

GIANT EXPLOSIVES IMPORTANT FACTOR IN HIGHWAY WORK

Construction of the Pacific highway is progressing rapidly and on portions of the work no delay is tolerated which means supplies and material has to be rushed in with all possible speed.

This is particularly so of work in progress in Jackson county near Soda Springs where, in conjunction with steam shovels, an immense yardage of rock and soil is being removed with Giant explosives.

Dynamic for this work is being drawn from magazine installed last year near Jacksonville which has a carload capacity; and the convenience has been strongly felt.

The convenient situation of the magazine has also been taken advantage of by the irrigation project near Talent which has used considerable Giant explosives in their work, drawing from Jacksonville as the explosives were required.

Another phase of activities in which explosives is playing a great part is mining and agricultural work. Production in mining has to be kept up which means explosives and supplies have to be furnished promptly. This is true of agricultural work also. Every available acre of land has to be cleared, stubborn hardpan blasted in order to insure the maximum of production. Thus Jackson county was selected as the ideal county to serve as an explosives distributing center.

SALTS IN HOT WATER CLEARS PIMPLY SKIN

Says we must make kidneys clear the blood and pimples disappear.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate.

It is to get from any pharmacy about four ounces of Jad Salts and take a tablespoon in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.
