There is a dearth of labor in Medford, or at least there are no idle men. Nothing especially big to absorb all this skilled and common labor, but a little here and there makes workers in demand just at present everywhere. Of course the spraying and other work in the orchards give employment to many, a number of homes are being improved or altered and new ones are being constructed. The only big building now in course of construction is the new garage and store building of the Gates Auto company.

"Any one would be foolish to drive a big car from Medford to Eugene," said Merle Willis who returned last night from Eugene to which city he had driven Will G. Steel in the latter's Chevrolet car. "Outside of general bad places the road is passably fair, but rough. One bad place we encountered was on Smith's hill this side of Wolf Creek on which is deep rutted mud, but it can be negotiated with a light car and chains. For a distance of a half-mile in the Cow Creek canyon the same condition prevails. Between Yoncalla and Drain there is about 100 yards of deep soft mud in which our car sunk up to the axle. Because of tire troubles it took us 18 hours to make this trip or 185 miles, but exclusive of tire trouble delays we should have made the trip in 14 hours."

**BETTER THAN CALOMEL**

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "loxy" and "heavy." Note how they clear clouded brun and perk up the spirits. 10c and 25c a box.

**SAGE AND SULPHUR DARKENS GRAY HAIR**

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost everyone knows that Sarsaparilla, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

**Contributions in Army Essay Contest**

The following essay, written by Edwin Andron, 11 years old, of the Jackson school in the army essay contest, did not land a prize, but attracted the attention of the judges to such an extent that it is printed herewith:

Jackson School, Medford Ore. Feb. 20, 1920.

"What are the benefits of an enlistment in the U. S. Army?"

"When a man enlists in the U. S. Army, he gets wholesome body-building food. They get all they want to eat when they have a chance. Sometimes they are out on the battle fields fighting.

"They have clean, comfortable and healthful sleeping quarters when they are tired. Sometimes of a night, they have some amusements if they are not too tired. The government supplies them with clothes. Sometimes they send their clothes to the laundry and sometimes they have to wash their own clothes.

"They are given special medical attention so they will not get sick or die. They are wounded so bad sometimes that they will have to have special care.

"They have special dental work done to their teeth. In that way they will not decay and ache.

"They have their amusements so often. They get all their amusements free when they go.

"If they are not educated they can have that when they are in the army. They can choose any kind of work they would like to do.

"They have the cheapest life insurance while they are in the army. They do not have to pay much for their life insurance.

"They have the best opportunity to see the world if they want to. You can travel in Europe, Siberia, China, Philippine Hawaiian Islands and Panama.

"The soldiers can take their choice of 14 different branches that they want to be in. You can learn almost any old trade that you want.

"You can learn foreign languages

**THE MATTER WITH U. S. A.**

What's the matter with America these days?

Too many diamonds, not enough alarm clocks.

Too many silk skirts, not enough blue flannel ones.

Too many pointed-toe shoes and not enough squared-toe ones.

Too many serge suits and not enough overalls.

Too much décollete and not enough aprons.

Too many satin upholstered limousines and not enough cows.

Too much discontent that vents itself in mere complaining and too little real effort to remedy conditions.

Too much class consciousness and too little common democracy and love of humanity.—Fargo, N. D. Forum.

Too much envy of the results of hard work and too little desire to emulate it.

Too many desiring short cuts to wealth and too few willing to pay the price.

Too much of the spirit of "get while the getting is good" and not enough of the old fashioned Christianity.
