Early risers this morning observed on the eastern horizon the unusual sight of a sun dog, which in folk lore is credited as a sign that rain will come within three days, and which back in the eastern states usually preceded a hard rain. The encyclopedia says that a sun dog is a fragmentary rainbow on the horizon. County Agent Cafe, whose canine knowledge is confined to poodles and hot dogs, and who never even saw a sun dog, said this forenoon that there were some indications of rain in the falling barometer and the sky formation, but sarcastically added that the rain would probably hold off until July 4th.

CONCERT BY HIGH SCHOOL BAND IS MUCH ENJOYED

Last night's concert in the high school auditorium closes the musical programs at the high school for this year. A large crowd was present to hear the band concert, which was one of the best amateur musical programs given in Medford in some time. The members of the band should be complimented for the wonderful progress they have made during the past school year.

When listening to these boys you would think, if you did not see them that they were mature men, when in fact many of them are small boys from the grade schools.

Their forte passages were played with precision and a big full round tone, not brassy as the usual band plays. In their piano passages they played a very sympathetic tone. The overtures played showed consistent study and careful interpretation. We desire to make special mention of the playing of Mr. Irvine Terrill who played "Bohemian Girl" as a baritone solo. This was extremely well done.

Mr. Everett Brayton sang "I Would Find You, Dear" in a very finished manner. Mr. Brayton is the possessor of a very fine tenor voice, and Medford high school should be proud that they have such a talented young man among their students.

The prospects for the band the coming year are very bright. Mr. McReynolds, the director, now has a clarinette section of seven boys who will be ready to take their place in the organization next fall; also there will be new players in every section. The membership of the band next year will be about thirty-five. We believe Medford will have the coming year the best high school band in Oregon.

Too much credit cannot be given to Mr. McReynolds who has ably and persistently worked with the boys this year. Mr. McReynolds has had all kinds of enthusiasm and interest in the boys and their work. This being the case it is quite evident why the boys have taken such a great interest. Medford schools should consider themselves fortunate to have the services of such an able teacher and musical leader.

Spring Fever
—What Is It?

THREE o'clock in the afternoon — and absolutely no "pep." You call it spring fever, but is it?

When you are constipated waste matter remains in the intestines, decays, forms poisons which are absorbed into your blood and carried by it to every cell in your body. When your cells are thus poisoned, of course you have no "pep."

Pills, salts, mineral waters, castor oil, etc., merely force the bowels to act, and make constipation and self-poisoning a habit. Nujol is entirely different from drugs as it does not force or irritate the bowels.

Nujol prevents stagnation by softening the food waste and encouraging the intestinal muscles to act naturally, thus removing the cause of constipation and self-poisoning. It is absolutely harmless and pleasant to take.

Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle of Nujol from your druggist today and watch your "pep" come back.

Warning: Nujol is sold in sealed bottles bearing the Nujol Trade Mark. All druggists insist on Nujol. You may suffer from substitutes.
