

EGYPTIANS SERIOUS IN DETERMINATION TO GAIN FREEDOM

PARIS, June 6.—A statement concerning the present disorders in Egypt, explaining the situation from the viewpoint of the agitators, has been given to the Associated Press by Mohamed Mahmoud Pasha, a member of an Egyptian delegation of twenty which is here to ask the peace conference to recognize the independence of Egypt. Mohamed Mahmoud Pasha was at one time governor of the Suez canal and later governor of the province of Hehara. He with three other leaders of his party were deported recently to Malta, but were released after a month and came on to Paris. His statement follows:

"The Egyptian delegation was prevented by the British authorities from leaving for Europe, and the Egyptian ministry which was in complete solidarity with the people, resigned early in March last. No Egyptian was found to form a ministry, and for this bankruptcy of British administration in Egypt, the delegation was held responsible.

"The chairman, Saad Zagloul Pasha, former minister of education and later of justice, and now vice president of the Egyptian legislative assembly; Ismail Sidkey Pasha, former minister of religious endowments; Hamed El Basil Pasha, one of the leading Bedouin chiefs and a member of the legislative assembly, and myself were arrested on March 8 and deported to Malta without any charge or inquiry.

"The Egyptian people almost to a man demanded our immediate release and the immediate departure of the delegation for Europe. Their indignation reached a very high pitch when they saw in this violation of individual liberty an attempt at depriving Egypt from enjoying the liberal principles of President Wilson, and they also saw that all the enormous sacrifices which, in the language of General Allenby, were to a very large extent responsible for the decisive victory over the Turks were in vain.

"Representative Egyptians from Alexandria to Assuan lodged a stern protest against such a treatment. Young men and the students made peaceful demonstrations, but the British troops opened fire at them. Yet the demonstration continued and the fire of machine guns and rifles continued also. A very large number were killed in Cairo and the provincial cities.

"This revolution is a national movement against a foreign domination, which is abhorred by the entire Egyptian population. Mohammedans and the Christians are in absolute accord. The Egyptian movement is neither religious nor anti-foreign, nor instigated by Germany or Turkey. It is a deep rooted desire on the part of all the inhabitants of the valley of the Nile for the attainment of the independence of their country."

CONNECT THE 2 AMERICAS WITH NET OF CABLES

WASHINGTON, June 6.—A pledge that no expense will be spared to create a cable service between the United States, Central and South America which would be the equal of any in the world, was made today by John L. Merrill, president of the All-America Cables, in an address delivered before the second Pan-American conference. Mr. Merrill declared that his company had dedicated to the service of three America's 26,000 miles of cables and land lines and that extensions now under way or planned would bring the total to 39,000.

The first extension to be completed will be to Uruguay and Brazil. Later one cable will be run from Rio Janeiro northward. "Wherever in these Americas," Mr. Merrill promised, "there is a net work of cable communication should be spread, we are willing and ready to spread it. Where existing channels should be supplemented it is our desire to do so."

Mr. Merrill urged the members of the conference to co-operate with the cable company in bringing all the American republics into closer communication with each other, for their common industrial, social and political benefit.

PAULINE FREDERICK LAST TIME TONIGHT

Pauline Frederick will appear in her new Goldwyn picture, "One Week of Life," at the Rialto theater for the last time tonight.

Nothing affords a better insight into a personality than his or her likes and dislikes. Let Miss Frederick's friends gratify their curiosity when told on the strictest authority, that her favorite color is delft blue, and that the jewel she most likes is a sapphire, in combination with diamonds. She likes to read detective stories and narratives of adventure, and she reads a great deal. Candy she enjoys and her closest friends see to it that she never wants for chocolates. Highly seasoned food appeals to her and recently she ate her first hot tamale, in California, where she lives not far from the Goldwyn Studios. She enjoys singing simple ballads, including "A-Ma-Vourneen," which she can't forget, because her first professional appearance required her to do that twice a day.

ASSOCIATED PRESS A FACTOR IN PAN AMERICAN ENTENTE

WASHINGTON, June 6.—Frank B. Noyes, president of the Associated Press, told the Pan-American conference today that the exchange of "true unvarnished and unbiased news" between the North and South American continents, now being brought about by the membership of South American newspapers in the organization, would be "more effectual in cultivating and maintaining the relations of friendship and affection that should exist between the two continents of this hemisphere than all the propaganda that could be fed out by all the publicity agents that could be put to work."

Mr. Noyes explained how the Associated Press, "probably the most notable cooperative effort now functioning," was in no sense a governmental agency, is forbidden by its charter to make or distribute profits and has always refused to handle propaganda, believing that its function was properly limited to supplying a news service to its members without bias so far as that is humanely possible. This appealed to some of the most important South American newspapers and they were received into the organization not as customers or clients, but as full members of the cooperative organization.

"It is a matter of pride to the Associated Press," said he, "that the invitation to our fellowship was instantly accepted and that we now list among our members the most important journals in the countries to the south of the United States, for we have had members in Mexico and Cuba for years.

"The basis of our relationship with our new members are those of equality, of mutual respect, of full confidence.

"We are making peoples know each other, know each other's habits, know each other's likes and dislikes, virtues and foibles. It is only within the last few weeks that the people of this country have learned through the Associated Press that football is an international sport in South America. This may seem supremely unimportant, but it is not, for it goes to the vitals of a mutual understanding and sympathy."

VANCOUVER PAPER DEFIES STRIKERS

VANCOUVER, B. C., June 6.—Vancouver walked to work yesterday, the union street car men having voted late Wednesday night to join the general strike called here in sympathy with the Winnipeg walk-out. The strike of the car men came as a surprise, for last week they rejected the strike proposal by a five-to-one vote.

The Vancouver Sun appeared yesterday with a bold face front page declaration that it would not permit the typographical union to censor the strike news printed in its columns. Wednesday the union printers and linotype operators notified the newspapers that they would not set up or handle any news or editorial matter which reflected in the least upon the moves of Canadian labor unions.

"Rather than permit this proposed censorship, the Sun will cease publication until its typographical union employees recognize that it is not for them to dictate the character of either its news or its editorial comment," the Sun's announcement read. "The editorial staff of this paper will not submit to any censorship and its editorial staff will continue to have the final decision as to what is news and as to what shall appear in the paper's columns."
