

ANOTHER NURSE PRAISES TANLAC FOR RECOVERY

Mrs. Alice Minnick, who has been a professional nurse for thirty-six years and resides at 1815 Twenty-third Ave., Seattle, Wash., adds her voice to the hundreds of others in this profession who have already endorsed Tanlac.

"Since I began taking Tanlac I have not only gained twenty pounds in weight, but for the first time in sixteen years I am free of pain and enjoying good health," stated Mrs. Minnick. "I generally had cramp-like gnawing pains in my stomach all these years, my appetite was extremely poor and the little I did eat caused me great distress. After every meal my food began to ferment and sour almost at once, I would bloat up with gas, and those terrible pains would get so bad I could hardly stand them. I became badly rundown, lost weight and strength, and felt so tired and worn out all the time I could hardly get around. I had pains in every part of my body just about all the time, but they were especially bad in the small of my back. I also suffered with severe headaches and dizzy spells, and my nerves were so badly upset I could get but little sleep, often lying awake all night long.

I had heard so much of the good Tanlac was doing others I decided to try it myself, and it proved to be the very thing I needed. I began to improve right away, it was only a few days before my appetite returned and I can now eat anything I want without having a particle of trouble afterwards. Those terrible gnawing pains that had troubled me so many years have entirely disappeared. I never have a head ache or become dizzy, and the pains that were throughout my body have all gone. In fact, my whole system has been built up by Tanlac. I have regained my strength so I can do my work as a nurse, which keeps me on my feet for hours, day and night, without a particle of trouble. Several of my patients have taken Tanlac, and it has proven beneficial in every case. After what Tanlac has done for me I can never say enough for it."

Tanlac is sold in Medford at West Side Pharmacy and by leading druggists in every town. Adv.

ASHLAND C. A. C. ASSIGNED TO CAMP LEWIS JULY 6-20

ASHLAND, May 10.—Back to old familiar scenes will be the experience of Ashland's First Company, Coast Artillery Corps, in the assignment to encampment service this summer at Camp Lewis, the noted military center in Washington near Tacoma, the date being from July 6 to 20 inclusive. Though the Ashland boys mainly served at Fort Stevens, many are acquainted with the Camp Lewis environment, this big army post having a reputation not on-wide, not only during the war period, but also since, inasmuch as the activities there have never yet been abandoned.

Big guns will be brought into play in connection with artillery practice, which will afford a new experience for the boys along technical lines, such as are described under the classification of "155 G. P. F. Motorized Artillery," as distinguished from fixed armament.

A recommendation has been made to the war department for the holding of a school of instruction for both officers and enlisted men, at the same encampment. This school, if held, will be preliminary to the encampment proper, from June 17 to 20, having been suggested as the period. It will afford prestige to both rank and file, its privileges being available to those of the men who have proved most regular in attendance upon and proficient in the performance of their military duties. Hence, those who enjoy its advantages will be selected from an eligible list embracing those men best qualified as a reward of merit, and it is expected that the opportunities this affords will act as an incentive to efficient service.

A splendid trip is in prospect for the local company, viewed both from the military and civic standpoints. Militarily the educational advantages will be of a high order, the stimulus to excel working for the good of the service, while the opportunity to mingle and compete with a large following of different branches of the military establishment cannot help but exert influence in behalf of proficiency and discipline. From a civic standpoint the outing will be a fine one. Many ex-service men will be in the ranks, and the reunion of the boys who participated in the late war, will prove to be a memorable social event, held under the most hospitable auspices which a beneficent government can bestow.

On Monday evening, May 10, medical examiners will be at the armory to pass upon the physical qualifications of new recruits, consequently all contemplating joining the ranks should be on hand in good season, and at least get an insight as to military qualifications and requirements before the encampment begins. In the meantime, Captain James Dusenbury, inspector-instructor of the Coast Artillery, has notified Captain W. M. Briggs of First Company that he will visit Ashland in the near future and perfect arrangements connected with the entraining of the local command for Camp Lewis, requisitioning a full complement of various supplies necessary for the complete equipment of the unit.

APPLEGATE WINS OLYMPIC CUP IN SCHOOL FIELD DAY

Ideal weather brought out a large crowd to witness the athletic contests of the Southern Oregon Athletic Association which held its sixth annual track and field meet at Talent, Friday, May 7. All towns of the association were represented except Butte Falls.

Out of a possible 607 points Applegate students won 194 1/2. Talent was second with 134 1/2, Central Point a close third with 123, Phoenix next with 80 points, Rogue River 56 1/2, Jacksonville 10 1/2, Gold Hill 9 points.

Talent had won the Olympic cup twice and would have gained permanent possession of it had she been able to have outstripped her rivals in this contest which was the sixth annual event of the association.

On similar occasions Applegate won the rural meets a number of times, and this year when a standard high school was established in that rural community and she became eligible to participate with the towns constituting the Southern Oregon Association, her youngsters went into the match to win. Her "B" classes of boys and girls of ages 13 and 14, also her "C" classes composed of students of ages 15 and up, were especially strong.

Red Top school district 10 near Medford won first place among the rural schools, having secured 38 points out of a total of 102. The other rural districts winning points and making a creditable showing follow in order of number of points won: Willow Springs dist. 14, Pine Grove dist. 62, Oak Grove dist. 69, Dead Indian dist. 54, Wimer dist. 62, Antioch dist. 48 and Wellen dist. 51.

KIRTLAND FARM PAYS HIGH PRICE SHORTHORN SALE

INDEPENDENCE, Iowa, May 10.—(Special)—Two thousand dollars was paid by J. K. Mason of Kirtland Farm, Central Point, Oregon, for the highest priced milking Shorthorn sold at Thomas Harrison's sale at Santa Rosa, Calif., May 5. Oakleigh Stock Farm, Medford, Oregon, took the next highest at \$1750. Six cattle sold for \$1000 or better. The average on the 42 cattle was \$592, the 37 females bringing \$590 average, and the five bulls bringing \$627 average. The cow purchased by Mr. Mason was Foothills Corporal, grand champion of the Pacific coast.

The cattle sold to 15 purchasers in California and Oregon, and one from Idaho and one from Ohio. C. H. Hinman, of Bonvue Farm, Golden, Colorado, represented the Milking Shorthorn Society, Independence, Iowa, at the sale, and reports that this first sale of Milking Shorthorns on the Pacific coast was a good sale at good values. Thomas Harrison was an employee of James J. Hill, founder of the Milking Shorthorn Society at his North Oaks Farm, near St. Paul, when Mr. Hill made his importation of Milking Shorthorns from England and later, before starting his herd at Santa Rosa was employed on the Jack London ranch in Sonoma county.

Oregon purchasers, in addition to Mr. Mason, whose purchase of lot 1 topped the sale, were: Oakleigh Stock Farm, Medford, that took lot 28 at \$1750, 44 at \$1000, lot 35 at \$800, and lot 51 at \$400; D. N. Lowe of Medford who bought lot 38 for \$425, and 42 at \$525; and Cunningham Brothers of Glendale, who bought lot 22 for \$725, lot 12 for \$525, lot 13 for \$450 and lot 25 for \$400.

The first Milking Shorthorns were taken to the Pacific coast by Robert Ashburner of Petaluma some forty years ago. There are now 12 breeders of Milking Shorthorns in California belonging to the Milking Shorthorn Society, and eight in Oregon.

With Medford trade is Medford made

NEXT PRESIDENT SHOULD BE A MAN OF WORLD VISION

There are four main factors which should rule in the presidential preference this year, said Rev. L. Myron Dooner at the Presbyterian church last night. First, our next president should be a man embodying the genius of America, second he should be a man with a world vision, a sectional or provincial man would be a calamity; third, he should be forward looking, a man not bound by precedent or tradition, a man greater than any party; and fourth, he should be a man with a truly Christian outlook, not necessarily a church man, but a man who grasps the fundamental principles of human brotherhood.

The speaker prefaced his remarks by declaring he had no intention of making a partisan appeal, or of naming any one candidate, but he felt it not only his privilege but his duty, to call attention to the seriousness of the present situation, and do everything in his power to influence people to vote wisely and with certain elemental requirements in mind.

A new world era has dawned, New forces have been released, America has become the hope of this world. Whether the future is to be a future of growth and higher human achievement, or whether it is to be a future of darkness and despair depend largely upon the type of man selected to guide this country during the next four years. The situation demands a leader who makes no appeal to class prejudice, or race prejudice, whose Americanism is something wider than the mere geographical boundaries of this land, and deeper than the shallow appeal contained in the phrase America for Americans. In a convincing and forceful fashion the speaker showed that the national problems are essentially spiritual problems, and the man who can solve them, must have the spiritual vision their solution demands.

IRRIGATION IS STARTED IN THE AGATE SECTION

AGATE, May 10.—The Canal Co., has turned the water in the ditches and if the dry weather continues those lucky enough to have water will soon be using it.

Those people who think that the farmer should get rich at the present high price of produce should bear in mind that the average farmer had to sell his potatoes, onions, etc., at about one-third of the price they are selling at now. Of all the different classes of people in the United States who are chasing the almighty dollar the farmers are getting less for their time and investment than any other class.

Lloyd and Arthur Timmons have a new Ford roadster.

Mr. and Mrs. C. J. McCay spent the first of the week visiting relatives near Prospect.

Five large trucks are hauling a combination of pumice and granite from the Table Rock district and placing it on the Agate road. It does not look like a very promising road material at present, but will probably be much better when the sprinkling and rolling is completed. Many have expressed doubts about this material being suitable for the heavy traffic this road has to bear.

The young grand-daughter of Mrs. Coffee who lives on the Huffman place, has been quite sick.

In view of the increasing price of tractors and their fuel it may not be very long until the horse will be more economical to work than the tractor.

A quick, though probably not advisable way to end the overall craze among those who can afford to buy better clothes, would be for those who have to wear overalls to carry a "billy club" with them and whenever they see some pin-head wearing overalls, \$10 silk shirt and a \$15 pair of shoes, just knock him on the head, not seriously hurt him, but just to put him out of his misery for a few hours. When he regained consciousness he might be able to see his folly, and repent.

The Screen

"Dangerous Days" at Rialto.

We have in Mary Roberts Rinehart's "Dangerous Days," which opened yesterday at the Rialto theatre a theme successfully created for the screen.

And the theme is a thoughtful one—not merely a story created to get picture effects. The author looked into and under our social, spiritual and economic life and tells what she saw.

The acting by an all-star cast is so sincere, the settings throughout are so sincere that you forget you are viewing a picture.

Realism is the keynote clear through. There is lavishness only where it is truly expressive of the millionaire's home entertainments. Dominant, always in the picture is its locale, the smoky, thunderous steel city.

All in all, this is truly one of the real picture creations of the present season and is well worth seeing during its engagement here.

USE EYES WHEN BUYING ASPIRIN

Take tablets without fear, if they are marked with the "Bayer Cross."

To get genuine "Bayer Tablets of Aspirin" you must look for the safety "Bayer Cross" on each package and on each tablet.

The "Bayer Cross" means true, world-famous Aspirin, prescribed by physicians for over eighteen years, and proved safe by millions for Colds, Headache, Earache, Toothache, Neuralgia, Lumbago, Neuritis, and for Pain in general. Proper and safe directions are in each unbroken "Bayer" package.

Handy tin boxes of 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

Hudson Fineness Equals Its Matchless Performance

Aside From the Supremacy of the Exclusive Super-Six Motor, Its Beauty Gives Distinction in Any Field of Fine Cars

Hudson has unremittingly kept the issue of performance to the fore. Not simply because its mastery is indisputable.

Rather because this question is vital above all. It must always be so. It must always be the measure of any car's title to worth.

Hence undue emphasis has never been placed on Hudson's four year's leadership in fine car sales. Largest sales are not infallibly proof of greatest merit. Hudson has no need to offer them as such.

Yet their importance cannot be overlooked. Here is the massed opinion of far the greatest number of owners of any fine car in the world. Some are driving the earliest Super-Sixes built—now more than four years old. Some acquired Hudsons but recently. But how, unaminously they hold no car can rival it.

What 90,000 Owners Know First Hand

Those who have had their Hudsons longest are perhaps its most emphatic champions. They know it best. They have seen it pitted with triumph against every situation that can confront an automobile. Today their Super-

Sixes are giving service, such as is literally beyond the performance capacity of many new cars that cost more.

Certainly no fine car is so highly regarded by such a large following.

See What It Has Done

Were its position less deserved could Hudson hold the loyalty of all these? Were its supremacy less decisive, surely five years must have discovered the rightful successor.

But time only brings fresh evidence of Hudson leadership.

In speed—in power—in acceleration—in hill-climbing, have never been matched.

The most abusive tests to which a car was ever subjected have failed to find its endurance limit. Could other types adopt it, they might share Hudson's unmatched ability. But Hudson controls it. By right of invention Hudson alone can use it.

It will not be possible to supply all who want Hudsons. So even though you may not want your car for several months, now is not too early to place your order.
