

ACTIVE WAR WORK LOCAL RED CROSS IS NOW FINISHED

At last it is finished and the work is well done; but that doesn't mean Red Cross activities will cease by any means and funds will be needed to carry on the work of home service, public health, nursing and Junior Red Cross work in charge of Mrs. Schiefelin, Mrs. Mears and Mrs. Platt, respectively.

There are still many Red Cross subscriptions unpaid and June 10th should have found each and every one who had pledged Red Cross support ready to fulfill their obligations. Mrs. Van Scoyoc is anxious to close the books and asks with the superintendent of our Medford chapter of those who have not paid, to please come to the Red Cross office and pay their dues.

Wednesday saw the very last of active work in the sewing room. There are only a few button-holes to be made in some refugee garments and these are being done by societies and others at their homes. To those who have been faithful to the end the Red Cross extends thanks and especially does Mrs. Mears appreciate the loyalty of those who have assisted her in winding up affairs for the summer. The Red Cross rooms will continue to be open in the interest of home service, public health nursing and Junior Red Cross work.

Mr. Henry P. Davison, chairman of the board of governors of the League of Red Cross Societies, in an interview immediately after his arrival in New York from Europe says: "The League of Red Cross Societies is now a reality, recognized by the principal powers, and with its objects approved in article 25 of the covenant of the League of Nations." The objects of the League of Red Cross Societies are as follows:

1st. To encourage and promote in every country in the world the establishment and development of duly authorized voluntary national Red Cross organizations, having as their purposes the improvement of health, prevention of disease and mitigation of suffering throughout the world, and to secure the cooperation of such organizations for these purposes.

2nd. To promote the welfare of mankind by furnishing the medium for bringing within reach of all people, the benefits to be derived from present known facts and new contributions to science and medical knowledge and their application.

3rd. To furnish the medium for coordinating relief work in case of great national and international calamities.

"Child welfare, the protection of the men and women of tomorrow, is the most important task before the world today and will occupy a large share of the league's attention."

Nearly 100 field representatives of the Red Cross division departments of civilian relief were in conference at Atlantic City last week. It is gratifying to know that home service workers and chapter officials have no thought of terminating this patriotic service, so long as there is a demand for it.

June 8-14 is Boy Scout week, the campaign to enlarge and strengthen the Boy Scout organization which aims at an associate membership of one million.

With the assistance of the American Red Cross the Women's Society of Belgrade has opened a free sewing school in Belgrade.

American Red Cross will assist in the re-establishment of the University of Belgrade.

ESTABLISH CITIES TO AID SOLDIERS

ATLANTIC CITY, June 16.—Special reconstruction towns may be established by the government in the near future, where soldiers suffering from tuberculosis can regain their health and at the same time work at light trades to fit themselves for a full return to industrial life, said Colonel Estes Nichols, commandant of the United States army general hospital No. 16, at New Haven, Conn., in an address at the annual meeting of the National Tuberculosis Association today.

"This is being considered," he says, "as a part of Uncle Sam's plan for vocational re-education which, since the armistice, has for its purpose the fitting of men disabled by the war for new occupations in civil life."

The idea of special communities for these men and their families has been advanced by Captain F. A. Waugh of the United States army sanitary corps, and would be for the purpose of bridging over the gap between sanatorium treatment and full return to industry.

These towns," said Colonel Nichols, "might be located upon lands in the national forests. This would permit of the setting up of attractive and healthful wood working industries for the patients and afford an opportunity for them to retain permanent control of land holdings after they were cured."

Miss Ruth Warner returned home Monday from her seven weeks visit at Portland.

Scene From "The Unpardonable Sin" at Page Theatre This Week

"The Unpardonable Sin," which is to be shown at the Page June 19, 20, 21, will be of interest to local movie picture devotees for a number of reasons. The picture is a screen adaptation of the Major Rupert Hughes' book, by the same name,

which has had such a tremendous sale during the past two years, and has stirred up merry controversies in various parts of the country because of its fearless handling of a timely subject. The star of the photoplay version is Blanche Sweet, who

making her "re-debut" on the screen after having been in retirement for the past couple of years. Miss Sweet will be remembered for her splendid performances under the direction of David Wick Griffith. The director of "The Unpardonable Sin" is Marshall

Nelson, whose work with important stars, like Mary Pickford and others, has won him a place among the foremost directors of his day. The production is one of the most elaborate which has ever been given a screen story.

RED PROPOGANDA IN BUDAPEST IS MASK FOR IDLERS

BUDAPEST, May 8.—(Correspondence of Associated Press.) This "red city" still flaunts its color scheme arranged for the May day celebrations. The communists have hoisted the red banner on the castle which is the headquarters of Bela Kun, the big chief of the soviet. Red bunting also waves from the Hotel Hungaria, where the food is hoarded and where the ministers have sequestered themselves with a bodyguard of red soldiers. It is there where it is affirmed they keep their most prized hostages in durance vile.

A brave show is still made of keeping up the government, with much dashing to and fro of ministerial automobiles. There have been more arrests since the counter revolutionists succeeded in blowing up a big munition factory at Ersebitfalva, near here.

The cost of "painting the city red" for the May day celebrations was at first estimated at twelve million crowns but today the supplementary information is forthcoming that the red bunting used in such profusion was only paper "war cloth" which proved a failure for other purposes. So it was dyed red and hung up as it came cheaper than paint.

The result of such propoganda is questionable, judging by the actions of three communists with whom the Associated Press correspondent rode in a train. They lolled in their comfortable seats, while a humble woman, with a new-born baby in her arms, stood in the corridor for fully six hours. These three men were all the time devouring Bolshevik literature but it never occurred to their humanitarianism to give up a seat to the tired woman. They evidently knew adversity but it had not taught them charity.

Military Education in Mexico. MEXICO City, June 16.—More than 1,500,000 children have received military instruction in the public schools of Mexico within the past three years.

William G. Tait arrived home this forenoon from Portland where he was in attendance at the state bankers convention.

PACIFIC HIGHWAY TO BE COMPLETED BEFORE YEAR ENDS

PORTLAND, June 16.—From Portland to the California line, the Pacific highway will be graded, rockered or paved by the end of the year.

This is the information brought back by Highway Commissioner W. L. Thompson today after a trip over the highway with Commissioners Benson and Booth. Thompson arrived Saturday morning, Mr. Benson following later and Mr. Booth stopping off at Eugene. The trip of inspection will have the result of speeding up work along the entire stretch of highway.

"What will interest the public more than any other phase of our trip," said Thompson, "is the fact that the Pacific highway will soon be open all the year; that by January 1 it will be possible from end to end, and that Oregon will have its link finished before California can build to meet us."

"In short, the Pacific highway is rapidly approaching completion. The commission desires it to be as safe as possible, which is the reason

for the policy of elimination of grade crossings. "This will be an all-year road," explained Commissioner Thompson, "and the commission will take up its development when the country is ready to spend money for co-operation. Government money will also go into the road as it will be a co-operative project with the state aiding."

"We looked over the location of the Crater Lake-Medford road," continued the commissioner, "but no action was taken. The location is now under consideration and before a decision is made the government survey will be studied."

Miss K. Smith and sister are visitors in the city from Portland who are guests at the Holland.

LONDON MORNING PAPERS ON SALE N. Y. IN EVENING

LONDON, June 14.—(By Associated Press.) Viscount Northcliffe has sent the following message to Captain Alcock:

"A very hearty welcome to the pioneer of a direct Atlantic flight! Your journey with your brave companion, Whitton Brown, is a typical exhibition of British courage and organized efficiency. Just as in 1912 when I offered the prize I felt it would soon be won, so do I believe that your wonderful journey is a warning to cable monopolies and others to realize that within the next few years we shall be less dependent upon them, unless they increase their wires and speed.

"Your voyage was made more quickly than the average press messages of 1919. Moreover, I look forward with certainty to the time when London morning newspapers will be selling in New York in the evening, allowing for the difference between British and American time, and vice-versa, in regard to New York evening journals reaching London next day."

Chinese Buy U. S. Aeroplanes. DAYTON, Ohio, June 16.—Toy Gon, former director of air service of the Chinese army, has purchased a number of airplanes here and arranged for immediate shipment to China.

UNCEASING MISERY

Some Medford Kidney Sufferers Get Little Rest or Comfort.

There is little sleep, little rest, little peace for many a sufferer from kidney trouble. Life is one continual round of pain. You can't rest at night when there's kidney backache. You suffer twinges and "stabs" of pain, annoying urinary disorders, lameness and nervousness. You can't be comfortable at work with darting pains and blinding dizzy spells. Neglect these ailments and serious troubles may follow. Begin using Doan's Kidney Pills at the first sign of disorder. Thousands have testified to their merit. Medford readers will find convincing proof in the following testimony:

Daniel Flaten, C. St. Jacksonville, Ore., says: "It is some six or seven years ago since I used Doan's Kidney Pills but I cannot forget how much good they did me. I suffered from weakness of the kidneys and other disorders that go with kidney complaint. I pained and ached all over. I began using Doan's Kidney Pills and received benefit from the very first. Soon they had me straightened up in good shape."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Flaten had. Foster-Milburn Co., Mfgs., Buffalo, N. Y. Adv.

The Salvation Army

REAL PEOPLE

That's what the doughboys called The Salvation Army workers on the battlefields and back lines in France.

They were "real people" to the soldier, because they were just like the folks back home, with hands accustomed to work and eyes always ready to smile.

And not these same "real people," back from the war with new laurels, have built their trenches in the Streets of Poverty in America.

They will wage the fight for the poor and unfortunate at home, just as they have done for years, only on a larger scale.

The Salvation Army conducts Rescue Homes—Day Nurseries—Homes for the Helpless Aged—Lodging Houses for the Down and Outers—Fresh-Air Farms—Free Clinics.

It must extend this service everywhere where Misery and Poverty exist. It must continue to reach down and lift up the men, women and children who have fallen.

After Your Baby Is Born

Think Now About the Time to Come Afterwards.

When you hold in your arms your tiny new infant, be sure that you can feel that before its arrival you did all in your power to give it a happy pre-natal influence. Scientists say that the thoughts and feelings of the expectant mother greatly affect the health and disposition of the future infant.

For over half a century thousands of women who have used the time-honored remedy, Mother's Friend, say that they entirely escaped nausea, nervousness and that peculiar distressing feeling so usual where nature is unaided. They thus preserved a wonderfully bright and happy disposition, which reflects so markedly upon the unborn child. By the regular use of Mother's Friend the muscles are made and kept soft and elastic to readily yield to nature's demand for expansion without the usual wrenching strain. The nerves are not drawn upon, and as a consequence the expectant mother is calm and serene and the slight are not disturbed with nervous twitchings, and the crisis is one of joy and happiness.

Write the Bradfield Regulator Company, Dept. K, Lamar Building, Atlanta, Georgia, for their Motherhood Book, of value to every woman, and get a bottle of Mother's Friend from your druggist and begin a treatment that will bring real results.
