SAYS HOT WATER WASHES POISONS FROM THE LIVER
Everyone should drink hot water with phosphate in it, before breakfast.
To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent the sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

The Publication of Notice to Exterminate ground squirrels in three issues of the Daily Mail Tribune and Ashland Tidings pursuant to the Statute in such case.

Notice to Exterminate Ground Squirrels
Every person, firm, co-partnership, company or corporation residing on, owning, leasing, occupying, possessing or having charge of or dominion over any land, building, wharf or dock located with digger ground squirrels in Jackson County, Oregon, is hereby notified to begin at once to effectively exterminate and destroy all such DIGGER GROUND SQUIRRELS.

The following poison for mixing and instructions for use thereof is the method most expedient and effective to be used for the extermination and destruction of such ground squirrels and is hereby recommended, to-wit, alkaloid strychnine used on either barley or wheat, barley preferred, mixed according to the following formula and manner, to-wit:
