There is nothing in the peace treaty relative to the six brave sons of William Hohenzollern, nee Kaiser, all of whom fit in the war of wars.

Gas in the Stomach Is Dangerous

Recommends Daily Use of Magnesia To Overcome Trouble, Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids.

Those who hear Mr. Clark learned many interesting things for his lecture was educational as well as logical. He inspired one with a new confidence and pride in the state of Oregon, and it is to be regretted that

UP TO GERMANY.

GERMANY is peevish. She doesn't like the terms of the peace treaty. For a nation that negotiated the infamous Brest-Litvosk treaty it ill becomes Germany to complain. She risked everything in a war of annihilation and conquest. She lost. She is merely reaping the whirlwind she sowed.

In regard to the details of the treaty it is well to reserve judgment. It would take a Philadelphia lawyer, a graduate geographer, a doctor of ethnology, and an expert in tautology, to form even a hazy judgment of the precise values involved.

It is a stern document, but it is a stern war. There will be talk of resistance, of a Bolsheviki revolution, of an alliance with Russia,—but in the light of future events, these outbursts will probably subside and become properly classified as bluff.

The immediate need of the world was to remove the German menace for all time. This apparently has been done. Now, if Germany has the sportsmanship and wisdom to yield to this world demand, the gradual introduction of a more sympathetic and conciliatory attitude will be possible.

The future is up to Germany, just as the future of the individual law breaker is up to the individual. A disposition to accept the judgment of the court, and give proof of a determination to reform, will find the world in a mood to aid rather than drag down.

MERCHANTS SHOW NO INTEREST IN CLARK ADDRESS

To the Editor: A very successful production of the play of "Hamlet,—without Hamlet," was staged at the library Tuesday evening, when Mr. A. G. Clark, general manager of the Associated Industries of Oregon, lectured on the subject of patronizing home industries before an audience of interested consumers.

Mr. Clark has the interests of the producer and merchant at heart, and a message, filled with irrefutable arguments for the consumer: he is endeavoring to educate the people of each community to the fact that the success of their town's development depends on the organized patronage of their home merchants.

Mr. Clark's subject was "Cooperation." The object of the Associated Industries of Oregon is to make Oregon a great industrial state, and as he points out, this cannot be realized unless producer, merchant and consumer work together.

For three weeks, notices of this lecture have appeared, from time to time, in the local papers; Monday, committees from the Medford branch of the Associated Industries of Oregon called on each and every merchant in town and urged him or her to be present Tuesday evening.

The Squaw Man at Liberty Theater

CECIL B. DEMILLE 'THE SQUAW MAN'

"The Squaw Man," which will be shown at the Liberty theatre tonight, is regarded as one of the finest presentations of the season.

The most notable feature of "The Squaw Man," independent of its interest as a human document, is the superiority of its cast, every player appearing therein being of stellar magnitude.

The big added attraction tonight will be pictures in slides of today's baby show, also other pictures of local interest.

HOME INDUSTRY FACTS

Community spirit is a great builder. The support which Oregon's industries get at home strengthens them in their fight for business abroad.

And the home people benefit, in turn, by the growth of these industries bringing money from distant markets to be distributed in our own state in GREATER PAY-ROLLS.

URGENT NEED OF FRUIT THINNERS LOCAL ORCHARDS

The U. S. Employment office reports a heavy demand for orchard hands and a decided shortage in this class of labor.

Local Superintendent James is desirous of securing as many registrants as possible for fruit thinning,

which work will be well under way within the next two or three weeks, and asks all women who will, to register at once for this work.

It is necessary that the local employment office have these names as soon as possible, so as to be ready to make up thinning crews when calls begin to come in.

With prospects for a bumper fruit crop this year there is no question in the minds of the majority of the orchardists that there will be more work for women, the older girls and boys than in any year past.

With these prospects in view it is very necessary that any who can possibly do this work, advise the government employment office immediately.
