## MOST CRITICAL WEEK OF PARIS MEETING OPENS

Final Action On Covenant Expected at Plenary Session—Jap and Chinese Claims to Shantung Most Important Problem—Germany Seems to Be Quieting Down.

BY THE ASSOCIATED PRESS.

April 28.—What promises to be perhaps the most eventful week yet of the Paris peace conference opens today with a plenary session of that body, with final action on the covenant of the League of Nations in prospect.

There also is a feeling prevalent in Paris that the treaty of peace will be ready for presentation to the German delegates by Saturday of this week, before which time it is hoped the Italian situation may resolve itself.

As to the peace treaty, the most important matter still to be settled is the problem of composing the Japanese and Chinese claims to Kiao Chau and the Shantung peninsula. A decision on this subject has been expected for several days and it may be announced today.

German Problems  
Matters dealing with the disposition of the German cables, the repatriation of German prisoners of war and the future status of the Kiel canal and questions relative to Luxembourg also are pending, but it is believed they are in a fair way toward adjustment.

At the public meeting of the peace conference to be held today the revised draft of the covenant of the League of Nations will be presented. This draft, differs in some important respects from that brought to America by President Wilson last February.

It is probable that Japan will make an effort to secure an amendment to the covenant which will grant the Japanese claims for recognition of racial equality.

Germany, with the exception of Bavaria and Silesia, seems to be much quieter than it has for several weeks. A general strike is reported in the coal and iron district of upper Silesia and the iron industry is seriously affected.

Opposing Feeding Russia  
The Russian Bolsheviks have suffered important reverses on the eastern front and Admiral Kolchak's forces seem to be making gains which may develop most favorably in the near future. Troops which have been fighting against the allied forces in northern Russia are reported to have been withdrawn and sent to the eastern front where the danger to the soviet government seems more threatening.

Dispatches from Paris indicate that the plan to provision the larger cities in Bolshevik Russia is making little progress and that opposition to it is growing in anti-Bolshevik circles.

S. P. ORDERS R. R. TIES  
TOTAL 2,000,000 FEET

PORTLAND, April 28.—R. L. Francis, assistant purchasing agent for the federal railroad administration, Southern Pacific lines, has begun placing orders for railroad ties to aggregate 20,000,000 feet among the mills of the northwest. The ties will be shipped by rail. Previous orders for ties for shipment by steamer from Oregon and Washington ports this spring have aggregated 50,000,000 feet.

The Medford-Klamath Falls auto stage which began its schedule last week now makes a daily trip in both directions, going via the Hornbrook route, 32 miles farther than the usual route over the Green Spring mountain road, which is impassable because of the snow and mud. As soon as the latter road is dried out and has been dragged the stages will go by the Green Spring mountain route.

## BUSINESS MEN TO CULTIVATE FOREIGN TRADE

ST. LOUIS, Mo., April 28.—American business is determined to meet the needs of this nation and foreign countries during the remainder of the readjustment period and after, leaders in finance and industry declared today at the convention of the Chamber of Commerce of the United States.

But to carry out this program, the speakers warned, there must be no delay in bringing about the closest cooperation of all branches of finance and industry.

With this cooperation, America will be able to immediately develop her foreign trade, which was characterized by some delegates as "a responsibility to the rest of the world."

International commercial arbitration received careful attention.

Obstacles and setbacks encountered by business generally since the signing of the armistice are gradually being overcome, according to reports.

But grumblers of the northwest, lumbermen of the far west, cotton men of the east all had their problems to place in the big melting pot out of which the convention hopes to mold a concrete policy.

The unemployment question, particularly as it pertains to returned soldiers, will be taken up. Reports submitted today indicated that the situation had been somewhat relieved by the opening of spring work and by the fact that the soldiers are returning in small groups.

WOMAN SUFFERED 12 YEARS

Finally Made Well by Taking Lydia E. Pinkham's Vegetable Compound.

Emmitsburg, Md.—"I suffered for twelve or fifteen years, and was treated by a physician, but got little relief. I saw an advertisement of Lydia E. Pinkham's Vegetable Compound in my newspaper, so I thought I would try it, and it did me more good than all the doctor's medicine. I am a farmer's wife and do my housework all the time, and I am better now than I have been for years. I am never without Lydia E. Pinkham's Vegetable Compound in the house and have recommended it to several of my friends. You are perfectly welcome to publish my letter for the good it may do other women."—Mrs. ETTIE WARREN, Emmitsburg, Md.

Backache and nervousness are symptoms or nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment.

Women in this condition should not continue to drag along without help, but profit by Mrs. Warren's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound—and for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.
