"AD" RATES MUST BE INCREASED TO SAVE NEWSPAPERS

WASHINGTON, May 3.—Look of satisfactory understanding between the publishers and print paper manufacturers was held to be responsible in part for the present paper shortage by Paul Patterson, one of the publishers of the Baltimore Sun, in testimony before the senate manufacturers subcommittee investigating the paper situation. He explained that while there would be no increased production this year, production in 1921 would be 300,000 tons over that for 1920.

Present shortages, the witness told the committee, resulted from increased consumption beyond the capacity of the paper mills. Saying that increased prices for paper were necessary about three years ago, he asserted that the producers failed to take the publishers into their confidence at that time with the result that an agitation was started against increased prices and for public control of the paper industry. Also the manufacturers, he said, failed to expand their plants due to the lack of understanding between them and the publishers.

As a result of this situation, Mr. Patterson said, when the publishers came to renew their paper contracts this year, insufficient paper to meet demands was discovered so that they entered 1920 with a "shortage of paper on every hand."

Mr. Patterson expressed the belief that curtailment in the use of paper, which he said was being observed by the newspapers, would result in "a marked effect on the market by fall." "But nothing effective can be accomplished until there is a definite curtailment in the amount of advertisements," he said, "and the only way that can be done is to increase advertising rates—not for the purpose of increasing revenues, but to hold down the amount of advertising."

MEDFORD BOOK STORE'S Fancy Stationery Sale

Wednesday to Saturday, May 5, 6, 7, 8

We have always adhered to the policy of marking our goods at a figure giving a fair margin, never cutting prices or having sales. Now we are going to try a new idea. We know the quantity of stationery used in the locality and if we can get a large percentage of the business we can get quantity prices which will enable us to sell at special sales and bunch the business in a few days, sell very much lower than heretofore and lower than any one else can touch.

LEAVE IT TO THE WOMEN —this sale will prove we are right. There is hardly an item listed below which put on the shelves and sold in the regular way would not be very reasonable at twice the price. Leave it to the women to know whether this is true or not.

ALL NEW STOCK—JUST RECEIVED This is not a sale of old stock. Never been on the shelves, just received and cannot be re-bought for the same prices.

BOX PAPERS LYRIC LINEN—White and colors, regular 50c. Sale price 29c. HIGHLAND LINEN—Different shapes and cuts of envelopes, white and colors. Every one knows Highland Linen—now selling 60c and 70c.
