LABOR LEADERS PROTEST AGAINST MEXICAN INFLUX

WASHINGTON, April 17.—To prevent an influx of Mexican and Canadian laborers into this country, the American Federation of Labor, through Frank Morrison, its secretary, asked congress today to "take any necessary action" to abrogate orders of the department of labor permitting temporary admissions of Mexicans and Canadians to work this year in the beet sugar industry in Colorado, Wyoming, Iowa, Utah and Nebraska.

Mr. Morrison told the house immigration committee that the laborers so imported would over-supply the general market. He added that there would be no shortage of labor in the beet industry if "living wages" were paid American workmen. Overwhelming pressure from members of congress, Morrison asserted, preceded the recent order of the labor department suspending provisions of immigration laws so alien laborers might be admitted, but he argued that the situation had been "misrepresented" to congress.

He submitted telegrams from central labor organizations in cities of the five states named and in California, Arizona, New Mexico, Nevada, Texas, declaring "everyone claims there is no shortage of labor."

GERMAN ROYALTY FINED FOR HOTEL ADLON INCIDENT

BERLIN, April 16.—Potsdam society attended criminal court today, attracted by the fact that for the first time in Prussian history a prince of the house of Hohenzollern occupied the defendant's bench. Prince Joachim Albrecht, Baron von Platen and Prince Hehenlohe Langenbuz, who attacked the members of the French commission at the Hotel Adlon recently were given a quick trial and were fined 500, 300 and 1,000 marks respectively. Notwithstanding the social status of the audience, a patrol of security police carefully searched the spectators for concealed weapons.

Prince Joachim was decidedly nervous and admitted he had been drinking "a little" on the night of the disturbance. He claimed, however, there had been provocation.

The judge said it had been established that Prince Joachim and Baron Platen had thrown glasses and candlesticks at the Frenchmen, and that Prince Hehenlohe had hurled a boot at them.

"The court," he added, "refuses to pass judgment against its conscience to please anybody, regardless of who he is."

ROSEBURG MAN IS STABBED TO DEATH

ROSEBURG, Ore., April 17.—Otie Bates, 19, employed as a section hand on the Southern Pacific near here, was stabbed to death late yesterday. Arthur Thompson, 23, a fellow employe, is being held by the police pending an inquest.

Bates and Thompson, according to information obtained by the police and made public here, negotiated a trade, Bates giving Thompson a horse in exchange for a cow. The horse was said to have proved balky and otherwise not satisfactory and Thompson, the police say, demanded the return of his cow. This, the police say, led to a quarrel which resulted in the stabbing of Bates.

strikers, at which they will be advised to return to work, is to be held this afternoon it was said. The men will be told, it was reported, that their objective had been obtained, that their wage demands would receive the prompt attention of the new railway labor board and that the new union would continue, with or without the sanction of the railroads.

Leaders Issue Call

Among those at the conference were John Granau, president; Charles Riley, vice president; A. W. Cassidy, secretary; William L. Bond, treasurer, and Fred A. Feltner, sergeant at arms of the Yardmen's association, all of whom were arrested Thursday charged with conspiracy to violate the Lever act.

Union officials pointed out that the proposed plan of "advising" the men to return to work is as nearly an order to return to their posts as the "rebel" leaders can give in view of their contention that the walkout was a movement of individuals and that the union chiefs had not power to "force them to return to work."

At union headquarters it was said such a "suggestion" from the officers of the union would be sufficient to break the strike in the Chicago switching district, where 8,000 men walked out, beginning seventeen days ago.

Condition Near Normal

CHICAGO, April 17.—Today was set by railroads as the time limit for "outlaw" strikers to return to work in several important centers in the west and with substantial desertions of insurgents already reported an early collapse of the strike movement was believed to be in sight.

Freight moved today in central and western states on an increased scale and in many sections conditions were nearly normal.

Activities of government officials, brotherhood and railroad heads and strike leaders were said to point to a quick termination of the strike in the Chicago district.

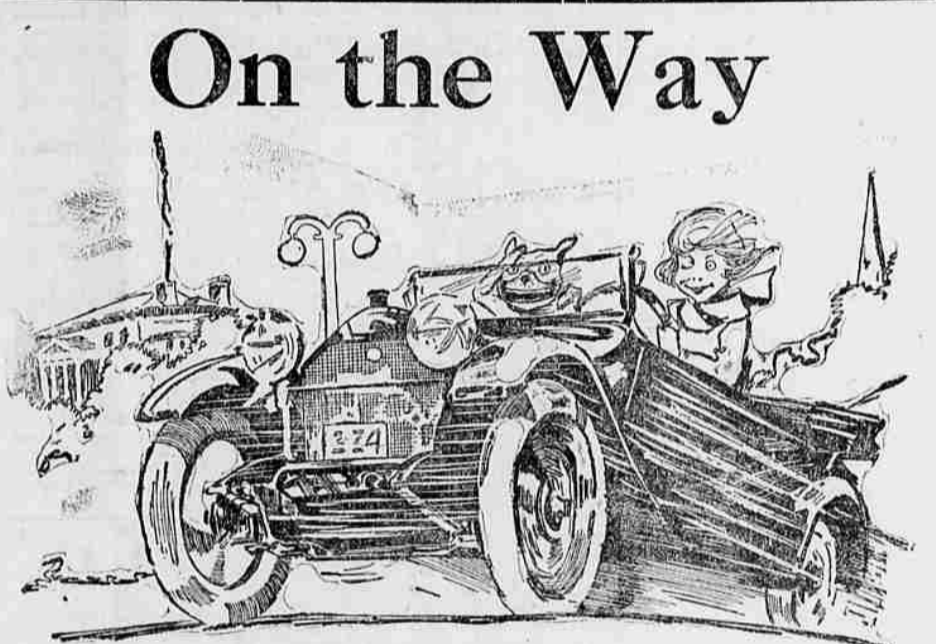

Major General Leonard Wood left last night for Nebraska, after announcing he found traffic conditions improving throughout the department. He said he found no evidence of connection between the strike and I. W. W. activities.

Little change in the strike situation in Michigan and Ohio was reported early today. Several hundred thousand factory workers there remained idle.

Increasing movement of freight at nearly all points in the far west was reported. Concern was expressed, however, by growers of perishable crops in California at failure of railroads to move refrigerator cars.
