

MARGARET ANGLIN ONLY PLAYS HERE OUTSIDE PORTLAND

Howard Hall will present at the Page theatre on Monday night, April 26, American great emotional actress Margaret Anglin in her latest success, "The Woman of Bronze," adapted from the French, by Paul Kester.

Miss Anglin has assembled and rehearsed a company of unusual excellence. The setting, the work of Livingston Platt is warm, colorful and artistic. The play is gripping and affords Miss Anglin opportunity for her finest interpretation. In the leading character of Vivian Hunt her appeal is immediate and her audience is held as by a magic spell from the rise of the curtain until the close of the play.

Miss Anglin's company includes Fred Eric as the husband, Nedra Harrison as the girl, and Walter Connolly, Langdon Bruce, R. G. Kommet, Harry Spalding, Marion Barney, Sally Williams and a number of others.

"The Woman of Bronze" has scored one of the season's successes and it will be numbered among the plays that last, and comes to Medford from a record run at the Columbia theatre, San Francisco, playing no other cities en route.

Mail orders are now being received and the box office sale begins April 24.

EAGLE POINT EAGLETS

By A. C. Howlett.

J. P. Gorin, our agate man, has been turning his hand toward making some improvements around the Sunny Side hotel in the line of fencing. He has removed the old dilapidated wire fence and put in its place a neat picket fence, beside making some other much-needed improvements in the carpenter line.

J. Henry French and wife were in town and reported that they have installed a water system so that now they have water running in the kitchen and will soon have a hot water tank so as to do away with the old and inconvenient way of doing business, and have hot and cold water in the house, so as to lighten the work of caring for the milk cans, cream separator, etc. A family who has a few cows and hens and will strictly attend to business soon reach the point in life where it can have the modern conveniences and sail through life, if not on flowery beds of ease, can greatly improve on the old system.

John Rader, one of our leading farmers and stockmen, was among the early callers Thursday morning and so was Charles Cincade, another of our stockmen.

Mr. J. Wattenburg and his daughter, who are living on the Joe Rader place, were also callers Thursday morning.

Mrs. William Brown gave me the following news item Thursday for the Eaglets: There will be a clothes fitting and clothes repairing meeting at the Red Cross rooms over George Brown & Son's store on next Friday and Saturday, April 16 and 17, and a general invitation is extended, especially to the ladies and girls in their "teens," to come and receive instruction free and learn how to cut, fit, and make their own clothes and to economize in the line of wearing apparel. Miss Pool, our county demonstrator and Miss Beles, a trained lecturer from the O. A. C., will be there to render all the assistance they can. All the ladies in this section of the county are cordially invited to attend, and in addition to receiving instruction in that line of housekeeping, have a royal good time in a social way.

J. L. Hovey, the present superintendent of the Alivista orchard, was in town Thursday shaking hands with his old-time friends.

Mr. Getzon, one of the Medford veterinarians, was out Thursday to doctor a fine cow for William Perry, but he did not reach here in time and as a result, she died, quite a loss to Mr. Perry.

W. E. Hensley of Wollen was a business caller Thursday.

Corbin Edgell was a passenger on the Lewis jitney for Medford Thursday.

Mr. C. C. Carter of Seattle, a cousin of William C. Daley, was also a passenger on the Lewis jitney. They had not met before for several years, and Mr. Carter accidentally heard of his being here, as he recently bought the George von der Hellen property just above town, and came out and met him here.

The management of the forest reserve men have been making some changes in the arrangement of the men, as two of them, who have been stopping here, have been called over to Klamath county, Mr. George West and John D. Holst, and Mr. Fred Matz has come to assist the other two, Mr. Andrew Pool, and Wm. Jones, in finishing up the telephone line connecting Trail with Butte Falls and Medford line. They expect to commence the line completed by Monday or Tuesday.

Floyd Pierce, who had one of his legs badly crushed several years ago in a runaway, and had it patched up by the doctors of Jacksonville at that time, has been to Portland and had it overhauled and the bones re-

set, came home last Tuesday and has bright hopes of regaining the use of his leg again, and his many friends here are rejoicing with him and his family over the successful operation.

W. L. Childreth, our blacksmith, and auto specialist, met with an accident the other day. He was trimming one of his fruit trees and in trying to get out of the tree his foot struck between two limbs and he had already let loose of the tree with one hand, so in trying to extract himself, he wrenched his knee and ankle so that he has had his shop closed since Wednesday, but he thought that he would be able to resume business by the first of the week.

Mr. and Mrs. Sam Courtney came in Thursday afternoon and Mrs. Courtney is staying here assisting with the work in the Sunny Side for a few days.

Among the callers for dinner Friday beside the regular boarders, were Dr. J. L. Helms, veterinary of Medford Horse Hospital; Wm. Meyer, Albert Peters, Fred and Ralph Stanley, Clifford Hansen, and Charles Laven. The Stanley boys had sold a lot of mules and horses to Dr. Helms and he was out to receive them.

Later in the day John Foster, S. Peranks and J. P. True called on their way to the Fish Lake ranch. They had been up the creek working on a flume to bring the water across the south fork of Little Butte creek on the Fish Lake ditch and had completed the job and were on their way to headquarters.

Herb Carlton of Prospect was here in town Friday.

Mr. and Mrs. Campbell of northwest Washington came in Friday evening, and are still here at this writing, Saturday evening. They are interested in the agate business.

Mrs. Steoford and baby of Brownsboro, who went to Medford last Tuesday, returned this Saturday morning and went up home on the stage.

Mr. Guy E. Gane of Grants Pass, who has been up in the Lake Creek country looking after his farm, the Daniels place, came out today, took dinner at the Sunnyside and went to Medford this afternoon.

W. H. Buskirk of Portland, who stopped here last fall on his way to Los Angeles, came in today noon and this afternoon went out to hunt agates, and I should have said that Mr. and Mrs. Campbell are putting in their time hunting agates.

Friday evening the following members of the Butte Falls basket ball team called for supper: Miss Foley, Norma Stewart, Nora Williams, Ellen O'Brien, Alta Stewart, Ernestine Fredenberg, Sam Hodges, Milton Hammervy, Lawrence O'Brien, Theodore Fredenburg, Orby Abbott, Ernest Albert, Eston Allstrom, Prof. H. P. Jennett and Glen Albert. They were on their way out to Central Point to play basket ball against the Central Point team. It will be remembered that a short time ago the Butte Falls team went out and done up the Central Point team good and hard and this time they were going to finish the job, but the score turned and the score stood 22 to 5 in favor of Central Point. But they had a very fine time, large crowd and the Butte Falls team took their defeat heroically.

Sunday morning was one of those lovely mornings such as is seldom seen except in southern Oregon, where people who have been living up in the northern part of the state and Washington, Idaho and Montana are entirely unacquainted with such weather, but when they come here, can fully appreciate such a day. For instance we had Mr. and Mrs. H. E. Campbell of Furnville of northwestern Washington, and W. H. Buskirk of Portland, and they could hardly realize that it was the 11th day of April, but so it was.

When the church bell rang for Sunday school we found not only the regular attendants, but also quite a few additional who came to enjoy the Sunday school exercises. On my way to the church I noticed quite a number of autos whizzing along the highway headed for the different camping places for picnicing and by the time I reached home the guests began to arrive for dinner. Among the first to arrive were Mr. and Mrs. G. B. Satchwell, Miss Wilson, Richard Pierce and Mr. and Mrs. Stieckel of Medford. Then came Judge Tom Velle and wife, and Gus the Tailor and wife, L. V. Luse and wife, E. G. Trowbridge, Mrs. H. E. Boyden, Miss Florence Trowbridge and Albert Tarrow, Mr. and Mrs. J. W. Wakefield, Mrs. W. B. Silliman and Viola Silliman, Mr. and Mrs. T. B. Silliman, Howard Silliman, Vivian Brown, Charles Wakefield, Hester Wakefield Mr. and Mrs. E. M. Wakefield, Effie Taylor, Olive Bessett, Mr. and Mrs. Joe Rader, Grace B. Dye, W. S. Sumner, the manager of Potter Palmer business at Table Rock, D. P. Wood, Mrs. D. P. Wood, A. B. Clayton and wife of Portland, Mr. and Mrs. Kahlstrom, Mr. and Mrs. Gammill, Mr. Bloom, Mr. and Mrs. C. B. McKeenolds and daughter, Miss Eva. Miss Eva came out to celebrate her tenth birthday with her parents at the Sunnyside. Mr. and Mrs. H. E. Campbell of Furnville, Wash., making just fifty transient guests besides seven of the regular eaters.

Sunday morning Andrew Pool and Fred A. Matz, W. H. Buskirk and J. P. Gorin, our agate men, took their lunches with them and went out to look for agates, remaining most of the day and when they came in had quite an assortment of stones of different varieties and some of them were seemingly very good.

Fred R. Neil went up in the Trail creek country Sunday. Wallace Bergsman and family were visiting Mrs. N. E. Watkins

Sunday, and Mrs. Knaps who lives on the old Harbaugh farm, and the Misses Reed were visit the family of John Norris, the foreman on the J. M. Wilfley orchard, Sunday.

Mr. and Mrs. O. J. Ellis and Hugh Darice of Ashland spent Sunday night at the Sunnyside on their way up to visit W. S. Baker who has a homestead on the Derby road.

There was an election held in the Climax district last Saturday to vote on the herd law to decide whether stock should run at large or not, and the result was that those who favored the enforcement of the herd law won out by a majority of ten, and now after sixty days there will be no stock allowed to run at large at all, thus requiring all the cattle men who have been using that range for the last fifty years to either herd them off of the entered land or take them away to other ranges, and where cattle have been raised on a range it will be very hard to hold them in certain bounds and about all that the land is fit for is for range purposes. But I understand that the few settlers who live in that section are interested in sheep and goats and they have to herd them and now they will have a complete monopoly of the range.

When the Perist mail truck went out the driver, Mr. Adamson, had a large bundle of long cane rods cut off at the small end, and on inquiry as to the purpose of such rods Mr. Adamson said that they were for Mr. P. F. Johnson of Trail and that they were to be used in making "fruit thinners". Mr. Johnson has invented and patented a contrivance for thinning fruit. Standing on the ground with these light poles and a cutting machine on the end a man can reach to any part of the tree and thin the surplus fruit without the risk of falling from a ladder and eliminating the work of carrying a ladder around in the loose and often sticky ground.

Prof. H. P. Jewett of Butte Falls, came out on the stage Monday morning and so did Miss Nydah Neil. She came out from Medford to visit her parents, Mr. and Mrs. Frank R. Neil of Derby, and Jack Tungate was also a passenger on the Butte Falls stage.

S. L. Stewart of Salem, a traveling man who keeps his business to himself, came in Monday morning and spent the night with us, going to Butte Falls on the stage Tuesday morning.

Other diners at the Sunnyside Monday were Geo. Cattrell and R. M. Conley of Butte Falls, Mr. Conley having bought the John Higinboth-

am place and Mr. Cottrell has bought the Jack sawmill on Clark creek. T. E. and H. E. Edler were also here for dinner Monday. Mr. and Mrs. Irvin Daley of Lake creek, were also in town Monday on their way home. They had been out to Medford and rented a house and were going home to move out.

I see that the Independence Creamery company have a new truck and have made a change in the name of the company. The truck bears the name of the Eldridge Dairy Produce company.

Ed Cowden and family and Fred Pettigrew were in town Monday.

T. W. Sanford of Ashland, came in and spent Monday night at the Sunnyside, and Tuesday he and Fred R. Neil, also of Ashland, spent part of the day trying to catch some fish out of Rogue river, but failed owing to the water being so muddy, they said.

There were two strangers came in Tuesday for dinner, but I failed to learn their names.

Thomas F. Nichols, wife and half sister, Miss Naoma Smith, were among the shoppers Tuesday.

George Hollenbeck, the man mentioned some two weeks ago who was here having his hand treated by Dr. Holt for blood poison and was taken to the hospital in Medford, returned Monday and while Dr. Holt was here Tuesday to dress his hand he reported that the stork had visited the home of W. L. Merritt, on the H. Watkins place and the result was a fine daughter was added to the family on last Sunday.

Today, Wednesday, is one of those showery days and the result is there seems to be no one coming to town as the roads are too slippery for cars and too muddy for horses.

Do Not Get Careless With Your Blood Supply

Impurities Invite Disease. The great vegetable blood medicine, will revitalize your blood and give you new strength and a healthy, vigorous vitality. Everyone needs it just now to keep the system in perfect condition. Go to your drug store and get a bottle today, and if you need any medical advice, you can obtain it without cost by writing to Medical Director, Swift Specific Co., 109 Swift Laboratory, Atlanta, Ga.

You should pay particular heed to any indication that your blood supply is becoming sluggish, or that there is a lessening in its strength and vital force.

By keeping your blood purified, your system more easily wards off disease that is ever present, waiting to attack wherever there is an opening. A few bottles of S. S. S.,

Every Purchaser of the J. B. L. Cascade

Just where and how is the money to be spent?

1 FOR THE CHURCH'S WORK AT HOME. A score of items come under this head. Consider only one. Five and a half million people in the United States cannot even read and write the English language. Who is to carry forward this vast work of Americanization if the Church does not?

2 FOR HOSPITALS AND HOMES. Every year thousands of men and women seriously ill are turned away from Church hospitals because of lack of room. The children's homes are compelled to turn away more children than they can receive.

3 FOR RELIGIOUS TRAINING. At least 12,000,000 children and young people under 25 years of age are entering American life without any religious training at all. Remembering the faith of Washington and Lincoln, do you think that America will continue to produce Washingtons and Lincolns if Faith dies out of the hearts of its youth?

4 FOR HIGHER EDUCATION. Of the 450,000 American students in institutions of higher grade, one-half are in institutions founded and supported by the Churches. Many of these institutions have had no great endowment campaigns, but their needs are as just as pressing as the needs of larger schools; and you have only to read their list of alumni and alumnae to measure the value of their contribution to America.

5 FOR THE CHURCH'S WORK ABROAD. Influenza came first from the Orient thirty years ago; nearly all plagues are Oriental plagues. So long as China has only one physician to every 400,000 people the Orient will continue to be a menace. So long as one-third of the babies of India die before their second year our own babies are not safe. A Christian doctor or teacher sent abroad is working for America as truly as though he worked at home.

6 PREACHERS' SALARIES. The preacher is called the "Forgotten Man," and well he may be. Eight out of ten preachers are paid less than \$20 a week!

A businesslike Answer to a businesslike Question

THIRTY denominations cooperating in the Interchurch World Movement have budgeted their needs. No business could have done it more scientifically.

They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

Each denomination has arranged its needs under six main heads as shown at the left.

Each denomination has its own detailed budget, and will administer its own funds. Your pastor has copies of the budget; examine them for yourself. In the week of April 25th-May 2nd you will be given your opportunity to help. You can do it with the full satisfaction of knowing that every dollar of your gift has its post of service assigned to it in advance.

Every dollar for a better America and a better world.

When your church calls on you, give—and give from your heart as well as from your pocket-book
