interior, stating that they have a claim to present and requesting the proper forms or questionnaires in order that their claims may be presented in the proper form.

GENERAL STRIKE OF ARGENTINE UNIONS

BUENOS AIRES, March 14.—A general strike has been declared at Mendoza affecting 36 unions, including food purveyors. The situation is reported to be grave.

The Many Mysteries of Nature
BY L. W. BOWER, M. D.

You can take an onion seed and a pansy seed, and plant them side by side in the same spot of ground. In one case, you get an onion, with its peculiarly strong odor, and in the other you get a flower of rare beauty. You can plant a poppy seed and get opium (a dangerous, habit-forming drug), or you can plant a rhubarb seed and get something that helps constipation. No scientist, living or dead, can explain these mysteries of Nature. Behind the invisible life germ in each seed is hidden the deep secret that nobody understands. Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening drains, bearing-down pains, periodical irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's-slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon Grape root. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it.

Favorite Prescription should have the full confidence of every woman in America because it contains no alcohol and no narcotics. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial pkg. Tablets. Adv.
