Ye Smudge Pot

By Arthur Perry

Mr. Robert Stanfield of eastern Oregon has served notice that he is willing to have the political daylight kicked out of him by running against George Chamberlain for the U. S. Senate in the fall.

The Kaiser condemns his son, the Crown Prince for offering his hide for 900 huns, as a "grandstand play," which is probably what the Kaiser intended doing.

"Am losing my health, must sell Ford, 1918, model, bargain. Phone Bdw. 1618. (Want ad, Portland Oregonian). More cause and effect stuff.

BUT DOCTORS GIVE A DARN

(Yreka Journal)

Dr. Will Tebbe, with his winning smile, was around today collecting from the people for the Y. W. C. A. drive. Dr. Will had a new stunt, as he gave each a fine cigar, who contributed to the cause, but when last seen he was going strong and his quota was almost in sight.

BOOK REVIEW—"Tatt and Mr. Tatt," series, Saturday Evening Post, title current issue, "Togery Bill" by Arthur Train.

It would be wonderful but there is no chance for the prospective oil well out-spoiling a Lincoln bannet orator. Cast iron and steel just naturally will not stand the same amount of pressure as the human larvax.

The Bolsheviks have captured the Russian town of Uk. The remainder of its name was destroyed by the Austrians in the spring of 1915.

The Anti-Saloon League of America announces that it will go out of business June 30. They should have closed themselves up the same time they did the saloons.

"Watchful waiting" has switched from the border to the L. of N.

City election will be held in Peoria first Tues. in March. As Peoria goes, so goes Bill Gates.

Notice of Removal

The Union Livery, Feed & Sales Stables formerly located at Dr. Helms barn, 111 North Fir street, is now located at the old Vincent barn, North Riverside and will be known as the Union Livery, Feed & Sales Stables, the only feed stable in Medford.

"Lucy, the famous Red Cross pig," trained by E. G. Honney, newspaper man of Connel, Washington, would stand at attention while the Star Spangled Banner was being played.

KIDDIE'S CROUP MUST BE CHECKED

Dr. King's New Discovery will do that very thing, easy and quickly

DON'T say, "Poor little son-a-giner—I wish I knew what to do for you!" Just give a little Dr. King's New Discovery as directed and the croupy cough won't linger.

A cold is not to be fooled with. Get after it at once. Loosen the congestion, the phlegm-stuffiness, and the throat-torture.

A family remedy for colds, coughs, grippe, and kindred attacks. Fifty years a friend to cold-sufferers. Fifty years of highest quality. 60c. and \$1.20 a bottle—all druggists.

Bowels on Schedule Time

the bile flowing freely, the fermenting body poisons eliminated, Dr. King's New Life Pills make the bowels function regularly and keep the system cleansed of gaseous impurities. 25c. a bottle, all druggists.

Medford's Need of a New High School Building

The following theme was written by Miss Jean Tompkins of the high school in English 1919.

Whenever people move from one place to another, almost their first question concerning their prospective home is the school—is it a good one, with modern improvements and the educational advantages it should have? The school question seems especially important one to us at the present time, as so many outsiders are coming to the valley—all with the same question concerning the schools.

Considering the size of Medford, our schools are exceedingly poor. Much smaller places have better buildings than we can boast of. All about us are excellent buildings used mostly for pleasure. Does it seem right that our institutions of learning should be so inferior?

The high school seems the worst, for the grade schools have superior buildings and are not so crowded. But at the present time in the high school, roll rooms have had to be made in nearly all of the available recreation rooms, the assembly is seating as many as possible—and there were more than twenty new freshmen that came over after the mid-year exams. Such a condition is serious, and surely merits some purposeful discussion.

The high school has long been known as not large enough to accommodate all the pupils, but there are other, and just as serious, difficulties.

The assembly is planned poorly, not alone in that it will not heat the pupils, but that confusion and noise are almost unavoidable. On its present plan, almost nothing could be done to remedy this.

The lighting throughout the building is not sufficient to the need; the heating is very poor. Many of the rooms are poorly ventilated. The condition of the building itself is unsafe. When classes are passing the whole structure shakes.

There is no gymnasium, and the Natatorium, where physical culture exercises are held, is always cold and often damp. Many complaints have come from this source. Also the school grounds are much too small, and the pupils have no place but the street.

One might continue for some time to enumerate faults and deficiencies, but the whole question simply resolves itself to this—are the citizens of Medford going to allow their schools to continue to be a disgrace to the community? Do they intend to let their boys and girls go thru school here without the facilities which even ordinary schools now consider necessary for their completion? Education, as a prime factor in our country's development, is growing of more importance every day, and it is in the nature of progress to make the schools in which young America is gaining its precious knowledge, the very best ever!

JEAN LOOMIS.

HAPPIEST WOMAN NOW IN THE STATE SAYS MRS. SMITH

"I believe I'm the happiest woman in California today and it is all because of what Tanlac has done for me," said Mrs. Eugene Smith, a prominent and popular Los Angeles woman who resides at 630 West 52nd St. Mrs. Smith is an officer of the Eastern Star and other organizations.

"For six years I suffered from a complication of troubles that finally led to a general break down. I had awful pains around my heart, which I was told, were caused by pleurisy. My kidneys were in such bad condition I had constant pains in my back and my neck and shoulders would get stiff at times and my limbs swelled so I could hardly walk. I was so nervous that even the ringing of the door bell upset me and it seemed impossible to get a good night's sleep. I tried everything I could hear of to get relief, even to having all my teeth treated, but kept getting worse and became so weak and emaciated that I weighed only one hundred pounds. Finally they took me to the hospital and I stayed there six weeks, but did not seem to improve in the least, so I was brought home and had just about given up hope when a friend persuaded me to try Tanlac.

"I began to feel better after the first few doses and by the time I had taken four bottles of Tanlac I had gained eighteen pounds in weight and felt as well and strong as I ever did in my life, for every one of my troubles had left me.

"The results from Tanlac must be permanent, for it has been four months since I took my last dose and I feel as well now as I did then, and I think I would be ungrateful not to tell others what a wonderful medicine Tanlac is."

Tanlac is sold in Medford by West Side Pharmacy, in Gold Hill by M. D. Bowers, in Central Point by Miss M. A. Abee, in Ashland by East Side Pharmacy, in Eagle Point by Von der Heiden. Adv.

Regular Girl at Rioito.

The most worth-while film offering in Medford during the past month is "The Regular Girl" at the Rioito, now playing, with heroic Elsie Janis as its star. Aside from the fact that Miss Janis did more perhaps than any other woman in the way of entertaining the boys "over there," her first film offering attracts wide commendation because of its real merit.

Enid Bennett

"Stepping Out"

A Personal Picture

Enid Bennett at Liberty

It affords us pleasure to announce Enid Bennett's appearance at the Liberty theatre today and tomorrow in her latest feature, "Stepping Out."

When Miss Bennett steps out and does things as she does in this picture, you are bound to be interested. Her wife who has staved for her husband to the end that he may dress well and who has repaid her sacrifices with unkind words, will be interested in this picture. So will every woman whose home life is ideal, for it offers her a most congenial study in life contrasts.

When we assure you that "Stepping Out" is one of the best photographs in which Enid Bennett has appeared this season, you are telling us the truth. Her characterization of a suffering wife who finally declares her independence and proves her worth to a husband who was blind to her value as helpmeet and woman, is a delight.

The spring term of the grand jury will convene at the county seat next Monday. There will be a number of criminal cases up for consideration.

COMMUNICATIONS

(The Mail-Tribune welcomes communications on any subject of general interest but is in no way responsible for the sentiments expressed. Only in exceptional cases will communications of over 200 words be printed. All communications must be signed by the writer's name, which may upon the writer's request be withheld.)

Energy Replaces Matter.

To the Editor:

Some startling conclusions may be drawn from the result of the research work of one of the greatest of modern physicists, Professor A. A. Michelson, professor of physics in Chicago University since its establishment in 1892. Professor Michelson has long been one of the outstanding figures in the world of physics and member of learned societies in a number of foreign lands; winner of the Noble prize of \$40,000, in 1907, for his work in the field of light.

Professor Michelson, who furnished the data on which Professor Einstein worked out his famous theory of relativity which is revolutionizing scientific thought in relation to the universe, asserts that "The impression is gaining ground among the physicists that energy replaces matter as the fundamental entity of the universe." He further states among other interesting facts, revealed by his own work and that of his fellow scientists, that "The mass of a body has been supposed to be one of the most constant of things of which there is any knowledge and now it is shown that it is not a constant. This has been proved experimentally to be correct.

Along the same line of research, it has been demonstrated that the atom, which had long been regarded as composed of matter-molecules, is in fact an aggregation of non-material electrons; the number of electrons in an atom, and the number alone, determining the substance composed of such atoms, for there is absolutely no variation in the character of the same. Uranium, with 92 electrons to the atom, tops the list of all known substances. It is, perhaps, the most complex, excitable, unstable and inconsistent of substances. The loss of five electrons converts the uranium atom into radium, and the loss of 9 converts it into dull, inert lead. No wonder the verb is—'inconstant, unstable, evasive, unreliable, untrustworthy.'

So, at last, physical science has been called upon to administer the course of grace to both matter and materialism, for without matter there can be no matter-medicine! "Energy," according to the latest revelations of science, "replaces matter as the fundamental entity of the universe," therefore some form of energy, force or power must ultimately be accepted as the sure specific for all our human ills, and matter-drugs relegated that vast limbo of dead and decaying superstitions. Who shall name this mighty power for good, and what shall its name be? PROGRESSIVE.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through taking them.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil. They act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood, and purifying the entire system. They do that which calomel does, without any of the bad after effects. Take one or two every night for a week and note the pleasing effect. 10c and 25c a box
