If You Could Only Look AHEAD As Well As You Can Look BACK.

POST MORTEMS over extravagant expenditures or losing investments are so easy that they do not often enough serve as examples of what NOT TO DO in the future. Some day it is more than probable that you will look back and say: "Why didn't I follow the advice of the First National Bank and build up a big bank account when earnings came easy."

Kill the Weeds Without Pruning Plant Roots

That's the kind of cultivation you can do with the disc cultivator we now have in stock. It is a cultivator made especially for shallow or surface cultivation. Besides killing the weeds without injuring the growing crop, this John Deere Disc Cultivator forms a dust mulch that readily absorbs and retains moisture.

We want you to try the foot dodge of this cultivator. Come in, get in the seat and see how easy it is to dodge. The bails pivoted to the arch and the extra long draw-bars make dodging easy, at the same time thorough work is being accomplished.

Notice how easy it is to set the gangs close to or away from the rows—merely turn a nut—how easy to angle and tip the gangs by means of the levers, and to reverse the gangs to in-throw or out-throw.

You will be pleased with the way the extra long flexible pressure and cushion springs cause this cultivator to penetrate the desired depth in either hard or soft soil, and relieve machine of jar and jolt when transported.

The best way to decide just what this cultivator will do for you is to come in and see it and ask us to explain it to you. We will be glad to show it to you.

JACKSON COUNTY FINANCES ARE IN GOOD CONDITION

E. M. Wilson who has been auditing the records of Jackson county filed his report Tuesday, May 5. Mr. Wilson says that from the clean records presented under the voluminous transactions in all departments, tax payers of the county may be assured that county affairs are being economically and ably administered by the present county officials.

A summary of the most important information brought in the report will be of genuine interest to the public.

Resources are given as:

Cash and securities		$348,448.28
Taxes collectable, excluding tax sales		144,300.00
County Property:		
Real estate and improvements	$112,500	
Furniture and fixtures	12,800	
Road equipment	28,000	
		153,300.00
Total		$646,048.28
Liabilities are:		
Pacific Highway bonds		$500,000.00
Warrants, old issue	$137,716.00	
Interest accrued	50,000.00	
Other warrants	56,395.77	
		244,111.77
Liability funds:		
Irrigation districts	$30,569.85	
Cities	15,306.53	
Schools	49,38.39	
Pacific Highway bond interest	10,616.79	
Special trust fund	2,774.13	
Excess collections of personal property tax	1,507.37	
		110,158.06
Total		$854,269.83

Revenues received by the treasurer total $1,068,027.65 and disbursements were $1,111,436.28. Cash balances average $375,000 ranging from $225,000 to as high as $504,000 in banks. The tax collections of the sheriff were $756,616 and of the assessor $10,950. Fees of the sheriff total $2542 and the collections in the clerks office reached the sum of $12,000. Justices of the peace settled fines and fees in the sum of $3,761.20. Various tabulations convey much detailed information relative to the several departments of the county government.

The reduction of outstanding warrants during the last six years has been about $360,000. A tax of two mills levied, and now being collected, for the redemption of warrants will reduce this indebtedness about $100,000 this year, leaving only a small amount remaining which the county commissioners hope to soon have wiped off the slate.

A few unimportant clerical errors are noted in the report and the condition of the records of all offices is favorably reported.

The progress of the county of late years, and the natural increase in county requirements has rendered the present facilities inadequate to conveniently take care of the business of the county and to properly protect the records and relieve congestion in some of the offices.

The Screen

WARWICK FILM, "TREE OF KNOWLEDGE" AT LIBERTY

The new Robert Warwick picture, "The Tree of Knowledge," which is coming to the Liberty theatre for two days, commencing tomorrow is declared to have that rare combination of highly dramatic and entertaining story, talented star and fine supporting cast, and expert director that results in the really unusual photoplay.

The mention of such players as Kathlyn Williams, Wanda Hawley, Tom Forman and Irving Cummings establishes the cast as far above the ordinary.

"The Tree of Knowledge" was adapted from an English stage drama by R. C. Carton, who also wrote "Lord and Lady Algy." It is an absorbing story of the pernicious influence of a female flirt and her final vanishing by one of her victims. There is a beautiful prelude in which Theodore Kosloff, the Russian dancer, and Yvonne Gardelle enact in pantomine the ancient legend of Adam and his fabled first wife, Lilith.

Gives Credit Through the Land

Backache, lame and stiff muscles and rheumatic pains are often symptoms of deranged kidneys, "I had weak bladder, bad kidneys and liver" writes Willie Carter, Luxar, Pa. "I could not sleep well and my back pained me awful... I had a dizzy feeling in the morning. Since taking Foley Kidney Pills I have been relieved of all such ailments." They rid the system of the poisonous acids that cause aches and pains. For sale by Medford Pharmacy. Adv.

CONDUCT CAMPAIGN JACKSON COUNTY FOR GOOD ROADS

At a meeting of the forum of the Chamber of Commerce last Wednesday noon at the Holland Hotel, there developed a strong feeling that an intensive campaign was necessary to carry the five hundred dollar county road bond measure to be voted upon at the election May 21. In that the state four per cent bond limitation act interlocks with the county bonding proposition, the same was also included into the program of the campaign as was the higher educational bill, so necessary for the education of the young manhood and womanhood of our great state.

Mr. Weslie Brown led the discussion on road matters and gave a clear statement of what it meant to Jackson county to have either of the measures fail of adoption by the voters. Mr. Rawles Moore, Benj. C. Sheldon, F. W. Mears and H. L. Walther all spoke in favor of making an educational campaign to carry the road measures. Mr. V. H. Vawter called attention to the importance of the higher educational bill and his suggestion to include the same in the campaign was unanimously concurred in.

As a result of the forum's action, it is recommended to the board of directors that a campaign committee of three members be appointed, who are empowered to select assistants from the ranks of the Chamber of Commerce to conduct a thorough campaign for the adoption of the road bond measures of the county and state and the higher educational bill.

This committee will call upon a great many members of the chamber to assist in this campaign as there will be four minute men, speakers for rural districts, men appointed to take care of publicity, in the newspapers as well as getting out windshield signs and literature giving facts and figures.

The time between now and election will not permit any delay, so that when members of the Chamber of Commerce are called upon to assist in this campaign, they should make every effort to attend the meetings which are to be called so there will be no delay, as every day counts in reaching the voters of the county before election.

About fifty members attended the forum yesterday. All during the month of May, they will be held at the Holland Cafe on each Wednesday noon. Next month, they will all be held at the Medford Hotel. Next week, C. E. Gates will lead the discussion on the value of a modern automobile camp ground to the community in which it is located. Mr. David H. Rosenberg will be the chairman of the day.

Two visitors attend the forum on Wednesday, Mr. James H. Childs of Los Angeles of the American City Bureau, who was in the city connected with the Oregon State Chamber of Commerce campaign and Mr. C. S. Harriman of Detroit, a traveling salesman, who was a guest of Mr. Gain Robinson.

"Gosh! How my back aches!"

After Grip, "flu" or colds, the kidneys and bladder are often affected—called nephritis, or inflammation of kidneys.

This is the red flag of danger—better be wise and check the further inroads of kidney disease by obtaining that wonderful discovery of Dr. Pierce's, known as Anuric (anti-uric-acid), because it expels the uric acid poison from the body and removes those pains, such as backache, rheumatism in muscles and joints.

Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists; or under the eyes in bag-like formations.

Dr. Pierce's Anuric is many times more potent than lithia and often eliminates uric acid as hot tea melts sugar.

MADERA, CAL.—"I recommend Dr. Pierce's Anuric very highly. I have suffered for the last three years with catarrh of the bladder, having tried every remedy I heard of but without relief. I saw Anuric advertised in the paper, and like a drowning man grabbing at a straw I thought I would try it also, which I did with great success, as it relieved me almost immediately, before I had taken all of the trial package, and having great confidence in the remedy I immediately sent to the drug store and bought a package. I can say to all suffering from any disease of the kidneys or uric acid troubles, try this remedy and suffer no longer. I have great faith in Doctor Pierce's remedies.—S. P. HENSLEY.
