The FRUIT GROWER says—
"for tree planting genuine GIANT is most satisfactory"

The Giant Farm Powders—Eureka Stumping and Giant Stumping—loosen and pulverize the soil instead of packing it and throwing it high in the air.

Western fruit growers have used hundreds of tons of these Giant Powders for blasting beds for trees. They have proved that blasting with genuine Giant Powders provides free drainage, increases moisture-storage capacity and insures vigorous growth and early bearing.

"My trees planted three years ago in beds blasted with Giant Powder are 75 to 100 per cent bigger and better than the trees that I planted in dug holes," writes H. H. Smith, Oregon City.

You will enjoy reading "Better Farming with Giant Farm Powders." It describes all the new and money-saving methods of blasting beds for trees, subsoiling established groves and orchards, clearing land, ditching, etc. Write for it now.

STATE CHAMBER OF COMMERCE DRIVE JACKSON COUNTY

The definite part Medford is to play in a state-wide campaign of the Oregon State Chamber of Commerce was outlined today by James M. Childs, representing the state chamber, who visited this city in connection with a survey of the state that is now being made. Mr. Childs discussed the campaign with a number of leading local men, including Mr. Ben C. Sheldon, Mr. George L. Triebler and Mr. Vernon H. Vawter, all of whom are interested in the plans of the state chamber.

Mr. Ben C. Sheldon was selected as chairman of the campaign executive committee which will co-operate with other cities in the state-wide movement. Associated with him will be George L. Triebler, vice-chairman; George T. Collins, Vernon Vawter and A. L. Hill.

The Oregon State Chamber of Commerce has undertaken plans to play a big part in the future development of the state of Oregon. Funds will be collected to finance advertising, pointing out the opportunities to be found in Oregon and to encourage land settlement; administration to promote irrigation; extension of railroads; refund on reclamation fund; extension of highways, both for commercial purposes and through national forests; co-operation with agricultural and lumbering interests and numerous other big projects, the development of which will be of incalculable value to Oregon.

Mr. Childs was assured by local leaders that Medford could be relied upon to do her share along with other communities of Oregon. Other representatives of the State Chamber of Commerce will visit here later and complete the organization work for the state-wide movement, which it is declared will benefit every section of Oregon.

EAGLE POINT EAGLETS

D. J. Flynn and wife of the People's Electric store, Medford, were here for dinner Saturday afternoon.

Poke Smith and wife, John Mayhem, John Foster and Wm. Jones, one of the P. S. men, were here and spent Saturday night at the Sunnyside, and Mrs. Sherman Wooley and children were here for breakfast.

Wm. A. Beale died at the home of Sherman Wooley, Sunday morning and the remains were taken to Medford the same morning by Mr. Perl, Medford undertaker, and burial took place Tuesday afternoon in the Central Point cemetery. The religious services were conducted by your Eagle Point correspondent. There has already been a notice of his death published in the Mail Tribune so will not add more. There was an error in stating his age, it should have been aged 50 years, one month. There was a large company attended the funeral.

Our Sunday school was unusually well attended as there were more in attendance than for several Sundays before.

By 11:30 a. m. Sunday morning the company began to collect at the Sunnyside and inquire as to the prospect for satisfying the appetite, and it kept your correspondent busy with his little book and pencil registering the names of the people as they came and I am quite certain that I missed some but I tried to treat them all alike, but many of them came and registered without my asking, as a very large majority of the people who come out from the towns and cities appear to like to see their names in the Medford Mail Tribune as well as to read the names of others who have been enjoying a ride out in the morning air and having dinner away from home.

Among the first names on my list are Mr. and Mrs. J. C. Mann and children, Mr. and Mrs. P. B. Harrison, Mr. and Mrs. J. B. Davis, Mrs. Kerr, J. W. Snyder and family, Ethel Agass and daughter Genevieve, Mr. and Mrs. R. P. Moran, J. E. Mr. and Mrs. Thom, solicitors were here for dinner Monday, and so was Ralph and Mrs. Roy Stanley, Clifford Hickson, Dr. J. L. Helms, veterinarian of Medford, and Henry Trusty of Elk creek.

When Bert Brown, one of the men who have been stopping with us while taking the machinery out of the ice plant went to look after his horse he found that they had broke loose and started for Port Jones, Calif., so starting on the trail he found them in the pound at Medford with a charge of \$4.40 against them. Paying the bill he returned just in time to help out on the last of the heavy machinery on the truck, breaking of the machinery. Messrs. Crawford and Brown finished up shipping it to Medford Monday to be taken to different points in California, a part for Dunsmuir and a part for Port Jones.

There is a deal on hand whereby one of our prominent citizens sells his farm to one of the Medfordites, but as I cannot get either of the parties on the phone will not give it out today, altho money has been paid down to secure the trade.

Fordson Farm Tractor

The Fordson cuts the cost of preparing land almost to half of what it costs with horses. But even more important is the fact that the Fordson saves from thirty to fifty per cent of the farmer's time. And time saved—getting fields in shape to plant in the proper season; getting things done when they should be done—means money to the farmer. Besides it solves the labor problem.

As ever, the machine way is proving more efficient, faster, easier, than the old hand way. In the factory, the machine cranks production, saves labor—produces more at less cost. And that is what the Fordson does on the farm. The Fordson way is the machine way of farming. Besides it solves the labor problem.

The Fordson's first cost is the lowest in the market; and the after or operating cost is lowest. It is a compact, easily handled tractor service organization in the United States.

We are Fordson dealers. Not only do we sell Fordson tractors, but we carry a stock of Fordson parts and employ Fordson mechanics to help the farmers get the best results from the Fordson.
