

A Charming School Girl Costume

A middy blouse and skirt or middy dress for the active young school girl is just about the most sensible and attractive costume she could select.

We carry the well-known PAUL JONES MIDDIES

because they give the utmost satisfaction — long wear, fast colors, cut, trimmed and finished as fine as a tailored garment.

In twills, galaters—trimmed in red or blue, with silk embroidered emblems. Collars tape trimmed; cuffs close fitting. For girls from 4 to 22 years.

Middies..... \$2.50 to \$5.50

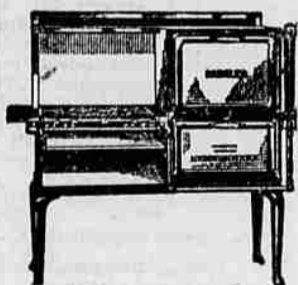

BUSINESS MEN CARRY CHECK BOOKS

SELDOM do you find a business man nowadays who carries more than current change in his pocket. When the need arises for an expenditure or transaction, out comes his check book and the matter is easily done.

That's a safety-first precaution and YOU TOO should have one of those "nationalized" Checking Accounts at the First National.

The FIRST NATIONAL BANK MEDFORD OREGON

The Lorain Oven Heat Regulator

Fits on Gas Range and measures and controls the heat. No more guessing at the temperature for cooking and baking. You select the temperature you want. Set the wheel and your heat will stay at that exact point—no more, no less.

Come in and let us explain this device to you.

Oregon Gas and Electric Co. Medford, Ore.

HOUSEWIVES

Who aim at greater perfection in cooking should use

VILMO FLOUR

We deal in all kinds of feeds and grains and can give you prices that will please you

Rogue Valley Milling Co.

C. OF COMMERCE DELEGATE TO SEATTLE MINING CONVENTION MAKES HIS REPORT

To the Medford Chamber of Commerce, Medford, Oregon, Gentlemen: I had hoped to be able to render a report in person upon the meeting of the International Mining Convention recently held in Seattle, and which I attended as a delegate from your body, but, owing to the pressure of business, I was obliged to forego that pleasure.

The convention from first to last was a decisive success and inspirational in no small degree to any one interested in mining, and, in fact, to all residents of communities which are in any way benefitted by the mining industry.

A view of the proceedings would be superfluous at this time, following the detailed press reports, so I will merely call attention to the few points most nearly concerning this section.

First: The resolutions committee (upon which I had the pleasure of serving, together with Mr. G. S. Stowell of this city) presented a strong resolution to congress in favor of a more liberal interpretation of the war minerals relief act, and a review of the existing settlements thereunder.

Secondly: A strong resolution in favor of the passage of the McFadden bill, now before the house, which provides for the relief of the gold mining industry by placing an excise tax upon all gold consumed in the arts, as jewelry, dentistry, etc. This tax of \$10 per ounce to be levied upon all consumers of gold as a commodity and the money so collected to be paid to the gold miner as an additional \$10 per ounce for what gold he can produce. This would give the miner \$30.67 per ounce, and without relief, the gold mining industry of these Western States will be a thing of the past within a very short time.

This bill is so drafted as to in no wise interfere with the purchase by the government for coinage purposes,

still at \$20.67; nor unsettle in any way the nations credits which are founded on gold at \$20.67.

A resolution has been passed at the national convention of the manufacturing jewelers stating that they are willing to pay the additional \$10 per ounce, as in fact, they are well able to do, because they are receiving about \$145.00 per ounce for their products.

During 1919 the jewelers of the United States consumed about 20 millions of dollars more gold than this country produced in that year.

There was some notable speaking upon this subject and the resolution was unanimously passed.

Mr. Milnor Roberts, dean of the University of Washington, read an exceedingly interesting paper upon the production of steel on the Pacific coast, which is regarded by those best in the world to know, as a certainty of the not very distant future.

The convention was very well attended by delegates from Alaska, British Columbia, Washington, Idaho and by a small representation from Oregon.

The next convention will be held in Portland in 1921, due very largely to the efforts of Mr. Henry M. Parks, director of the Oregon Bureau of Mines, seconded by such assistance as I was enabled to render upon the committee appointed therefore, and I sincerely hope that at that time Southern Oregon may be well represented by many delegates and by an impressive exhibit of ores, which we can so easily provide.

I wish to express my thanks to your body for having permitted me to attend as your delegate and again to urge a keen interest in the convention in Portland next year.

Respectfully Yours,
WALTER B. ROBINSON,
Blue Ledge, Copper, Calif.

SEATTLE MAN WAS CONFINED TO BED FOR SIX MONTHS

"I was in bed for six long months with stomach trouble and rheumatism and Tanlac alone deserves the credit for my recovery," said George Gregoire, popular longshoreman, of 2718 3rd avenue, Seattle, Wash. "I have gained twenty pounds and feel like I was never sick a day in my life," he continued.

"My trouble started a year ago. My appetite left me and what I forced myself to eat would cause a severe pain in my stomach and shortness of breath. Meats were almost like poison to my system; I got as weak as a kitten and the rheumatism laid hold of me so bad I could hardly drag myself about. My kidneys seemed to give way, too, and my back hurt so I couldn't stoop over. My head ached like it would split and I would get so dizzy I had to hold to something to keep from falling. I lost sleep and weight and was completely down and out."

"Tanlac helped me so much that I was out of bed in three weeks and now I am like a different man. All my troubles are entirely gone. I am back at work every day and do my work so easily I surprise the men who work with me. I never felt better in my life and I give Tanlac all the credit for my splendid health."

Tanlac is sold in Medford at West Side Pharmacy and by leading druggists in every town. Adv.

FORUM LEADERS C. OF COMMERCE ARE APPOINTED

The open membership forum meeting of the Chamber of Commerce at the Hotel Medford yesterday was most successful. V. H. Vawter, vice-president of the chamber, announced the selection of forum leaders: W. Gaston Domergue, chairman and the four vice-chairmen W. E. Crews, Gain Robinson, John C. Mann and David H. Rosenberg.

There were forty members present and among the guests were L. D. Lindsley of Eureka, Calif., and who has just come to Medford to reside; W. A. Goetz, a lumberman from Portland, Wm. H. Brooks, Lt. Col. U. S. A., of Washington, D. C., and G. W. S. Stevens, Lt. Col., U. S. A., headquarters at Portland.

The forum adopted two recommendations to the board of directors. First: That it is recommended to the board of directors, that some action be taken for the establishment of an automobile camp ground for tourists.

Second: That a committee be appointed to investigate road possibilities from Medford to the Dead Indian Soda Springs.

Col. Stevens made a short address upon army recruiting conditions and Col. Brooks went into details as to the American army, its past, present and future. He stated, that hereafter men taken into the service will take more out of it than they put in and that it will qualify the men to secure employment in vocational lines such as they received trained knowledge of while in the service. Col. Brooks deplored the reputation which the soldier has and which he believed was due to the faults of the people of this country in not taking the soldier into their confidence and showing them courtesies of which they were deserving. Heretofore, enlisted men from the east were sent in the army camps of the west, while the men from the west were sent east. This arrangement is now being remedied by placing enlisted men in encampments nearest their home. By so doing, they are able to keep in touch with their relatives and friends as well as possibly going to their regular church, the same as if they were not in the service. The big feature of the new army, as Col. Brooks stated, was the training the soldier gets to place him in position, upon discharge, to enter into employment of a better class than when he entered the service.

The next meeting place of the forum will not be announced until after a meeting of the forum chairmen. There is no doubt but what one hotel will be selected for the luncheons for the period of a month and another place for the following month. The members need not then make any extra effort to find out at which hotel the dinner is to be held. They need only know once in a month where it will be, instead of trying to keep tab on the place four times during the same period.

The forum will again be held next Wednesday. Watch Monday or Tuesday's papers for the subject to be taken up and as to where it will be held.

W. E. B. WEBB NEW PRESIDENT LOCAL POULTRY FANCIERS

A special meeting of the Southern Oregon Poultry association was held at the public library, Saturday April 24, for the purpose of electing a new president to succeed Henry W. Frame, resigned. W. E. B. Webb was chosen unanimously and Mr. Frame's resignation accepted with regret.

Other business of note at the meeting was a change in the name of the association. This was done in recognition of the growing importance of the rabbit breeders interests. As a result the word "rabbit" will be inserted in the name and the association will be known as Southern Oregon Poultry and Rabbit association.

Also a picnic is to be held this summer at Ashland creek canyon during chautauqua week, at which the rabbit breeders will celebrate their advent. Of course, a chicken dinner and rabbit sandwiches will be in order. All poultry and rabbit men, their wives and sweethearts are cordially invited. The date will be announced later.

AFTER GRIP WINTER COLDS—BAD BLOOD

You are pale, thin, weak—with little vitality. Your liver is sluggish and the bad blood causes your stomach muscles to lose their elasticity and become flabby and weak—then indigestion.

Dr. Pierce's Golden Medical Discovery, made from wild roots and barks, and free from alcohol or narcotics, is the great and powerful blood purifier of to-day. Ingredients printed on wrapper. This tonic, in liquid or tablet form, is just what you need to give you vim, vigor and vitality.

Take the "Discovery" as directed and it will search out impure and poisonous matter throughout the system and eliminate it through the natural channels.

You can procure a trial package of the tablets by sending 10c. to the Invalids' Hotel, Buffalo, N. Y.

SANDLAKE, OREGON.—I want to write a statement telling what Dr. Pierce's medicine has done for me. I was bothered with an ulcer for a year. I went to a doctor here but his medicine did me no good. The sore got worse right along, so I tried another doctor and his medicine did me good for a while, then the sore seemed to be getting worse, so I tried Dr. Pierce's medicine. I took two and a half bottles of Dr. Pierce's Golden Medical Discovery and used Dr. Pierce's All-Healing Salve and the ulcer was all well before I had the medicine all used, and I recommend these medicines to other sufferers.—MRS. BERTHA WEBB.

The Secret of a Superlative Tire

The whole question of a super-tire is a matter of principles. For there is nothing exclusive in the industry. No patents, no secret formulas prevent a conscientious maker from building the best.

But cost and competition modify ideals. The Brunswick idea is to pay perfection's price and get it.

That has been the Brunswick policy since 1845. And it accounts for the growing preference for Brunswick Tires. Motorists expect the utmost from a tire bearing the name of Brunswick—and get it.

You, too, will be convinced by your first Brunswick, that here is an extraordinary tire, and that more money cannot buy a better.

Better tires of their type are impossible—or better tubes. That we guarantee.
