

Local Briefs

Early last evening local weather conditions were such as to lead Frost Expert Young and County Assent Cate to deem it wise to give out warning to the orchardists of a possible killing frost of about 27 degrees but fortunately about 10 p. m. there was a lack of wind and clouds settled over the valley which remained all night. This morning's official weather bureau prediction forecasts fair weather for tonight and Sunday, but again local conditions by night may indicate a possible frost. The minimum temperature of last night and this morning was 40 degrees.

Confirming the diagnet of the Medford Elks over Thursday night's boxing exhibition fiasco at Grants Pass the Courier of that city says: "The fights of last night mean, probably, the abandoning of the fight game here. The house was packed with fans from all over the southern part of the state. To say that the majority were disgusted would be putting it mildly. The legion management paid large amounts for the fighters and had a right to believe the fighters would give what they were paid for. There is nothing that will give a black eye to the fighting game quicker than an exhibition such as that of last night."
