## REPUBLICANS FORCE PUBLICATION OF THE PEACE TREATY

(Continued from page one.)

The president's message transmitted through the White House and read by Senator Hitchcock when the foreign relations committee met today to plan its investigation follows:

"Please convey following to Senator Hitchcock: I am heartily glad that you have demanded an investigation with regard to the possession of texts of treaty by unauthorized persons. I have felt that it was highly undesirable officially to communicate the text of a document which is still in negotiation and subject to change. Any one who has possession of the official English text, has what he is clearly not entitled to have or to communicate. I have felt in honor bound to act in the same spirit and in the same way as the representatives of the other great powers in this matter and am confident that my fellow countrymen will not expect me to break faith with them. I hope the investigation will be most thoroughly prosecuted."

Bankers Interested  
All of the financiers named except Mr. Vanderbilt were called at the suggestion of Senator Borah, republican, of Idaho, who told the committee he was convinced that each of them was familiar with what the treaty contained. He said he could not be sure that any one of them actually had a copy, however, because he never had seen a copy in their hands.

The Idaho senator said he was convinced the international bankers of New York were interested "for private reasons" in the adoption of the League of Nations covenant. He added that in his belief the calling of the men named would show how and why they were interested.

Wall St. Men to Appear  
WASHINGTON, June 9.—In its investigation of how copies of the peace treaty reached New York, the senate foreign relations committee today subpoenaed Jacob Schiff, Thomas F. Lamont, H. P. Davison, Paul Warburg, J. P. Morgan and Frank A. Vanderbilt.

Mr. Lamont was requested to bring with him any correspondence which passed between J. P. Morgan and company and its Paris and London agents regarding the treaty, and particularly any communications on the subject between the banking house and Mr. Davison while the latter was abroad.

The committee also adopted unanimously a motion by Senator Fall, republican, of New Mexico, inviting Acting Secretary Polk to appear as a witness and to take part in the inquiry by cross-examining witnesses and otherwise.

WASHINGTON, June 9.—Senator Lodge who made the first charge that the treaty was in the hands of New Yorkers, was the star witness at the opening session. He declined on the ground of his senatorial immunity to give the names of persons who had the treaty, but said he would ask permission to disclose their names. Senator Borah, who also

made charges similar to Senator Lodge, said he had not seen copies of the treaty but had been informed there were copies in New York. He had no personal knowledge of it, he said.

Acting Secretary Polk of the state department testified that he had received copies from the American peace mission in Paris, had them locked in the state department vault and believed none of those copies were the ones referred to as being in New York.

Coincidental with the opening of the investigation, President Wilson cabled Senator Hitchcock he hoped the investigation would be thoroughly prosecuted.

The committee adjourned without fixing a date for the next meeting. The investigation will be made by the full committee and Chairman Lodge was expected to call another meeting as soon as any of those subpoenaed today are ready to appear.

Brought by Tribune Man  
NEW YORK, June 9.—The full text of the peace treaty with the central powers, which has been the subject of discussion in the United States for a week or more, has been brought to this country by Frasier Hunt, a correspondent of the Chicago Tribune and is being syndicated to newspapers in this country in copyrighted sections.

Mr. Hunt says the copy which he brought here is one of the original drafts and was obtained in Paris. He says it is quite easy to obtain German translations of the treaty in Germany and neutral countries.

Another American correspondent abroad also secured and mailed a full copy of the treaty but the British censor held it up.

Wilson Opposes Publicity  
WASHINGTON, June 9.—President Wilson in a cablegram received today by Senator Hitchcock, democrat, Nebraska, said he hoped the investigation by the senate foreign relations committee of how copies of the peace treaty reached private interests in New York would "be most thoroughly prosecuted."

The president said he felt it was highly undesirable officially to communicate the text of a document which is still in negotiation and subject to change, and that anyone who had possession of the official English text "has what he is clearly not entitled to have or to communicate."

This statement by the president strengthened the belief of officials here that he would not comply with the request of the senate that the treaty text be furnished at this time.

## SUFFICIENT FORCES TO HANDLE MEXICO

WASHINGTON, June 9.—Major General Cabell, commanding the southern department and the Mexican border, in a special report to the war department today advised against any increase in forces at this time. The forces now under his command, General Cabell said, were sufficient to handle any contingency that could be foreseen.

## HUN CABINET CRISIS OFFICIALLY DENIED

BERLIN, Sunday, June 8.—(By Associated Press.) Rumors that a cabinet crisis is imminent are dismissed in official quarters as idle gossip. The fact that Herr Wiesel, minister without portfolio and Dr. Bernhard Dernburg, minister of finance, differ respecting the conduct of post-war economic control, has started a report that there is serious dissension in the cabinet. The issue, it is contended, cannot be decided until peace is arranged and is, in any case, purely personal.
