

### HIGH SCHOOL TO GIVE COMEDY AT PAGE THURSDAY

The senior class of '19 is putting on a very unique and interesting play, Thursday, May 8. The play, tho a professional one, is very well suited to amateur production. It is full of dramatic situations and there are many humorous lines in the play. Celia Faraday who "attends to everything" at the Faraday home is highly distressed because of having to obey for a third time an old English custom—i. e. an English girl if unmarried must wear green stockings at her younger sister's wedding. In order to keep from having to wear the green stockings again she, on the spur of the moment, announces her engagement to a fictitious Colonel Smith. After eight months of being the belle of the community she sends a notice to the "Times" announcing the colonel's death. Then the real Colonel Smith turns up, and the music begins to play.

Miss Newland, who is directing the play has had a great deal of experience in directing plays and she states that the boys and girls of the cast are doing exceptionally well. The play promises to be one of the best amateur productions Medford has had the opportunity of seeing.

### Marguerite Clark at the Liberty Tonight

The first word of love  
**MARGUERITE CLARK** in 'The Crucible'

In the powerful drama of "The Crucible," which is to be shown at the Liberty theatre today, Marguerite Clark plays the part of little Jean Faneushaw, at first hoyden and tomboy who is unjustly condemned to a reformatory, and who later triumphs over the shame of her imprisonment and the sordid corruption of her environment, returning good for evil to those who worked havoc with her life. "The Crucible" is a blending of quaint characterizations and wholesome romance, and Marguerite Clark gives a pathetic charm and winsome grace to the character of Jean Faneushaw.

**If this is to be your year get a Maxwell**

THERE are untold numbers in America who have felt Old Man Opportunity slap them on the back in the last four months. This is to be *their* year.

If you be one of them let your mind turn to a larger, more luxurious car—a Maxwell, equipped with every modern device, better looking, better riding.

Give your pride the treat it has looked forward to. Get a self-starting, demountable rim automobile. Get a car that expresses yourself.

A Maxwell costs no more to run or maintain. It gives you many extras in comfort and ease of mind.

Many of the richest men in America drive Maxwells.

They appreciate the 300,000-all-alike idea behind the Maxwell. They know that a chassis which has withstood a manufacturing "run" of 300,000 in 5 years without radical change means a perfection in motor car development.

If your pride could talk it would say:  
"Get a Maxwell."
