

ASHLAND'S LOYAL WAR CHEST WILL AID ARMY DRIVE

ASHLAND, June 2.—The home service bureau of, Salvation Army activities in Oregon has been made the residuary legatee of the balance unexpended in Ashland's patriotic fund. The amount involved is \$1,000 or \$1,700. It is understood that this donation will be in lieu of the proceeds of a drive which was to have been instituted in this locality in the near future under certain auspices, in behalf of various Salvation Army projects throughout the state. At any rate this donation outright will supplement the amount to be raised by a drive of the campaign, as originally outlined, is entered upon. Nobody objects to a pro rata apportionment of the fund in favor of the Salvationists, but there is some criticism of the action in diverting the entire residue of the fund through those channels. Others think that the funds should have been retained for use in case of emergency, arguing that complications involving the raising of more money are liable to arise at any time, and in view of the disposition recently made, contend that it would be extremely difficult to finance another campaign project in favor of any given beneficiary. They further state that the expenditure of this money will mainly be in favor of Portland and other large towns of the state. In connection with the attitude of the patriotic fund's executive committee in regard to this apportionment, it is stated that, if such a decision had been left to the committee, the appropriation would not have been made. It seems that there was some sort of a vote over the matter conducted along lines not strictly in accordance with referendum methods insofar as giving all interested a voice in the decision. Furthermore, the vote was almost a tie, implying that there was well developed opposition to the plan, sufficient to warrant full publicity regarding its merits before the award was made. Aside from this single discordant note, the patriotic fund has been ideally managed. Its inception was a masterpiece by men of clear vision, with the result that the fund was the main factor in easily meeting the demands of the war period in a financial way, and no deserving requisition upon its coffers was ever turned down. The fiscal year marking the patriotic fund's existence expired by limitation May 31. The plan implied voluntary monthly pledges for one year, and results were that the fund always afforded a nucleus from which to make requisitions without resorting to a campaign of drives. As soon as possible a report will be made, fully covering the patriotic fund's status at different periods of the year just closed.

Mr. and Mrs. W. H. Hodgkinson visited old home surroundings at Grants Pass last week.

A contingent of Boy Scouts, led by Rev. C. F. Koehler, Presbyterian pastor, sailed Mt. Ashland last Saturday, having invaded the Long cabin sector the evening previous.

C. A. Dickson of Portland, who has been stopping here for some weeks past in furnished apartments on upper Granite street, has been having a set of gavel made of native California acacia, to be presented to his home Masonic lodge at Sherwood, Ore. Henry Emery, expert woodworker, carved the equipment to a turn. The term "acacia" has special significance to the fraternity mentioned.

Richard Shim, bright young Chinese graduate of the Ashland high school, now student at the State University, has been elected as sergeant-at-arms of the Sophomore class in that institution. Eventually, it is "Dick's" intention to study medicine. He came here from Honolulu.

Lynn Mowat, Ashland soldier, is home from France, having been visiting relatives in New York for some time past. In the way of interesting letters, descriptive of army life and travel, he wrote some of the finest received from Ashland boys abroad.

After services well and faithfully performed, the local Red Cross organization begins to note the parting of the ways as between the arduous labors of the past two years and a view in perspective of relaxation from phases of busy toil which at times assumed the proportions of overwork, earning the commendation, "Well done, good and faithful servant." The present outlook is that work in hand will be completed within a short time, with no other demands in sight as yet, though contingencies are the order of the hour.

The appearance of slit skirts in the Yreka schools is causing a commotion. The state superintendent of education has declared the curb inadvisable, but the local school board declines to take any action in the way of placing the ban upon the costume, consequently agitation over the matter is considered a closed incident.

Information that Pacific highway paving in this vicinity, especially the Siskiyou mountain section, would be continued on a 16-foot basis, is welcome news to everybody, there having been some talk of reducing the width to 12 feet. California is to meet Oregon at the state line with a 16-foot roadway, which is narrow enough, and any departure from this standard would have been unfortunate as lacking in uniformity.

Elder and Mrs. B. C. Tabor have gone to Douglas county to remain in Roseburg and vicinity during the summer.

WEATHER REPORT MONTH OF MAY DRY AND COLD

The last month was the second driest May in the history of weather reports in Jackson county. The precipitation was only .03, the driest May previously being last year when there was no rain at all. The average for the month is 1.75 inches, and the third driest May came in 1903 with a precipitation of .31.

Although complete records of temperature have not been compiled it is believed the hard frost the first day of May this year, when the mercury reached 31.7 is also a new record. Three years ago there was a light frost in June, but it is doubtful if ever before did the temperature drop so low so late in the season.

Unless recent weather records are overturned there will be little rain now until fall. In 1913 there were heavy rains in both June and July, but recently the summer months have been practically without precipitation. Several years ago however, in 1900, 1906, 1909 and 1912, there were heavy downpours, either in June or July. The official report follows:
