

"Gee-Whiz, How it Hurts!"

"Merciful Heavens, how my back hurts in the morning!" It's all due to an over-abundance of that poison, called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking "Anuric."

When your kidneys get sluggish and clog, you suffer from back-ache, sick-head-ache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, get "Anuric" (anti-uric-acid), for it will put new life into your kidneys and your entire system. You will feel full of vim, vigor and vitality, instead of tired, dragged-out and blue.

"Anuric" is many times more potent than lithia, and was first discovered and placed on sale by Dr. Pierce. Ask your nearest druggist for "Anuric," that new kidney remedy of Dr. Pierce's, or send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., ten cents for trial package.

TUOLUMNE, CALIF.—"My back gave me considerable trouble, which I thought was due to kidney disease. After taking four packages of Dr. Pierce's Anuric (anti-uric-acid) Tablets I was fully recovered. I consider it a wonderful medicine. I also use Doctor Pierce's Pleasant Pellets whenever I am bilious, and they give immediate relief. I consider them a great medicine, also."—WM. H. BOSCH.

FEBRUARY DRIEST MONTH IN HISTORY EXCEPT IN 1913

The past month with 222 precipitation was with the exception of one year the driest in the history of the local weather bureau. In fact, as far back as 1889, there is no record that can compare with it except February 1913, when the precipitation was only .10 inch. The average for the month is 3.62 inches. In 1913, however, there was a heavy rain of 3.62 inches in January, while this year the January precipitation was only .42 in. If 1913 is an example of a dry February year, however, there is some hope for 1913 there was nearly six inches of rain in June and July and consequently one of the best fruit crops in the history of the valley up to that time.

February, in addition to being very dry was distinguished by warm sunny weather, although the nights and early mornings were consistently cool to cold.

The rainfall deficiency for the year from September 1 is now 4.95 inches, according to averages for the past five years.

U. S. A. CONSUMES MORE OIL THAN SHE PRODUCES

In the course of the centuries the raw material issue changes. In the long-bow epoch of England's military strength the conservative feared a depletion of the yew wood which might give the Teuton, backed up by his larger forests, an obvious advantage in light ordnance. Later, when Great Britain's naval power depended upon her wooden ships of war, the anxious naval chief foresaw a possible shortage of the oak which made the walls which stood between England and her enemies.

The yew and oak are no longer essential to national defense, for steel has proved the substitute in both arms and armor plate. Yet today those who plan for the future prosperity of their nation realize the extent to which other raw materials are essential to the general well-being, and for some of these we can see no adequate substitutes.

Foremost among those most useful and least abundant, if not irreplaceable, commodities stands mineral oil, or petroleum, and not only the conservative Briton, but the most optimistic American may well ask himself, where will my children and children's children get the oil that they may need in ever increasing amounts?

The world's greatest oil producer and consumer is the United States. The leadership of the United States as an oil producer and consumer is spectacular enough to satisfy our American love of doing things on a big scale. For sixty years, except in 1898 to 1901, when Russia reached the peak of its past petroleum production, the United States has led the rest of the world with its steadily increasing flow of oil.

But while we have contributed far more than half (61 per cent) of the oil that the world has used in all these years, we have already reached the point where we are consuming more oil than we produce. Is this position of the world's greatest user of petroleum as safe as it is spectacular?

The story of the petroleum industry in the United States extends back only sixty years. On August 28th, 1859, oil was struck in the Drake well, near Titusville, in northwestern Pennsylvania, and when the pumping began, the oil flowed in a tiny stream of forty and later only 15 barrels per day, but since that day of small things the tide of oil has mounted higher and higher; 5 million barrels were produced in 1876, 26 million in 1889, 45 million in 1899, 63 million in 1909, 209 million in 1919, and 356 million barrels in 1918, with the output last year perhaps 20, or even 30 million barrels in excess of that record. The crest of this flood of oil must surely soon be reached.

By George Otis Smith, director of United States geological survey, National Geographic magazine, February, 1920.

COMPLETE LIST I. W. W. SECURED IN CHICAGO

CHICAGO, Mar. 2.—Papers said to contain the names and addresses of virtually every member of the Industrial Workers of the World organization in the United States were in possession of Maclay Hoyne, state's attorney today. City detectives last night took the lists from a man who gave the name of Alexander Gavlin.

GERARD AND MONROE WILL FIRST S. D. DEBATE

STOCK FALLS, S. D., Mar. 2.—James W. Gerard of New York, nationally democratic candidate for primary, will debate with James O. Monroe of Chicago, independent democratic candidate here tonight. The debate will be under provisions of the Richards primary law, which requires presidential candidates to debate national issues. This will be the first presidential debate under the law.

Dr. Carters K. & B. Tea Makes Fine Laxative Syrup

Make It at Home and Save About \$1.50—Children Love to Take It. Full Directions With Each 30-Cent Package. For a real tonic and blood purifier, take a teaspoonful every night or every other night for at least three weeks.

To make young bodies, strong bodies—let the youngsters have plenty of delicious, wholesome, nutritious DEL MONTE Beans with Pork and Tomato Sauce. PORTLAND TO NEW YORK BOAT LINE FORMED

PORTLAND, Mar. 2.—A regular steamship service, connecting Portland with the Atlantic coast, will be established the latter part of this month by the Pacific Mail Steamship company, according to a telegram received today from the San Francisco office of this company by George Powell, manager of the Oregon Pacific company, who has been appointed Portland agent of the service. A monthly service according to the information received by Mr. Powell, is to be maintained with steel shipping board vessels until August, when the frequency of the sailings will be increased.

Cut This Out—It Is Worth Money. Cut out this slip, enclose with 5c and mail it to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar, for coughs, colds and croup; Foley Kidney Pills for pain in sides and back; rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic, for constipation, biliousness, headache, and sluggish bowels. For sale by Medford Pharmacy.

Survivors Aleta Land N. Y.

NEW YORK, Mar. 2.—Forty-one members of the crew of the steamer West Aleta, which went aground off Terschelling Island last month, arrived here today from Antwerp on the transport Northern Pacific.

Yellow Mustard For Rheumatism

A good hot mustard plaster or poultice is pretty sure to overcome most rheumatic pains and even sciatica and gout but it's a messy affair and generally blisters. Heat is absolutely necessary if you want permanent relief. Begy's Mustardine made of pure yellow mustard with pain relieving ingredients added is just as hot, is cheaper, cleaner and more effective than the old-fashioned poultice or plaster and cannot blister. Besides rheumatic pains and swellings Begy's Mustardine is speedily effective for lumbago, backache, neuritis, pleurisy, bronchitis, sore throat, chest colds and all aches and pains because heat causes pain—30 and 60 cents at druggists or by mail S. C. Wells & Co., LeRoy, N. Y.

BEGY'S MUSTARDINE IN THE YELLOW BOX

Licensed City Scavenger.
