

UNITED STATES LEADS COMMERCE WITH ARGENTINE

LONDON.—(Correspondence of the Associated Press.)—Jorge A. Mitro, editor of La Nacion, of Buenos Aires, gave Great Britain some advice concerning the extension of its trade in South America while speaking at a dinner of journalists and public men the other day.

"It may be a matter of some concern to you," said Mr. Mitro, "that Great Britain, with the control of roads, railways and waterways in Argentina, has an inferior position to other countries on the market. Take, for instance, the case of agricultural machinery. In that line the United States are ahead of you because the American has made himself familiar with the needs and the fancies of the farmers."

"The South American people during the next few years will have money to spend. There is world wide demand for food, ours is a food exporting country, and prices are liable to be favorable to the producer. We shall want to buy not only locomotives, plows and other machinery, but motor cars, cutlery, plate, furniture, jewelry and finished leather goods. Who is going to supply us with these things? "One of the best instruments you can use in showing your South American policy during the remaining of the world is the British communities already established in the South American countries. In addition you must send out your travelers properly equipped. The utmost speak our language. All the efforts of British manufacturers to meet the requirements of South American markets will fail to be fruitful so long as your commercial travelers are ignorant of Spanish.

"Then there is the fresh flow of capital to South America. I understand that for some time there will be a restriction on the export of British capital to foreign countries, in order that the rate of exchange may be improved. You must be careful not to pursue a mistaken policy in this respect. It is the exchange of goods that makes prosperity and not balance."

FOOD CONFERENCE ON HOG PRICES

WASHINGTON, March 18.—Conditions caused by rising prices of hogs and pork products will be considered at a conference next Thursday at the food administration's grain corporation offices in New York between Frederick S. Snyder, former head of the meat division; Edgar Rickard, acting food administrator during Herbert Hoover's absence, and Ben S. Allen, of the food administration. In arranging the conference, Mr. Snyder today telephoned food administration officials from Boston that, regarding Chicago reports that maximum hog prices would be fixed, the only action he had taken had been to urge packers to hold down hog prices. The packers, food administration officials said today, were still under license and their products were controlled.

PHOENIX SCHOOL NOTES

Dr. Baillie gave the student body an interesting talk one day last week on the subject "How to Earn Money, How to Keep Money, and How to Spend Money." Sylvester Stevens, one of the high school students got his right arm broken just above the wrist, both bones. He fell while playing on the hay. Dr. Malmgren set the arm and Sylvester is getting along well.

The school has bought a victrola machine and expect to pay for it by giving entertainments. The first will be given next Friday evening, March 21. A small admission fee will be required.

The boys and girls have begun to prepare for their outdoor sports as the weather permits.

Both high school and grades will have physical exercise at the same period in the afternoon in the open air.

The pupils of the high school have taken full time for half year subject and will not take up any new subject, but double up on the one year subject. The grade work is up; the teachers are elated over being able to finish work by the first of June.

'MICKEY' COMING TO RIALTO THURSDAY

Local interest has been much aroused over the approaching engagement of "Mickey" at the Rialto theatre this coming Thursday, Friday and Saturday.

No picture presented since the birth of this amusement has attracted more attention. Mack Sennett, its producer, has taken his time in filming it, having been more or less occupied with this picture for two years, while additional interest is the fact that it has raised Mabel Normand to the ranks of the truly great film stars and established her firmly as Hollywood's best comedienne. In this picture Miss Normand completely loses her identity because she is always thought of as the character portrayed rather than as her own self. Because the story of "Mickey" is so vivid and appealing and the characters are so real and human, one will always remember the people in this play. Mickey is a lovable, harum-scarum, little tomboy who has been brought up in a mining town by old Joe, a miner, and an old Indian woman. Later she goes to the city where her aunt, thinking she is rich, only to find she is poor, puts her to work as a servant, where the little tomboy gets into all sorts of amusing and pathetic scrapes. Mickey has her share of romance, adventure and thrills. There is something doing every minute. This picture played to 63,000 paid admissions in Portland and will no doubt do a tremendous business here.

Stopped Cough After Influenza  
"I want to say that Foley's Honey and Tar is the best cough medicine I ever tried," writes E. B. McDowell, R. F. D. 1, Box 119, Arlington, Tenn. "My son had influenza. He had the worst kind of a cough and I tried everything, but nothing did any good. God sent me a friend with Foley's Honey and Tar, and his cough was better the next day and in two days he had no cough at all." Foley's Honey and Tar stops harsh, racking coughs; eases wheezy breathing. It is effective, yet pleasant to take. For sale by Medford Pharmacy.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister. Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin. State full description and price. Box N, Mail Tribune. \*  
Just massage Musterole in with the finger-tips gently. See how quickly it brings relief—how speedily the pain disappears. Use Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frozen feet, colds of the chest (if often prevents pneumonia), 30c and 60c jars; hospital size \$2.50.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost. Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.
