

G. L. TREICHLER APPOINTED CHAIRMAN OF COMMITTEE TO ENTERTAIN U. S. EDITORS

At a meeting of the board of directors of the Commercial club last night George L. Treichler, president was appointed chairman of the executive committee in charge of the National Editorial association excursion which will visit Crater Lake on August 11th as guests of southern Oregon. This is by far the most important and the largest delegation ever to visit the city, and altho there are several months ahead, Secretary Steele emphasized the necessity of starting preparations at once so that when the visitors arrive everything will run off with clock-like precision.

Medford will not try to monopolize this delegation, or the credit for entertaining it. Both Ashland and Grants Pass will be invited to join as hosts. The visitors will be given a breakfast in Medford arriving on a special train from Portland which Portland has agreed to furnish at a cost of \$6000. At Prospect a luncheon will be given by the people of Prospect, the luncheons being passed to each car as it drives up.

A committee will be appointed to attend to the accommodations at Crater Lake, Manager Parkhurst having made a special rate which will be paid for by the individuals themselves. There will not be sufficient sleeping accommodations at the Inn, and Mr. Sparrow has agreed to do what he can to secure the government camp equipment.

As far as publicity is concerned this excursion will surpass anything ever before imagined. Every visitor will be not only a person of influence but will have the ears of thousands. In many cases hundreds of thousands of people. The editors will come from all parts of the country and the resulting advertising will be worth hundreds of thousands of dollars. The Medford Commercial club intends to see that when the delegates leave they will have not only a favor-

able idea of Medford but one they will not soon forget.

Rev. Millard of the Christian church has presented a plan of a children's community chorus of 500 from ten to twenty years of age, to sing in the city park. Rev. Millard will lead and train them and if he receives the endorsement of the club, the city council and the school board will solicit subscriptions to erect seats in the city park where the summer concerts will be given. The directors took no formal action but are in sympathy with the plan, and will aid if the city council gives its approval.

Secretary Steele's report showed the finances of the club and the membership in greatly improved condition. It was decided to liquidate old bills as soon as possible, the finance committee being instructed to devise ways and means. The automobile question was discussed and it was decided to dispose of the car during the county fair next fall.

In order to facilitate club affairs the bye-laws were amended reducing the quorum to five directors, so that during the summer months there will not be so many adjourned meetings because of absences.

Upon the suggestion of W. G. Tait the secretary was instructed to write the Southern Pacific and request that the right of way thru Medford be cleaned up and put in a more presentable condition. The club believes the buildings belonging to the company could at least be given a coat of paint as they are at Central Point and Phoenix.

The matter of a parking ground was considered and the directors decided that as there is no desirable site that is available it would be good policy and a practical indication of the new Medford spirit to inform tourists of the splendid accommodations at Ashland for camping out and the superior hotel accommodations in this city.

FIRE NIGHT COP FOR TAKING NIP OF CHINK WHISKEY

Night Policeman William Garrett, better known by his nickname of "Bill" is no longer an officer of the law looking after the peace and morality of Medford between the hours of midnight and 8 a. m. Garrett resigned under pressure, or in other words was fired,—fired, snuffed and scorched by Mayor Gates yesterday, and now the familiar haunts that knew him the past six months or more know him no more.

All this because Bill allowed his curiosity and thirst to get the better of him in the police headquarters in the Commercial building Sunday night, and sampled some of Lou Jew's whisky being held against the Chinese bootlegger who was so heavily sentenced yesterday.

Garrett, according to the mayor, admits that he took a drink out of one of Lou Jew's demijohns. That he was about to fill a half pint bottle from the demijohn is the statement of William E. McFurson, the new deputy sheriff and motor cycle cop who happened in the police station unexpectedly and stopped the proceedings.

McFurson did not place Garrett under arrest as the latter promised to appear before Mayor Gates next day.

When Garrett appeared before the mayor yesterday morning he was given a verbal tongue lashing and told to quit the police force at once. Garrett then demanded that if he must quit that he be given immediately what pay was due him from the city to date. Mayor Gates quickly paid him out of his own pocket and Bill was returned to private life.

CHARGE KOREANS WITH MURDERING JAP POLICEMEN

WASHINGTON, April 8.—Seoul newspapers say that letters have been received from missionaries complaining of the harsh treatment by gendarmes and policemen of people engaged in demonstrations in Korea. It is said that witnesses of these incidents have condemned the part played by "Japanese civilians." This apparently refers to the appearance in the streets of Seoul of Japanese armed with clubs. It is admitted that many complaints against the police have been made, but it is remarked that the government has ordered the officers to deal as leniently as possible with disorderly persons. It is asserted that in the interior of the country the Koreans have massacred policemen and gendarmes and that the families of the victims have also been killed.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, Etc. Hall's Family Pills for constipation.

WILLIAM FARNUM AT THE LIBERTY TONIGHT

William Farnum and an exceptionally able supporting company, including hundreds of people, are presented in the Paramount production of Wilson Barrett's famous drama, "The Sign of the Cross," which will be shown at the Liberty theatre today only.

PROCLAIM WORLD WAR.

(Continued from page one.)

all the bourgeoisie parties of the three Franco-German governments, upper, lower and middle Franconia, met in Bamberg and registered a unanimous protest against the proclamation of the new regime at Munich.

"The whole population of northern Bavaria," reads the protest, "is warned against allowing itself to be intimidated through fear of a vanishing minority, mainly consisting of persons predominantly of a foreign race.

On a Precipice

"Bavaria is on the edge of a precipice and if it is not preserved from a downfall everything is lost. Bavaria will then become the prey of fratricides, plunderers and famine. A further consequence will be the complete collapse of economic life. Foreign countries will refuse food and assistance to a Bolshevik Bavaria, and help from Russia and Hungary is out of the question, as they are tortured by famine.

"These who tell you this are your countrymen and not foreigners, who a few months ago knew nothing of Bavaria and who are indifferent to your fate."

SLIGHT DAMAGE REPORTED FROM FROST THUS FAR

Life this week seems to be just one darned thing after another with the orchardists of the valley for, in addition to the bad frost of this morning following the one of early Monday, the San Francisco weather office predicts a heavy frost for Wednesday morning.

While the frost of today was two degrees colder than that of Monday there was no data at the hour of going to press this afternoon as to how much damage had been done. But the minimum of 27 degrees above in Medford and immediate vicinity was reached at about sun-up and it was cold such a short time, it is generally thought the orchards in general escaped.

Reports show it was much colder in several other parts of the valley, the Bear Creek orchard having a temperature in the neighborhood of 24 or 25, and the Holloway orchard having a 28 degree mark. North of Medford it was reported to have reached 23 in some places. A number of the orchards smudged making a thick pall which soon drifted to the eastern part of the valley.

County Agriculturist Gate before making a trip of inspection this afternoon said he was of the opinion the frost thus far had not injured the pear crop but had perhaps been severe on the apricots and peaches. The latter are so heavily set however that only a killing freeze could cause serious damage. A killing freeze is what is feared in the morning.

J. A. Perry inspected several peach orchards this morning and reported he found only about ten per cent of the blossoms injured.

HAWLEY SECURES DISCHARGES FOR OREGON SOLDIERS

SALEM, April 8.—Representative W. C. Hawley, of the First Oregon district, has received a letter from Major General Henry Jersey, assistant chief of staff, war department, advising him in reply to his request that about 500 soldiers at East Polomac Park, near Washington, be discharged that they may return to families and positions in Oregon, that about a hundred men, selected according to the urgency of their reasons for discharge, will be released within a very short time and that still further reductions will be made from time to time as the nature of the duties of this special organization and other troops to take their place, will admit. Mr. Hawley is advised in General Jersey's letter that the regiment to which the Oregon soldiers are attached is being used to guard valuable government property and other indispensable duties, and that there is a present necessity for keeping adequate forces there.

FOLLOW THE TRACKS FOR THREE DAYS

Tracks always have the atmosphere of mystery about them. Doesn't make any difference whether they be railroad tracks, which lead into the land of far away, or little or big foot prints.

Tracks key up your imagination—particularly odd looking tracks. Perhaps you can't figure out the sort of animal that has passed on its journey. That adds to the zest of the question.

Many animals have big, husky feet, and it's worth while brushing up on this track business to discover what kind of an animal makes foot prints like the ones that are printed in today's issue.

After all, a little fun adds to the joy of living. And you'll undoubtedly get some fun out of this real old time mystery.

In Readjusting your habits of eating and drinking—often necessary after strenuous occupation—you will find an excellent re-builder in the delicious wheat and barley food

A RAW, SORE THROAT

Eases Quickly When You Apply a Little Musterole.

And Musterole won't blister like the old-fashioned mustard plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain.

Musterole is a clean, white ointment made with oil of mustard. It is fine for quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds on the chest (it often prevents pneumonia). Nothing like Musterole for croupy children. Keep it handy for instant use. 30c and 60c jars; hospital size \$2.50.

QUALITY MARK

APRIL

THE wearing of a diamond is said to bring good fortune to the April born. Diamonds, the most beautiful of stones, also signify prosperity and good investments.

Appear prosperous and have your money well invested where you can't turn it at a moment's notice. Let us tell you our plan for selling diamonds.

DIAMOND RINGS
\$6.00 to \$850.00

Are You a Bolshevnik?

Bolshevism is based upon violence, relies upon force, is deaf to right or reason.

To force the bowels to move by taking castor oil, pills, salts, mineral waters, etc., is to outrage Nature and "bolshevnik" the body. Because drugs act by producing irritation.

Castor oil, for instance, is so obnoxious that the bowels make frantic effort to get rid of it. Other medicines, from senna to salts, provoke action by causing the bowels to try desperately to expel them first.

With such remedies therefore the removal of bowel waste is secondary and wholly incidental. Hence, the result is not to cure constipation, but on the contrary, to make it worse, more obstinate, harder to overcome.

On the other hand, Nujol is not a drug, does not act like any drug, acts mechanically, not medicinally; persuades Nature instead of forcing her.

Nujol supplies necessary moisture to soften intestinal contents and facilitate easy, thorough evacuation at regular intervals. Nujol makes easier and more effective the action of intestinal muscles. Nujol absorbs poisonous material.

Nujol is free from any deleterious after effects, forms no bad habits, can be used at any age, under any conditions, and overcomes constipation because it works hand in hand with Nature—with her laws, not against them.

Self-poisoning due to constipation causes over 90% of human illness. Get a bottle of Nujol from your druggist today, and send coupon for free booklet—"Thirty Feet of Danger."

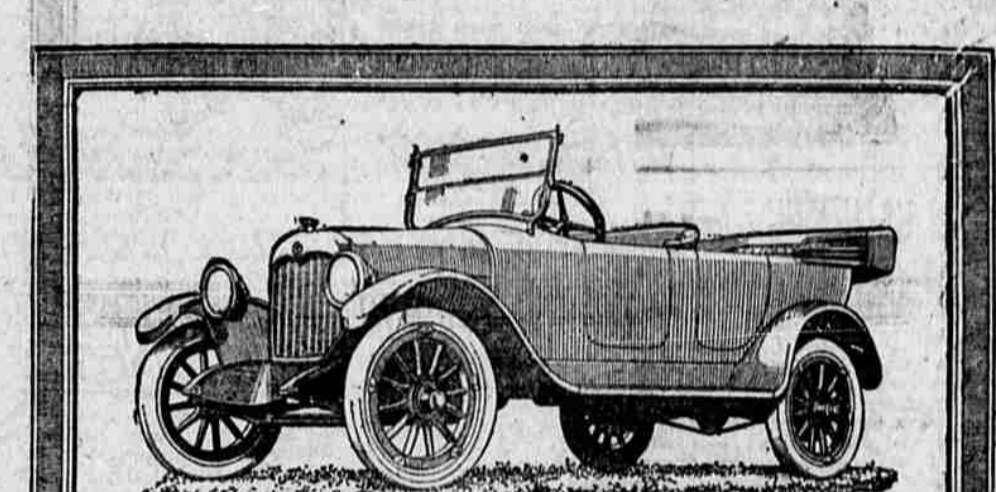

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.

Maxwell—

A Car of Assured Reliability

THE reliability of every Maxwell is assured by the volume produced. One model quantity production involves the investment of millions of dollars in special machinery, plants, laboratories, etc., before a single car is produced.

Therefore, the basic design must be right—right beyond any question—before this special equipment is installed.

And after production starts absolute accuracy in every part must be assured to prevent delays, wastage, hand-labor—things we can't afford.

No tools are too expensive—no precautions too elaborate—to assure this result.

This was our original plan and it has been consistently followed in producing the 300,000 Maxwells now on the roads of the world.

It is the reason why of Maxwell reliability—economy—uniformity.

A car made right to begin with saves you many a dollar even after you buy it.
