

AUTO ACCIDENT MEDFORD STREETS CAUSED BY FOG

Due to the fact that enough of the very thick fog was frozen to the pavements and sidewalks this morning to form a coating of ice, walking was rather difficult and there was much skidding of autos, resulting in a number of minor accidents. Considering the speed at which a number of drivers sent their cars through the streets, in disregard of their not being able to see far through the fog, it is regarded as very fortunate that there were not a number of serious accidents, instead of narrow escapes therefrom.

The most serious accident of the morning, but in which no one was injured was when the Pullman bakery delivery auto to which was attached a trailer, was run into in front of the Truax company store on East Main near South Riverside, at about 8 o'clock. Harry Schulz was just about to crank up the bakery auto when an Overland car driven by a man named Kirkpatrick, said to be from California, turned west into Main street from Riverside, skidded 40 feet and struck the trailer of the bakery auto, badly wrecking it, and suddenly starting Harry towards Jacksonville by throwing him 20 feet distant. Fortunately he escaped physical injury, but was badly dazed in his feelings. Neither of the autos was damaged.

lements and strengthens this important achievement of international policy. I rejoice with you that we are privileged to assemble with the sole purpose of ascertaining how we can serve one another, for in so doing we best serve the world.

World is Suffering

Secretary Glass, after reading President Wilson's message, welcomed the delegates. He said the conference was destined to be fruitful of important results in the interchange of information. He declared it was more and more necessary that those in high places should know one another.

"The world is suffering from a greater uncertainty now than in centuries," he said. "Mankind is showing signs of nervousness which may pre-empt the breakdown of government unless they all work their differences for the common cause."

Bryan Won't Talk!

Secretary Lansing then welcomed the delegates on behalf of the American government. William Jennings Bryan was one of the early arrivals at the conference receiving a cordial welcome. He said he would not make a speech.

REMEMBER THIS IS NATIONAL THRIFT WEEK

This is national Thrift week and it means more to you and the community in which you live than you may at first imagine. So stop, consider carefully, and act accordingly. "Thrift," you say, wonderingly. "There's the whole secret. You fail to understand that thrift signifies thriving—successful living. How can the person be successful who is wasteful or extravagant of time, money, material or energy? How can a person who only 'means well' be successful?"

When hundreds of thousands of other folks begin to register action on national thrift week, get amongst them and go and do likewise. What you save is only of secondary importance to the big fact of saving! The beginning is the thing which counts, for then you have lifted yourself out of the mass of those who "mean" into the class of those who "do."

Remember that thrift will increase your efficiency whatever your age or occupation. Why? Thrift is another word for good management. It stands for common sense in saving, and spending. Its practice will benefit you, not only in health and wealth, but from the most important viewpoint of character. Make thrift a part of your daily life and you obtain a passport that will carry you safely through all life's chances and changes.

ALLIES DEMAND KAISER

(Continued from Page One)

Question of Policy
"In addressing this demand to the Dutch government the powers believe it their duty to emphasize its special character. It is their duty to insure the execution of article 227 without arguments because it is not a question of judicial character as regards its basis but an act of high international policy imposed by the universal conscience, in which legal forms have been provided solely to assure to the accused such guarantees as were never before recognized in public law. The powers are convinced Holland, which has always shown respect for the right and love of justice, having been one of the first to claim a place in the society of nations will not be willing to cover by her moral authority the violation of principles essential to the solidarity of nations, all of which are equally interested in preventing the return of a similar catastrophe."

"It is to the highest interest of the Dutch people not to appear to protect the principal author of this catastrophe by allowing him shelter on her territory and also to facilitate his trial which is claimed by the voices of millions of victims."
(Signed) "Clemenceau."

COMES BACK AT ADMIRAL

(Continued from Page One)

dent of the war was to be made, no evidence bearing on this subject could be heard now. Senator Pittman, who directed the examination of Admiral Sims, cautioned him not to comment on any matter not related to naval decorations.
Senator Pittman called the admiral's attention to the fact that some of his recommendations for decorations had been changed by the Knight board and not by Secretary Daniels. The witness replied that his criticism was not of the persons who made the changes, but of the fact that they were changed.

Declaring that "in order that there may be no reflection on the record of Commander D. W. Bagley, a capable officer," Senator Pittman read the record of the unanimous award by the Knight board of a D. S. M. to Captain Satterlee, commanding the coast guard cutter Tampa, sunk by a submarine September, 1918, with a loss of all hands. He compared the circumstances to those surrounding the loss of Commander Bagley's ship.
Senator Pittman then read the letter from Secretary Daniels to Chairman Page outlining his reasons for awarding medals to the commanding officer of ships sunk by the enemy.

Sims Doesn't Weaken
"Those sentiments, if maintained, would undermine any military organization," declared Admiral Sims.
No recommendation of the investigating committee might make regarding award of decorations to officers would cause him to change his own recommendations, he added.
"The committee is not conversant with the facts and could not change my final opinion one iota," he declared.
"No one who did not sweat blood with these officers during the war would be competent to say who deserved medals."
Chairman Hale said: "The committee is not here to award medals but to investigate the facts surrounding the awards already made."

GENERAL PERSHING UNABLE TO STOP SOUTHERN OREGON

The outlook is not bright for Medford people seeing General Pershing this week as Ralph Cowgill, president of the Medford post of the American Legion received a telegram early this afternoon from the post's representative in Portland, saying that there was nothing doing relative to the post's invitation to the general to stop here on his way from Portland to San Francisco.

However, the local ex-service men have not yet given up and will keep on trying to induce General Pershing to change his arrangements so as to stop here for a minute or two.

According to the telegram this afternoon General Pershing's adjutant stated that it would be impossible to grant the local request as the general was slated to leave Portland for San Francisco next Wednesday at 11 a. m. on the train which arrives here about 11:40 p. m. that night.

Efforts will now be redoubled to have the general and party leave Portland at night so as to arrive here on the 9:55 a. m. or 4:20 p. m. train.

The present plan of departure will also knock out the Ashland legion post's plan, which it was thought had all been fixed at Portland last week by President Briggs of that post for having General Pershing get off here on a daylight train, where the post of that town would meet him and rush him to Ashland by auto where he would address a large public assemblage at the depot.

GEN'L SMUTS ASKS HIS PEOPLE TO AID STARVING EUROPE

CAPETOWN, Sunday, Jan. 18.—Jan Christian Smuts, member of the British delegation at the peace conference, has appealed to the people of South Africa to associate themselves in the work of relieving distress in central Europe and to devote special efforts to work for starving children.
"Starvation and disease are producing terrible mental and moral conditions," says the appeal. "The darkness of a great doom seems to be settling down over large parts of Christendom. The allies may be overshadowed by the danger of an immeasurable defeat for humanity, and the people of South Africa, who are richly blessed, dare not sit still."

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets
The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent. of all sickness comes from inactive bowels and liver. Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

COAX 'EM

Stop Whipping Bowels into Activity, but take "Cascarets"
Put aside the Salts, Pills, Castor Oil, or Purgative Waters that irritate and lash the bowels into action but which do not thoroughly cleanse, freshen and purify these drainage organs, and have no effect whatever upon the liver and stomach. Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, and carry out of the system all the constipated waste matter and poisons in the bowels which are keeping you half sick, headachy, and miserable. Cascarets tonight will make you feel great by morning. They work while you sleep—never gripe, sicken or cause inconvenience. Cascarets cost so little too.
