RUSSIAN OFFICERS FOUND MUTILATED

VLADIVOSTOK, March 26.—(By the Canadian Press.)—Bodies of two Russian officers, with the ears cut off and the hands nailed to the cholder blades, were found in First river near here Thursday. Allied officers claim the discovery corroborates stories of Bolshevik outrages.

Canadian officers and soldiers have been instructed to go only in pairs after nightfall in Vladivostok streets and to carry arms.

Nine Bolsheviks were arrested here yesterday. The political situation is increasingly disturbing.

300,000 RUSSIANS WILLING TO FIGHT—IF

PARIS, March 26.—(Havas.)—Boris Savinkoff, acting minister of war in the Kerensky cabinet, declares in an interview given here that 300,000 Russians are ready to fight against the Bolsheviks, but lack arms and equipment.

"GOOD-BYE BILL" AT LIBERTY TONIGHT

This comedy, "Good-bye Bill," at the Liberty tonight and tomorrow gets right down to the seat of the trouble with Germany and the German people. It shows how such an innocent appearing thing as a mustache-fixer can change the destiny of nations.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief for Acid Indigestion. So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion.

SENATOR LODGE

SENATOR LODGE of Massachusetts is the author of the senatorial round robin against the league of nations and the senate leader of the republicans. He is vigorously opposing the league, declaring the proposed covenant must be amended, but he is careful to avoid stating how it should be amended or suggesting amendments needed to secure senate approval.

In his recent debate with President Lowell of Harvard university, he stated plainly that his grievance was not so much against the league of nations as against the president for not having consulted the senate in advance as to the provisions of the constitution and terms of the treaty of peace.

Those who remember back a few years will recall a somewhat similar situation in the senate in January, 1906, when President Roosevelt's action in relation to the Algeiras conference and the Santo Domingo affair was pending—and President Roosevelt being censured by the senate as President Wilson is today, for not consulting the senate in preliminaries.

The two attitudes of Senator Lodge are best shown in parallel columns:

Lodge in 1919. If the president of the United States had done what other presidents have done, if he had laid that before the senate—I am only asking something that has been done by almost all our presidents, who have consulted the senate before entering into negotiations, about the character of the negotiations, about awards, about pending negotiations.

If the president had laid that draft before the senate, as other presidents have done, if he had said to the senate, "I submit this draft to you for your advice, I hope for your approval and for such suggestions as you may have to make," he would have had the amendments laid before him to present to the peace conference in Paris.

He not only did not lay it before us, before the constitutional body which is entitled to advise him, but he does not call the senate together now to advise him.

Under a republican president, Lodge declared that the senate had "no possible right to break suddenly into the middle of a negotiation and demand from the president what instructions he has given his representatives."

Under a democratic president, Lodge declares the president has no right to conduct negotiations without consulting the senate.

Have we one constitution for republican administrations and an entirely different constitution for democratic administrations? Have republican presidents ample power to negotiate treaties without consulting the senate and have democratic presidents no power to do the same thing without senate permission?

Senator Lodge always a Tory, has proven himself also a cheap demagogue and petty insincere politician instead of a statesman of vision and perspective.

His leadership emphasizes how much out of touch the republican leaders are with the republican masses—for only the rabid reactionaries follow them in their latest effort to thwart the logical result of the war.

It is the blind leading the blind. In June, 1915, the same Lodge was advocating a league of nations, along just such lines as that being organized in Paris.

What can we do in the larger sense toward securing and maintaining the peace of the world? This is a much more difficult question, but turn it back and forth as we may there is no escape from the proposition that the peace of the world can only be maintained as the peace and order of a single community are maintained, as the peace of a single nation is maintained, by the force which united nations are willing to put behind the peace and order of the world.

MILLION AND HALF SIGH FOR HUSBANDS

LONDON, Mar. 26.—There are one and a half million women in this country who will never have the chance of getting married, is the statement of Miss Norah March, editor of National Health. In 1917 there was a surplus of 1,337,000 marriageable women over marriageable men, and since then there have been the war casualties of 1918.

Miss March says that emigration will remove a few of these surplus women while economic independence will prevent women from marrying men for the sake of a home. "Many men and women in this age of modern advancement," says Miss March, "are getting different views from those held in the past, and regard women's right to motherhood as a supreme individual prerogative. Having such a wide choice of wives, the question remains as to whether the men will choose the best and strongest women, as upon the women will depend largely the future human race, since the best of manhood has been cut off. The choice really rests with the woman for with her is the right of refusing an offer of marriage."

NO GERMAN LAND TO BE SURRENDERED

BERLIN, Tuesday, Mar. 25.—"I take a most solemn oath that the government will not surrender to the enemy one inch of German territory, either east or west," said Dr. Schiffer, minister of finance in the new cabinet, in addressing a crowd in front of the chancellor's palace on Sunday, according to the Tages Zeitung.

BELLANS FOR INDIGESTION. JOHN A. PERL Undertaker. Phone M. 47 and 47-32. Automobile Hearse Service. Lady Assistant. 32 SOUTH BARTLETT. Auto Ambulance Service, Coroner.

CANADIANS ASK BAN ON U. S. FILMS

VICTORIA, B. C., March 26.—British Columbia's legislature, believing too many American war films and too few Canadian war pictures are displayed in British Columbia moving picture houses, has invited Attorney General Farris to instruct Walker Hepburn, moving picture censor, to put a ban on pictures from across the border.

Attorney General Farris declared recently he had been somewhat irritated at seeing so much of the American flag on local screens and so little about the achievements of Canadian soldiers who fought the war through.

EXPOSE MONOPOLY OF BASEBALL LEAGUES

WASHINGTON, March 26.—What he termed the monopolistic methods of organized baseball were described today by L. Edwin Goldman, former director of the Baltimore club of the Federal league, testifying in the trial of the club's suit for damages under the Sherman anti-trust law against the National and American Leagues.

The witness said when the Federal League started to break the "baseball monopoly" the organized interests controlled every club and every professional player in the United States, including 225 clubs and nearly 9,000 players.

REV. A. J. VALLERY MAKES STATEMENT

Says Tanlac Has Overcome His Troubles and He Feels Like a New Man. "I feel that it would be helping others to tell what Tanlac has done for me," said Rev. A. J. Vallery, living at 834 Chelsea ave., Memphis, Tenn.

"About three years ago," he continued, "I had a general breakdown that made me very nervous. I had a sour stomach and would spit up undigested food. The pains in my stomach hurt so at times that I thought they would kill me. I also suffered with rheumatic pains in my joints and my kidneys were in bad shape, my sleep was poor and I felt so tired all the time that I could not do my work."

"Since taking Tanlac I have been relieved of indigestion and those pains are all gone. My kidneys don't trouble me any, I am not nervous like I was and I can sleep fine, every night. My strength and energy have been restored and I feel like a new man."

Tanlac is sold in Medford by West Side Pharmacy, in Gold Hill by M. D. Bowers, in Central Point by Miss M. A. Mees, in Ashland by J. J. McNair, in Eagle Point by Von der Hellen, Adv.

Furthering Farming. THIS, you will find the First National Bank constantly striving to do. Wherever we can aid with increasing the crops or bettering the livestock, you may be sure we're going as far as safe banking permits. Rent a Safe Deposit Box. Wm. G. Tait, President. FIRST NATIONAL BANK MEDFORD, ORE. CAPITAL \$100,000

FRENCH CLAMOR FOR RIGHT OF RHINE

PARIS, March 25.—"The right bank of the Rhine must not belong to Prussia," said Henry Franklin-Bouillon, former minister of missions abroad, in a speech delivered in the chamber of deputies this afternoon.

"The right bank of the Rhine," continued the deputy, "must serve no more as a base for Prussian aggressions against France. We ask this indispensable minimum and it is our right to exact it."

"The silence of the government and its other methods have culminated in the maximum of unrest in the country and the maximum of anarchy outside of it. Germany begins to raise her head. It was with anguish that we learned that France had not exacted disarmament of Germany and that it was England who was obliged to seek to disarm Germany for the benefit of France."

"OH, IF I COULD BREAK THIS COLD!"

Almost as soon as said with Dr. King's New Discovery Get a bottle today! The rapidity with which this fifty-year-old family remedy relieves coughs, colds and mild bronchial attacks is what has kept its popularity on the increase year by year.

This standard reliever of colds and coughing spells never loses friends. It does quickly and pleasantly what it is recommended to do. One trial puts it in your medicine cabinet as an absolutely indispensable. 60c and \$1.20.

Prescription Chemicals

The reputation of the Drug-gist—the satisfaction of the Physician—and the welfare of the patient require that chemicals used in dispensing should conform to the highest standards for purity. We use SQUIBB'S.

A Crawler Tractor Costs Less to Own. Image of a man operating a Cleveland crawler tractor in a field.

The Cleveland Tractor. Preparing the ground for spring work must take into consideration wet weather as well as packing the ground. The farmer who does his heavy work with horses has the expense of keeping these horses, and yet is not able to do his work as quickly as the farmer who has a tractor. The farmer who has a tractor can do his work quicker than a horse farmer, but must keep some horses in reserve to help out on heavy work in case of wet weather, or to pull over these places where the tractor wheels slip. The Crawler Tractor Farmer is independent of either wet weather or soil conditions, and does not need to keep the extra horses in reserve for heavy work. The fact that a crawler tractor takes the place of more horses than does a wheel tractor is one of the numerous reasons why so many farmers buy crawler type tractors when they purchase their second tractor. THE CLEVELAND. Costs less to own than other tractors because it is more reliable and accomplishes more work in a given time. It has roller bearings throughout, four cylinder heavy duty motor, with working parts enclosed against dust. Hubbard Brothers.
