Medford and valley people will be surprised to learn of the marriage of J. S. Dailey, better known as Jim, the popular foreman of the Hillcrest orchard for the past 15 years, and Mrs. Winnifred Grant of this city at San Francisco the day following Christmas, at the home of the bride's sister in that city. The newly married couple returned to Medford on Dec. 31st and are living at the Hillcrest orchard. The approaching marriage was kept a secret on account of Jim's desire to "fool the boys," and but few have become aware of it since their return. Mr. Dailey left here early Christmas week ostensibly to spend the holidays in California, and Mrs. Grant left the city a day or so later.

## Weddings

ASHLAND, Jan. 3.—Capt scored three innings in this vicinity, either on the New Year holiday or the date previous. Two of the grooms are sons of Mrs. ex-service men who participated in campaigns overseas. One of the weddings was an interstate affair, Oregon and California being represented respectively at the marriage altar, while Ashland, Jacksonville, and the Valley View suburban district are the specific localities in which the matrimonial scenario was staged, all the ceremonies being performed under the most happy auspices.

On Wednesday preceding the new year, Ray Murphy and Miss Emma Jenkins, both of this city, were quietly married at Jacksonville. The bride is one of the most popular young women in Ashland, intimately acquainted with the public through channels of the telephone exchange, she being noted as an efficient and accommodating employe in this exacting service. The groom is a member of the trio of Murphy boys, whom everybody knows, prominent in ranch stock and sporting circles, in which

they are industrious without necessarily being "sporty." Ray served with the "Lost Battalion" in France. The newlyweds will reside with the bride's parents, Mr. and Mrs. George Jenkins, on Oak street, for the time being.

On New Year's day Miss Nellie Briggs, daughter of Mr. and Mrs. E. D. Briggs, became the bride of Charles Fullerton Angle, of Medford, the ceremony being performed at the family home on Bush street. The bride is talented and a universal favorite, endowed with many accomplishments, eminently domestic in her tastes. The groom possesses sterling qualities. The officiating clergyman was Rev. P. K. Hammond, vicar of Trinity-Episcopal church.

The ranch home of Mr. and Mrs. D. M. Lowe, in Valley View, was the scene of another joyous wedding event on New Year's day, when their daughter, Miss Hazel, became the bride of Carl Anderson, of Corvallis, Calif., Rev. C. A. Edwards, Methodist pastor, performing the ceremony. The bride has been a successful teacher and with her industry is a cardinal principle whether exemplified either in the schoolroom or domestic circle. The groom has also been connected with educational pursuits, and was formerly member of the faculty of the normal school at Chico. He is an ex-service man, and returned sometime ago from a two years' military experience in Siberia. Mr. and Mrs. Anderson will reside at Siberia.

He Feels Like a New Man

Rheumatic pains, backache, pains in sides, sore muscles, stiff joints or an "always tired" feeling are usually symptoms of disordered kidneys. W. W. Wells, Toquim, Mich., writes: "I am on my feet most of the time and get tired. But after taking Foley Kidney Pills I feel like a new man. I recommend them to my customers and have never heard of any case where they did not give satisfaction." Prompt in action to relieve kidney troubles and bladder ailments. For sale by Medford Pharmacy.

## Badly Fitted Glasses Are Useless

Even though the lenses may be exactly made for your defect of vision, the effect is spoiled if the frames are badly fitted.

A badly fitted bridge causes the lenses to be away from their correct position, with the result that the vision is distorted. Also glasses of wrong width between the centers of the lenses causes distorted vision.

We are very careful and accurate with our measurements. Also after the frame is made it is checked and counter-checked—and that is why we can guarantee a perfect fitting.

How We Go At It

First we look into the battery to see if you put water in it.

Then we use the hydrometer, which is the sure-fire way of knowing the condition of its charge.

Then, if no special cause of trouble appears we put it on the line to see if it will take a charge.

But if there is plain indication of serious trouble we open the battery up and find out exactly what's what.

Don't trust your battery to amateurs or artists in guesswork, who claim they can tell inside condition by outside inspection.

Come here where you find adequate machines and apparatus to really inspect, charge and repair any battery.

## Every Medford Druggist Is Grossly Underpaid

How Much He Gives in Service Compared to What He Receives in Return.

No professional man in Medford serves the community better or more conscientiously than the druggist.

He accommodates you with postage stamps at cost, maintains a general information bureau and free waiting room, his store is a first aid hospital conducted without reward, he gets up in the middle of the night to answer your emergency calls.

Night and day he is consulted oftener than any other, and he gives his professional services without fee. His only reward, and it is a small one at that, comes when you make a purchase from his stock of merchandise.

You accept his recommendation just as you accept that of your lawyer, your doctor or your banker, because you know that his word is good and that he knows best. He can't afford to make mistakes—and he doesn't. He knows that his whole success in his chosen profession depends on accuracy—on skill—on keeping faith with his customers.

He stakes his reputation a hundred times a day with a hundred different customers—but his judgment is founded on knowledge and experience—the knowledge and experience of the men of his profession handed down through the ages through schools, colleges and text books—and the knowledge and experience which come in the day's work and in association and conference with others in his profession.

The druggist of today doesn't guess—he knows. And one of the reasons he knows is because he in-

stists that the preparations he sells shall measure up to the highest standards.

To recommend an article, the druggist must of course, know what it contains and how it is made, and this was one reason for the formation of a co-operative national association of druggists and physicians who prepare a complete line of household remedies and toilet goods. This association is the American Druggists' Syndicate.

This is the largest enterprise of its kind in the world. More than 28,000 druggists and physicians own and operate it and guarantee its products. They know that A.D.S. Milk of Magnesia is the best in the world, they guarantee that A.D.S. Aspirin meets the highest standards of quality, they stand back of A.D.S. Peridox Tooth Paste—the tooth Paste which whiteners like Peroxide—because it is incomparably the best. And the same druggists in the same way are squarely behind the entire family of A.D.S. products.

It means everything to you to have such a guarantee behind the remedies you buy—a guarantee based on the scientific knowledge and experience of thousands of experts. When you buy an A.D.S. product from an A.D.S. druggist, you may do so in the confident belief that you have secured the finest possible product at the lowest possible price.

Ask any A. D. S. Druggist for A.D.S. product the next time you need any household remedy or toilet article sold in a drug store.

from 75c decline to 35c advance. Oats touched the highest price of the crop. Export buying furnished a good share of the impetus.
