

NORWEGIAN FAILS SUICIDE ATTEMPT KING'S HIGHWAY

Despondency on account of ill health so preyed on the mind of Peter Haakenstad, 30 years old, that he made a desperate attempt to end his life in an orchard on Kings highway outside the city limits last night by slashing his throat with a razor. He lay there unconscious all night and this morning until about 7:30 o'clock when he was found by a passerby who notified Sheriff Terrell. The sheriff summoned Dr. Chas. T. Sweeney and proceeded to the scene to investigate. Dr. Sweeney dressed the man's wounds and he was removed to Sacred Heart hospital in Portland. He will live unless some unforeseen complication sets in. Fjorkenstad lost much blood from the severing of several small arteries. The razor blade also penetrated his larynx.

His home is at Coralia, Solano county, Calif., and for some time he has been on highway construction work near San Francisco. A short time ago he decided to come to the Rogue River valley and obtain work on the Pacific highway, thinking the change in climate would benefit his health, but after a few days here he felt no better and decided to end his life. He is a native of Norway.

STATE HIGHWAY COMMISSION HERE

The members of the state highway commission accompanied by Portland newspaper men arrived by automobile in the city this morning to look over the progress of state highway work in this vicinity. In the party were Simon Benson, R. A. Booth and W. L. Thompson, members of the commission, Herbert Nunn, state highway engineer, Roy Klein, secretary of the commission, D. Rosenthal of Mr. Benson's office and representative of the Oregonian, David F. Morrison of the Telegram, and R. C. Johnson of the Journal.

This forenoon the party went by the Bybee bridge and Dodge bridge route to Eagle Point to inspect the highway work out from there, and this afternoon they went to Ashland to look over the highway work to the state line. From Ashland Mr. Nunn will leave the party and depart for Portland via Bend and Klamath Falls. The remainder of the party leaves for Portland tonight.

The commission is merely inspecting the Pacific Highway and did not meet with the county court and had no report to make.

GEORGE WALSH STAR AT PAGE TONIGHT

Luck and Pluck George Walsh's latest feature, is about the best he has done. This is a typical Walsh comedy and carries a plot which permits him to display his wonderful athletic ability—in fact the feature fairly sizzles with situations which could only be handled by a man of extraordinary athletic ability. The program for today and tomorrow includes a two-reel Sunshine comedy, "Money Talks." It is sure a hummer and one that old and young enjoy. A Hearst news and a special musical program by Miss Flora Gray completes the program.

of Western Union employees at any time, but company officials stated only one operator had quit thus far.

Strike leaders here declared that twenty-five percent of the Western Union company's business in Oregon was handled by railroad operators and that the service would be severely crippled tomorrow, when these employees ceased handling the company's business, as ordered yesterday. Western Union officials said they did not know the strength of the Order of Railroad Telegraphers in this state and would not hazard a prediction as to what effect the move tomorrow would have.

Bend R. R. Operators Active
BEND, Ore., June 12.—Railroad operators between Bend and Portland are aiding in the commercial telegraphers' strike by intercepting messages sent by the Western Union, it was learned today. Uncomplimentary remarks in Morse code addressed to the commercial operators who are staying with their jobs are also frequent. F. E. Studebaker, freight and passenger agent declared today after listening to the instrument.

Schuman-Heink Ashland June 18

Madame Schumann-Heink, as every one knows, has four sons in the United States navy, but as everyone does not know, 4000 sons in the United States marine corps. This large increase in her family all come because of a visit to Quantico, Va., the overseas depot, where the marines receive their final instructions. The famous "mother of the cantonments" was there to inspire the boys with her wonderful voice and cheering presence before they were "shoved off" to foreign shores. It was a case of "she saw, she saw and they conquered" for before her recital was half over, Madame Schumann Heink announced that she had adopted every one of the 4000 marines who formed her audience, and then she celebrated her adoption by singing "When the Boys Came Home." Whereupon, 4000 lusty voices answered with "Mother O' Mine" and the adoption was complete. And then the marines sang this quickly arranged version of their hymn to the intense delight of madame.

"When our new found mother passes on
And arrives at heaven's scenes,
She will find her path guarded by
The United States marines!"

Madame Schumann-Heink will appear in concert at the Ashland chautauqua building, June 18th.

FRENCH BARONESS IS HIGH FLIER

PARIS, Thursday, June 12.—Announcement is made that Baroness De La Roche, a widely-known French aviatrix, driving the small bi-plane in which the late Jules Vedrines landed on the roof of a department store here last January, has reached an altitude of 15,700 feet. Reports of her flight have been checked by a commission appointed by the French Aero club and she is given the record for height attained by women fliers. The level she reached is over a thousand feet higher than the best record made by Ruth Law, who has heretofore held the women's altitude title.
