At the board of education meeting last night the board agreed to help out the musical organizations of the high school in the purchase of a new piano for the assembly room of the school, the main burden of the cost to be borne by the musical ladies, which badly needed the services of two pianos. The old piano will be removed from the assembly room by upstairs and the new instrument will be placed in the assembly room. Superintendent Davenport gave the board a report of the doings of the teachers state convention held at Portland, of special interest to school boards.

Chas. Lilly, president of the Tri-gonia Oil company, arrived this morning from San Francisco.

There are lovely Y. W. C. A. posters up all over town. One especially was the gift of the artist, Noyes McMein, to the Y. W. C. A. The girl's head on that poster is very appealing and has received much praise wherever placed. There are a good many in this vicinity who were former residents of Quincy, Ill., where Noyes McMein was born, and several knew her personally so this poster is especially interesting. She was a Y. W. C. A. worker in France. As an entertainer her act included a song, a bit on the mandolin, drawing caricatures and posters and doing a movie stunt.

EASES A COLD WITH ONE DOSE

"Pape's Cold Compound" then breaks up a cold in a few hours.

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripe misery.

The very first dose opens your clogged-up nostrils and the air passes in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and sniffling! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no "quinine"—insist upon "Pape's".

Discussion will be continued on this subject and committee appointed to look further into the matter. A very good program for next Friday night is being prepared and a good crowd expected. Our society is open for membership—every one invited.

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study. Dr. Edwards' Olive Tablets are a purely vegetable compound and are therefore safe. You will know them by their olive color. To have clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days—you must get the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Millions of boxes are sold annually at 10c and 25c. Take one or two each night and note the pleasing results.

AUSTRIA FACES NEW YEAR WITH DIRE FOREBODING

VIENNA.—The Austrian republic faces its second year with foreboding. Both the political and economic situations are believed here to have grown daily worse since early autumn.

The holiday season found Vienna with a reduced bread ration, virtually no fats and without fuel. The expected supply of coal from Czechoslovakia has not been received and public utilities were kept partly in operation only by great efforts and economies.

High hopes had been entertained from the visit of Chancellor Renner to the supreme council at Paris. The senate expected that Austria would obtain sufficient credit, food, fuel and raw material for the resumption of their industrial life. Now that the result of his journey has become known the newspapers sound a note of despair. One of them remarks that the decision of the supreme council that Vorarlberg may not separate from Austria means that that province is condemned to suffer along with the rest of Austria until

the ordinary native will have hardly sufficient for food and clothing but comes a luxury for even the comparative well to do.

Other provinces are seeking to free themselves from the burdens of Austria and turn elsewhere for help. There have been rumors of an impending revolt and declaration of independence in Tyrol. It is charged in some quarters that the whole separation movement in the Austrian provinces has been inspired by German propaganda with a view to establishing a corridor between Germany and Austria.

While Austria seems unable to obtain foreign credit for rehabilitation there has been much comment here upon the fact that foreign private capital has been diligently exploiting the country. It is asserted that the country has virtually been stripped of

articles de luxe while its remaining factories are unable to obtain raw materials. According to common report, foreign interests, principally Italian, have acquired enormous holdings of stock in Austrian industrial and mines.

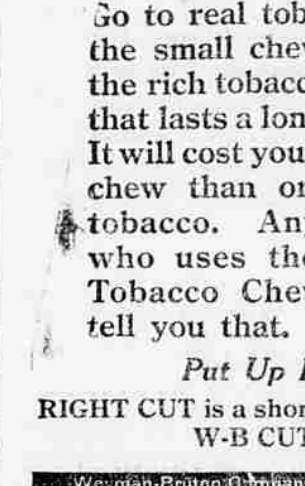

The government is evenly balanced between Socialists and Conservatives and thus far has been unable to give birth to constructive legislation looking to the solution of many internal problems facing the country.

Note the harmonious design of body, fenders, radiator, lamps, and general outline of this New Seven-Passenger Six!

See how gracefully the curves of each are blended. Few indeed are the cars which match it in appearance, or in which the modern level-edge body (originated by Studebaker) has been so perfectly developed.

Its power-resources are marvelous. Its touring range is ample for ordinary driving; its "emergency range" gives express train speed and power. Yet this is really an economical car to run. Even its tire-economy is notable. The thorough satisfaction of the thousands of letters from enthusiastic owners, its finish, equipment and appointments are of the highest quality.
