

Local Briefs

The local office of the U. S. Employment Service reports a heavy demand for ranch and orchard hands and up to this time has not been able to secure sufficient help for this class of work. With most of the outside work delayed this season on account of wet weather, the last week or two of sunshine has brought on a congestion of ranch work with a consequent immediate demand for labor. The employment office can place several soldiers at once on work of this kind.

The University of Oregon Glee club members who so pleased with their singing at the Page theater last night left on the late afternoon train today for Grants Pass where they appear in concert tonight. Last night's splendid concert merited a far larger audience, which was the smallest to greet the club during its present spring tour. This is explained by the fact that the club's appearance here was sandwiched in between two such big theatrical attractions as Kolb & Dill and Pollyanna.

The board of education recently passed a resolution authorizing the superintendent of schools to investigate the necessary steps in making application for the accrediting of the high school on the Northwest Association of Secondary and Higher Schools. This has been done and the necessary blanks have been filled out and submitted. Shortly after the Spokane meeting of the Inland Empire Teachers association the list of accredited high schools of the Northwest association will be published. It is hoped that the Medford school may be placed on this list, for it is only another means of raising the standardization of the high school since it is necessary that several rigid conditions be met.

Are You a Bolshevnik?

Bolshevism is based upon violence, relies upon force, is deaf to right or reason.

To force the bowels to move by taking castor oil, pills, salts, mineral waters, etc., is to outrage Nature and "bolshevnik" the body. Because drugs act by producing irritation.

Castor oil, for instance, is so obnoxious that the bowels make frantic effort to get rid of it. Other medicines, from senna to salts, provoke action by causing the bowels to try desperately to expel them first.

With such remedies therefore the removal of bowel waste is secondary and wholly incidental. Hence, the result is not to cure constipation, but on the contrary, to make it worse, more obstinate, harder to overcome.

On the other hand, Nujol is not a drug, does not act like any drug, acts mechanically, not medicinally; persuades Nature instead of forcing her.

Nujol supplies necessary moisture to soften intestinal contents and facilitate easy, thorough evacuation at regular intervals. Nujol makes easier and more effective the action of intestinal muscles. Nujol absorbs poisonous material.

Nujol is free from any deleterious after effects, forms no bad habits, can be used at any age, under any conditions, and overcomes constipation because it works hand in hand with Nature—with her laws, not against them.

Self-poisoning due to constipation causes over 90% of human illness. Get a bottle of Nujol from your druggist today, and send coupon for free booklet—"Thirty Feet of Danger."

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.
