## Don't Let Catarrh Drag You into Consumption

Avoid Its Dangerous Stage. There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and the hacking and spitting and other distasteful features. The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, jellies and other local applications. S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and tends to remove the germs of the disease from the blood. Get a bottle from your druggist today, and begin the only logical treatment that gives real results. For free medical advice write to Medical Director, 104 Swift Laboratory, Atlanta, Ga.
