

HOME TALENT VAUDEVILLE AT PAGE TONIGHT

The Page management is endeavoring to build up good vaudeville in Medford by assisting resident talent, musical and dramatic, in the putting on of their acts. It believes that the valley contains as good talent as may be purchased from the several booking agencies.

The Page wants some good attractions added to the regular picture features every Wednesday night, and is offering small cash prizes for the production of the acts, not in the nature of payment for the acts, but as providing for any expense the participants may incur in paying for costumes, or lessons from the various teachers of the city.

The experience and confidence obtained in knowing how to "put over" an act, as the saying is, is worth more to the performers than any cash prize could possibly be.

Many times you have heard the remark made when some outside talent was secured, "Oh, I didn't like that act. I could do better than that myself." In many instances the management believes you could, too. Here is your opportunity to show that you can.

There is a certain style, gained only by experience, and a knowledge of what the public wants and enjoys, that raises an act out of the amateur into the professional class.

Many so-called professionals are amateurs, and many amateurs are professionals, when they know how to be.

Doing something on a local school, church or community program and being patted on the back for it by friends, is entirely different than making good before an audience of strangers.

Many an aspiring young artist who has been fed up on praise by friends who didn't want to hurt his feelings, has fallen down miserably before a tryout committee in vaudeville or lyceum.

The Page management stands ready to help you in every way possible. Will you make the effort? Of course you will help us by bringing added patronage by your efforts, which makes the plan a mutual proposition. Our first home talent vaudeville tonight in addition to our regular picture features is as follows:

Wednesday night, May 28, "Mrs. Oakley's Telephone," a comedy in two acts, playing time 30 minutes.

Characters: Mrs. Oakley, a bride, Miss Edith Campbell.

Constance, a friend, Miss Rowen Gale.

Mary, the Irish Cook, Miss Maurine McKeany.

Emma, a French maid, Miss Aileen Crawford.

A telephone operator, behind the scenes, Master Windsor Gale.

Maurine McKeany, pupil of Mr. Root, in a harp solo.

WEATHER NO HINDERANCE (Continued from page one.)

above them and take the sun as on a sea horizon. About 7 o'clock Greenwich time, I saw the sea for a few seconds through a hole in the fog or cloud bank. I obtained some idea of the drift of the machine by noting the breaking waves through the drift indicator. We were then at a height of 4,000 feet and climbing, the drift being 10 degrees to the right of our course, which I had already allowed for on starting, owing to the northeast wind that was blowing.

Strong South Drift
"Up to 10:15 o'clock we steered to make a true east course, not magnetic east. During that period I took sights every hour. At 15:15 I made out that we were 400 miles from St. Johns. We then altered our course to north 73 degrees east true to keep in the track of ships which we should have entered at that time. The clouds were badly broken up and made sights impossible until about 1:38 when I managed to get the Pole star down on a flat piece of cloud and was surprised to find we were about 150 miles south of the course. We immediately altered our course a little to the northward to counteract this drift, but from a further sight obtained half an hour later, I found we were still settling southward and realizing that a very strong northerly gale must have been blowing made a decided alteration to the northward and worked the machine up to latitude 50 degrees north and into the track followed by ships."

Card of Thanks
We wish to thank our many friends and neighbors for their sympathy and kindness and for the beautiful floral offerings, during the illness and death of our beloved mother and sister.

MEDFORD PARTY REACHES THE RIM OF CRATER LAKE

E. A. Welch of Medford, C. J. Seymour, engineer U. S. roads, and W. E. Helfrich, of Portland, left Prospect Monday morning, May 26th, and drove to within a half mile of the park line, from which point they walked to and from Crater Lake. Snow at the park entrance was three feet deep and the same depth at White Horse. They followed the south bank of Castle creek to its source, then took a northeasterly course up the mountain to the summit of the ridge, where snow was six feet deep. From that point they descended to the engineers camp and found five feet of snow. Near there they ran upon a bear, getting within 200 feet of it.

At half past four they arrived at the rim and obtained a wonderful view in all directions. The Klamath region lay before them particularly clear and beautiful, as was also Crater lake and mountains beyond. Snow at this point was six feet deep, except in drifts, where it was deeper. On the north side of the building it was piled up to a depth of 25 feet. The hour was late and they were compelled to spend the night, so entered the lodge thru a second story window. Early Tuesday morning they were on the move, walked to their car below the park and reached Prospect at noon, tired, hungry, sunburned and happy, and arrived in Medford last evening immensely pleased with the trip.

MEDFORD GIRL TO BE MISSIONARY IN INDIA

Miss Sylvia Hurd of this city, leaves this evening for New York where she will attend the conference of missionaries held at the headquarters of the Presbyterian board June 4th, preparatory to her departure in September for her field of work in western India. After the conference she will return to Medford, stopping in Chicago and Iowa, her former home for a short visit among friends and relatives.

Miss Hurd is a graduate of Friends university, Wichita and the Chicago Training College for Deaconesses and Missionaries, 4949 Indiana avenue. She has taught in the high schools of Oregon for the past three years.

Miss Anna Train left Wednesday forenoon for Macdoel, Cal. to spend the summer.

2 BOOZE FIENDS GIVEN FINES IN JUSTICE COURT

Two men were fined in police court this forenoon by Judge Taylor for being intoxicated on the streets, and one man whose appetite for stimulants is so strong that he is growing fond of drinking diluted carbolic acid and a decoction of lemon extract and camphor, was fined yesterday.

A traveling salesman who gave the name of Richard Roe, evidently preferring that cognomen to the time honored "John Doe" was found by Chief of Police Timothy at about midnight last night badly intoxicated and with a half pint of booze in his possession. He was given a fine of \$25 and costs.

George Rippey of California, just before leaving Weed yesterday had a few drinks and was taking a bottle with him when he learned that he was going into a dry state and therefore thought it best to consume the contents of the bottle at once. That is all he remembers until he awoke in the Medford city prison this morning. It developed that he was ejected from the train by the crew when Medford was reached last evening and a short time later Night Policeman Adams gathered him in. Rippey paid a fine of \$25 and costs.

H. W. Graham, the Talent blacksmith, is the gent with the extraordinary appetite who just dotes on denatured alcohol with carbolic acid, when real booze is not attainable, and to whom a mixture of lemon extract and camphor tastes as sweet as fresh milk to a baby. Graham last week was fined \$25 and costs for having a bottle of whiskey in his possession. Monday afternoon Chief Timothy found him hugging a lamp post on Main street and entertaining himself with a monologue, so he was again conducted to the city jail, and Judge Taylor imposed a fine of \$15 and costs for being intoxicated, with the admonition that the next time he came before the court for a boozing offense he would be given sixty days in jail.

U. S. LAND BANK LOAN APPRAISER IS HERE

Mr. V. C. Brock of Hood River, land bank appraiser for this district, arrived yesterday and commenced work in this valley and will appraise all applications for loans now pending and all that are desirous of making loans should at once file their applications. Mr. Brock can be reached at the Medford Hotel or with E. H. Hurd, Garnett-Corey Building.

MEDFORD COMPANY TO TAKE OVER THE P. & E. PROPOSITION

At a meeting of the subscribers to the Pacific & Eastern Railroad stock held in the public library last evening it was decided to finance the proposition with local capital and have the complete control of the road at home. The eastern people who were to handle the matter do not appear to be in a hurry about completing the deal and are not impressed with the importance of early operation as local people are.

A committee consisting of C. M. Kidd, A. L. Hill, H. C. Garnett, Gus Newbury and Geo. T. Collins were chosen and instructed to work out a plan that will insure the operation of the road without further delay. This committee met at once and decided to file articles of incorporation immediately and to take up with the federal receiver the matter of purchase. Within the next few days they hope to have a definite plan to submit to the subscribers. The intention is to make this a Medford proposition all the way thru.

Denver Man Had Suffered for 30 Years He Said

"Ever since I took that course of Tanlac I have felt better and stronger than I have in many years and it has done more for me than anything else I have ever taken," said J. W. Patterson, of 1359 Thirteenth street, Denver, Colo.

"For thirty years," he continued, "I suffered from catarrh of the nose and throat, and although I was operated on by a New York specialist at great expense I got only temporary relief. I just couldn't rest at all well at night and would get up in the mornings almost choking with mucus which nauseated me so I would often have to vomit. My stomach became affected so that everything I would eat soured and bloated me up with gas as tight as a drum. I was bilious, too, had terrible headaches and suffered something awful.

"I tried everything I could hear of but nothing helped me till I began taking Tanlac. It has relieved me of gas and every sign of indigestion and my stomach is in better condition than it has been in years. Tanlac has helped my catarrh wonderfully, it has calmed my nerves so I can get refreshing sleep at night and I am not troubled with that mucus or nausea any more."
