

U.S. AEROPLANE FLEET TO VISIT CITY IN JUNE

E. V. Carter of Ashland Largely Responsible for Rose Festival Flyers Giving Exhibition in Valley En Route to Portland in Early Part of June.

Thanks to the efforts of E. V. Carter of Ashland, there will be an airplane exhibition in the valley in June. Originally the flight from Mather Field to Portland of a fleet of planes to mark the opening of the Rose Festival in Portland, June 11-13, was scheduled to leave out Jackson county entirely. Grants Pass being the only place mentioned in Southern Oregon. Mr. Carter while in Portland recently, brought the matter to the attention of Lieutenant Colonel T. W. Hammond, a Jackson county boy, brother of Mrs. Charles Young and Robert Hammond of Medford. Colonel Hammond thereupon took up the question with Colonel Milton F. Davis, director of air service, himself a former Oregon boy from Polk county. Davis was enthusiastic in favor of giving every possible district in the state a view of the planes and said he himself would make a flight if possible, and make a landing on the Davis ranch in Polk county where he would eat lunch.

The following telegram from the Rose Festival committee in Portland announces the perfection of the plan:

Mail Tribune, Medford, Ore.:

Final arrangements for airplane flight from Mather Field, Sacramento, to Portland as feature of Victory Rose Festival, June 11, 12 and 13, have been authorized by Colonel Milton F. Davis of air service, United States army, through efforts of Victory Festival committee and Aero club of Oregon. Colonel Miller has urged commander of Mather Field to arrange for exhibitions in your city. Exhibitions at Ashland, Medford, Roseburg, Eugene and Salem is word sent by Colonel Davis in letter of authorization. Fleet will include J N-4-B planes as well as several DeHavilland planes which are equipped with Liberty motors and were used by Americans on battle field in France. Trial flight in advance of big flight probable.

HENRY E. REED,
Director Publicity Victory Rose Festival Association.

Instead of two flights being given in the valley, it is probable one flight between Medford and Ashland will be scheduled, which will be available to the people of both communities.

ORIENTAL PRINCESS AT PRESBYTERIAN SUNDAY MORNING

What will probably be a most pleasing and instructive entertainment will be the public appearances on Sunday morning and Tuesday evening April 27 and 29, of Princess Rahme Halder, descendant of a long line of princesses of ancient Syria and whose family legends run back 4000 years ago.

On Sunday morning at the regular hour of worship at the Presbyterian church, Princess Rahme will deliver one of her most popular lecture-lectals "Under Syrian Stars," telling of the social and political conditions of that historic country, the Holy Land, which has been brought closer to the hearts of the American people since happily freed from the dominion of the cruel Turk.

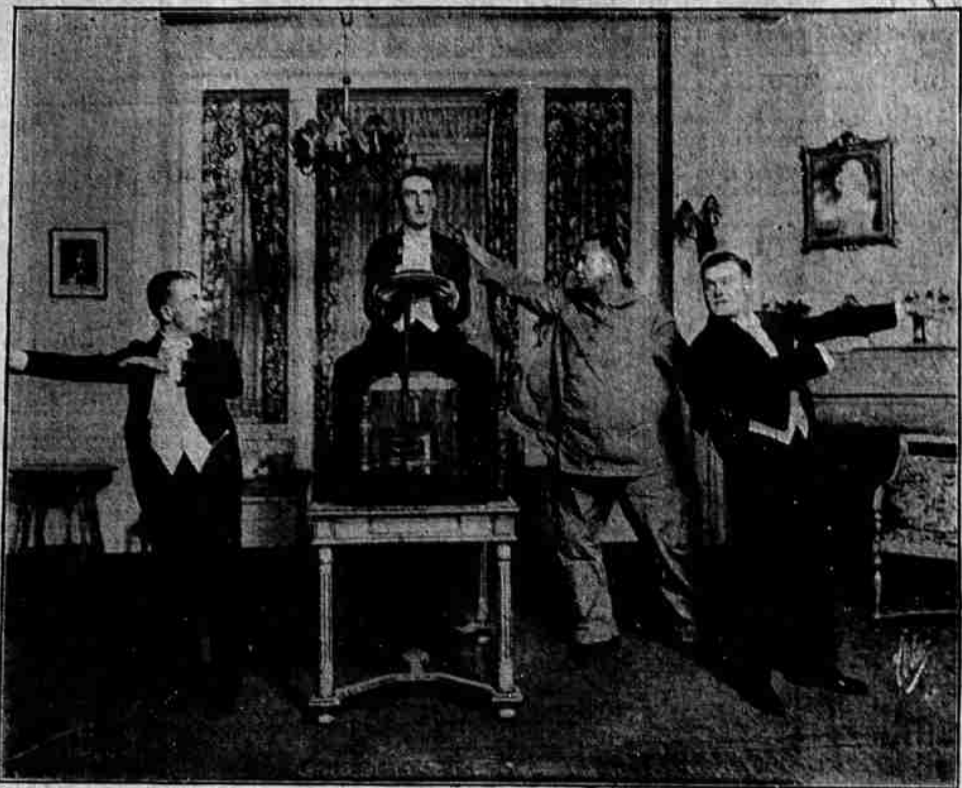

Tuesday evening at the same auditorium at 8:15, the princess will make her second appearance in this city, presenting her own interpretation of the old Biblical story of "Naaman, the Leper." It tells how the early Syrian people were turned from the worship of Baal to the worship of the true God of Israel. Most charmingly does it depict the part played by the Hebrew captive maid in bringing about this great change.

Being a real princess, one born and reared in old Palestine of Biblical fame, she is well able to offer for her hearers her word picture of that country in a most charming manner. She has been educated in the best universities and colleges of the Old East and the New West, having attended the American colleges at Sidon and Beirut and has since taken degrees from the best colleges in our own America.

In both performances, Princess Halder will wear her regal robes of Damascus blue satin, hand made by native girls. They are heavy with gold and jewels and each design has its own poetic significance. She will be assisted by Miss Lucille Burgess, who accompanies the royal visitor and who will render the Oriental music, both Syrian and Egyptian.

WORK STARTED ON IRRIGATION DITCH IN TALENT DISTRICT

Contractor Chris H. Natwick, of Eagle Point, began work this week at both ends of the main ditch of the Talent irrigation district—one end of the ditch being on Wagner creek and the other in the foothills west of Phoenix in what is known as the Griffin creek section. While only small crews are at work so far more men will be added as fast as they can be procured. The main ditch will be seven miles long.

This morning contracts for the supply ditch leading from McDonald creek to Wagner Gap, a distance of four miles, were opened at Talent. Two bids were submitted, one by Stewart & Carlton of Medford and one by Natwick & Brown of Eagle Point. The contract was awarded to the former.

Demand for the Talent municipal irrigation district 6 per cent gold bonds, Jackson county, Oregon, being offered this week by Freeman, Smith & Camp company, is attributed to the fact that they are a direct general tax lien upon 8417 acres of the famous Rogue River valley lands, 90

per cent of which is under cultivation. This district is unusually attractive because such a large percentage of it is under cultivation and income producing at the time of issuing its bonds.

Freeman Smith & Camp report that less than \$50,000 of the issue remains unsold. The Oregon law regarding the issuance of irrigation bonds is very similar to the California law and equally strong in the way of safeguarding investors.—Ashland Record.

PREMIER GIVTN OVATION (Continued from page one.)

nally caused him to withdraw while the plan that might have brought about an agreement was still under discussion. The basis of this presumptive accord is said to have been the partial internationalization of Fiume, like Danzig, with the Jugoslavs occupying the Dalmatian mainland and the Italians the outlying islands.

Washington Is Worried
The territorial issue now is felt to be less important than the personal issue which the Italian premier has raised by his plan for going before parliament and asking a vote of confidence. Should this be given, it is thought probable in some quarters that it would renew the Italian issue before the council in a more pronounced form than either President Wilson or the council as

a whole has thus far been willing to admit. Should it not be given the probable result would be cabinet changes, bringing a new delegation, with a new policy to the conference. There are evidences that President Wilson has avoided using anything which might be construed as economic pressure upon Italy; although some quarters have suggested this as an effective weapon. Secretary of the Treasury Glass has asked a credit of \$50,000,000 for Italy and this request is now on the president's desk for final determination.

To Whom It May Concern
The Greater Medford club is the sole owner of the grand piano in the library assembly room and people are positively forbidden to open or use the above piano without permission of the
GREATER MEDFORD CLUB.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

RANCHER HELD TO GRAND JURY FOR HARD CIDER SALE

The jury in Justice Taylor's court yesterday afternoon was unable to agree on a verdict in the case against Ell Dahack, a rancher residing near Eagle Point, on the charge of having intoxicated liquor in his possession, and the case was dismissed. However, on the same evidence Justice Taylor today bound Dahack over to the grand jury on the charge of selling intoxicating liquor.

Dahack's arrest grew out of his possession of two and one-half barrels of hard cider, some of which got into the hands of two boys aged 13 and 15 and resulted in both being badly intoxicated. The arrest followed the sheriff's taking possession of the hard cider a week ago on orders from Prosecutor Roberts, who had samples of the cider analyzed by Miss Holt, chemistry teacher in the Medford high school. Miss Holt found the cider to be 11.4 per cent alcohol.

Dahack's main defense at the trial yesterday was that he was making the cider into vinegar. He also denied selling a gallon of the cider, or any other quantity, to the two boys, and asserted that they stole the cider after he had refused to sell them some.

The boys, however, testified that they bought a gallon of the stuff from him and took a part of it away with them at that time. One of the youths testified that they returned later and got the remainder, but the other testified that they did not. It is said that the latter was so intoxicated that he did not remember anything after drinking the cider.

Prosecutor Roberts represented the state in the case and Porter J. Neff defended Dahack.
