RADICAL R. R. MEN REFUSE TO BACK DOWN

Hope for Settlement Dashed When "Outlaw" Leaders Repeat Original Demands and Add New Ones to List—R. R. Employees Return in Large Numbers.

CHICAGO, April 17.—Hope for settlement of the railroad strike here today was definitely lost this morning when the grand lodge officers, directors and trustees of the "outlaw" union reiterated their original demands and added new ones to the list.

It was reported when the leaders of the insurgent organization went into session that they were planning to advise their men to return to work.

At the close of the session John Graman, president of the Chicago Yardenmen's association which called the first strike here, issued the following statement:

"At a meeting of grand lodge officers, board of directors and board of trustees of the Chicago Yardenmen's association at ten o'clock a. m. it was unanimously decided that the original demands of the C. Y. A. presented to the railroads, shall stand, also that as far as switchmen and switch tenders are concerned, we must be recognized as the governing body. Also that there shall be no discrimination against any men who have withdrawn from the service of the various railroad companies and they must be restored to their former seniority rank.

(Signed) "JOHN GRUNAU" Addition of the two demands to the previous list apparently has widened the split between the roads and brotherhoods on the one hand and the strikers on the other.

The general managers and the brotherhood here have given the strikers until Monday to return to work, under penalty of losing their seniority.

BY THE ASSOCIATED PRESS, April 17.—Speedy termination of the transportation tieup wrought by the unauthorized strikes of railroad workers throughout the country seemed assured today.

Switchmen, yardmen and other employees of the Pennsylvania, Reading and Baltimore and Ohio lines in the Philadelphia district—one of the eastern strongholds of the strike—were returning to work today under orders of their strike leaders.

William J. Tracy, chief of the Pennsylvania state bureau of mediation, who effected the settlement there, said the work order would affect strikers on all lines between Boston and Washington.

The Philadelphia settlement will be affected on the basis of a promise from Pennsylvania and B. & O. officials that returning strikers would retain their seniority ranking and would be free from all discrimination.

Strikers at Baltimore, another eastern stronghold, also were returning today.

In the New York district railroad officials declared the men were returning rapidly.

Reports from all sections of the country indicated that the swing back to work was fast gaining momentum.

UNCLE SAM NOT REPRESENTED SAN REMO GATHERING

SAN REMO, Italy, April 17.—(By Associated Press). Whether the United States would be represented at the conference of the allied nations called to meet in San Remo was a question which had not been answered here as the chief representatives of the powers gathered today for the sessions which are to begin Monday.

The conference will have as its program an endeavor to settle three or four of the great problems now disturbing Europe. One of these is what action shall be taken respecting the carrying out of the treaty of Versailles so that it will be made plain to Germany that the allies regard it as a binding instrument. Others are the determination of the future of the Turkish empire and the final framing of the Hungarian peace treaty. The Adriatic settlement and the international exchange problem are also likely to be considered.

WASHINGTON, April 17.—At the time of the first announcement that the allied nations would hold a conference at San Remo, it was said at the state department that the United States would not be represented and it is understood that there has been no change in this decision.

CALIFORNIA WINS EASILY FROM STANFORD IN ANNUAL BOAT RACE

OAKLAND, Cal., April 17.—California university won the annual varsity boat race with Stanford university on the Oakland estuary today by three lengths. The time for the three mile course was 16 minutes 25 2-5 seconds.

California's victory, the second one in the annual regatta, was comparatively easy. The winning crew was doing 38 strokes to the minute at the finish and although Stanford was using the same stroke it could not close the ever-widening gap that started soon after the race began.

and hundreds of students perched on all parts of the draw cheered wildly. Before the race a canoe containing California rowers was swamped, but all were quickly rescued.

California also won the second varsity and freshmen races. Time for the second varsity and freshmen races was 11 minutes, 32 seconds, and 11 minutes, 43 1-5 seconds, respectively, both races being over a two-mile course.

The California men won on form and condition, apparently, the Stanford men lagging badly, particularly in the second varsity and freshmen events, although they tried manfully to close the ever-widening stretches of water.

H. L. WILSON HAS NO LOVE FOR WOODROW

Former Mexican Ambassador Declares to Support Wilson's Mexican Policy Is Unpatriotic—Mexicans Can Only Understand Justice When Accompanied by Firmness.

WASHINGTON, April 17.—Mexico's request for permission to send troops through American territory so as to attack Sonora from the north has been referred to the war department by the state department.

State department officials today said the request had not come officially from the Mexican government as they stated yesterday, but from high officials of the Mexican army.

While the war department was considering the request, Henry Lane Wilson, former ambassador to Mexico, continued his testimony regarding Mexican affairs before a senate investigating committee.

"The peculiar motives which induced President Wilson to adopt the policy or rather lack of policy toward Mexico during the last seven years," he said, "arise evidently from the mental obsession that all knowledge and all power rests in the executive. I believe that he came to office with the idea that he had a mandate from the American people to reverse all the foreign policies of his predecessors."

Besides affecting Mexico, this had worked great harm "in bringing about the domination of Japan over China," Mr. Wilson said.

Discussing the treaty controversy the former ambassador said: "The president wrote article ten of the treaty himself and though there are many more important sections than it, he has caused widespread disaster by insisting that the whole treaty be rejected rather than let the senate modify that one section."

"As to Mexico, I am informed that he has already written a plank on the subject for the next national platform and demanding a continuance of this course," the witness continued. "He cannot be changed."

"Anybody who supports the Mexican policy of President Wilson is unpatriotic and un-American. Eighty per cent of Mexico's population is illiterate and Indian, with a distinct division between the Indian of the north and the southern Maya. They have no concept of fine-spun politics or altruistic theory, but do comprehend justice if it is accompanied by firmness."

The snow and rainfall had the effect of bringing the Sacramento river to a new level, reported to be the highest since the rainy season began.

As he is wanted in Germany for a political offense he cannot be surrendered, and no demand for his extradition is expected. He was provided with a false passport bearing the name of "Kamitz." Swedish authorities might expel him for this violation of the law, but in this case he could elect where he would be sent. In the meantime he is being held in jail.

The troops will be sent to other points of expected attack should the Sonora officials get confirmation of the report the United States will not allow Carranza troops to cross American territory to attack Sonora. General Pina said.

Francisco Villa has offered his assistance to the Sonora government, it was reported here. Military officials would not say whether Villa's offer had been accepted.

The Sonora troops all had guns and seemingly plenty of ammunition.

Mexican Request Refused

WASHINGTON, April 17.—Senator Knox, republican, Pennsylvania, told the senate today that he was informed that the state department had refused the request of Mexican officers for a permit to transport troops through American territory to move against the anti-Carranza forces in Sonora.

Senator Knox stated later privately that he had taken his information from the New York Sun.

Senator Knox's statement was made in response to vigorous protests by Senators Smith and Ashurst, of Arizona, against granting the Mexican request.

Denouncing the Carranza troops as "murderers," Senator Ashurst declared the state of Arizona had "some rights."

"I hope the governor will repel with force any armed gang of Mexican marauders, whether on train or foot," he said.

DOUGLAS, Ariz., April 17.—J. M. Alvres Tostodo, until the withdrawal of the state of Sonora from the government of Mexico collector of customs at Agua Prieta, in a statement made public here today said he had received a message from Mexico City saying the report that two Mexican gunboats had been seized by Sonora officials on the west coast was untrue.

Tostodo also said he had received information from unimpeachable sources that labor unions at Cananea, Pinar and Nacoarzi, where are located big mining camps had passed resolutions condemning the Sonora state government for withdrawing from the national government.

General Alvaro Obregon still is in Mexico City, Tostodo said, and will not be permitted to leave the capital until an investigation of the rebel chieftain General Roberto Cejudo is completed. Reports received by Sonora officials at Agua Prieta had said Obregon and his campaign manager Benjamin Hill, had fled from the capital.

TIGHTER CREDITS FORM FEATURE OF MONEY MARKETS

NEW YORK, April 17.—Developments of the week in the securities market were governed largely by tighter credits and the railroad strike. Neither of these factors acted as a deterrent, however, to the aggressive operations of bull pools.

Call money rose to 15 per cent, when the demand was at its height, albeit most of the week's loans were made at 8, marked relaxation being shown when interior banks came into the market. Time money lost none of its stringency, slightly higher bids being made for short time accommodation with few acceptances.

On the surface the investment market derived further strength from the success of the Pennsylvania bond offering, this being followed by an announcement of the Standard Oil company of New Jersey of an additional issue of \$100,000,000 preferred stock.

The effect of these new undertakings upon previous issues with less attractive interest returns was most obvious in Liberty bonds and Victory notes, nearly all of which suffered depreciation to new low records.

Additional reasons for the weakness of the government's war flotations were found in the higher interest rates attached to new treasury certificates and involuntary liquidation from sections of the country where industrial unrest has been most conspicuous.
