

Why Itch and Burn With Skin Diseases?

There is a Way to eGt Rid of the Torturing Suffering

You cannot boil water by applying the heat to the top of the vessel. You may possibly, after so long a time, succeed in making the water lukewarm, but it will never get hot enough to boil.

Disorders which originate in the blood can be reached only through the blood, and no amount of local treatment applied to the surface can be expected to do any real good.

The same principle applies to the attempt to get rid of skin diseases by local applications of salves, ointments, lotions, washes, etc., remedies applied to the surface of the skin, which can have no real corrective effect whatever upon the disease. Water cannot be boiled until every atom has been thoroughly saturated with intense heat, which can be accomplished only by applying it in the proper way.

So, also, there is a proper way to successfully treat and get rid of diseases of the skin, and that is by getting in behind the millions of tiny germs that cause the disorders, and eliminate them from the blood, thus going direct to the source of the trouble, and attacking them at the starting point.

Those who rely upon local treatment such as ointments, salves, lotions, washes, etc., which are applied to the surface of the skin, will never be free from agonizing skin diseases, because they are going about the treatment just backwards. They are treating the results of the disorder, and not the disease itself. They are attempting to boil water by applying the heat in the wrong place.

These terrifying skin irritations, eczema, tetter, boils, pimples, etc.,

have their origin in a disordered condition of the blood. They come from a colony of tiny germs which get into the blood and multiply by the million. Altho commonly called "skin diseases" because they set up the visible evidence of their disturbance on the surface of the skin, all successful treatment must come through the blood. This makes it clear why you cannot expect any real substantial relief from local remedies applied to the surface of the skin.

There is no danger of ever being afflicted with skin diseases as long as the blood is in perfect condition. It is only logical, therefore, that the proper treatment for pimples, blotches, sores, boils, rough red scaly skin is to purify the blood of the tiny germs that cause these disorders.

When any of these symptoms appear on any part of your body, you should take prompt steps to rid the blood of the germs which cause them. And the one remedy which has no equal as a blood cleanser is S. S. S., the purely vegetable blood remedy which has been on the market for more than fifty years. S. S. S. is sold by druggists everywhere.

Do not expect to be cured of any form of skin disease by the use of lotions, salves, ointments or other local treatment, as such remedies cannot possibly reach the source of the trouble, which is the blood.

The recognized blood purifier and tonic is S. S. S., which has been used for more than fifty years, and is today, more popular than ever.

Begin taking S. S. S. today, and write a complete story of your case to our Chief Medical Adviser, who will give you special instructions without charge. Write at once to Swift Specific Co., 185 Swift Laboratory, Atlanta, Ga. Adv.

IMPROVEMENTS ARE MADE IN FARM BUREAU BUILDING

The sign of fresh paint is in the air around the warehouse home of the Farm Bureau Cooperative Exchange. Blaine Klum is showing his handiwork in placing the bureau's name in bold letters on their large building. When completed this sign will be visible to people from all parts of the city and with its orange and black background will make a slightly appearance to passengers traveling thru on the Southern Pacific as the building is located on the railroad track at Fourth and Fir streets, at a point which presents a good view to travelers on southbound trains while trains are stopping at the depot.

Another improvement planned which will be taken care of very soon is the erection of a good tie rack on a strip of vacant land adjoining the warehouse. This will be a great convenience to the farmers and is in line with the policy of the bureau to make its offices and warehouse the headquarters for the farmers of the county when in Medford and a place where they can get any information desired.

The bureau has recently closed a deal with the General Chemical company for the sale and distribution of their Orchard Brand Spray materials. These sprays have been handled here for several years by J. A. Perry and have stood the test of time.

"You Can't Get Away from It" says the Good Judge

A little of the Real Tobacco Chew gives more genuine satisfaction than the big chew of the old kind.

Saves money, too—because this class of tobacco lasts much longer. The rich tobacco taste stays right with it.

Any man who uses the Real Tobacco Chew will tell you that.

Put Up In Two Styles

RIGHT CUT is a short-cut tobacco
W-B CUT is a long fine-cut tobacco

Weyman-Bruton Company, 1107 Broadway, New York City

Suits sponged and pressed, 75c. Our delivery at your service. City Cleaning & Dyeing Co., Phone 474.

Again the prediction is for a light to heavy frost for tomorrow morning. The rain of last night amounting to .07 of an inch was a great surprise to the local and San Francisco weather men as the prediction from San Francisco had been for fair weather. "In all my experience I never met with such a weather surprise," said Floyd Young, the government frost expert.

"According to the general weather map and local and northwest conditions any weather man would have predicted fair weather Tuesday morning for the next 24 hours. I can't account for that rain slipping in in violation of all the rules and regulations of the weather department except that it was imperative that nature make good on Monday's solar halo seen here, and the tradition that rain will always follow a solar halo within two days."

Singer Shop—Quality counts. New and used machines sold or rented. Expert repairing on all makes machines. Phone 215-R, 10 So. Fir. 60*

Old phonographs and records bought, sold and exchanged. Douglas, 101 S. Central Phone 615-J. *

There was an exceptionally large attendance at the Elks club yesterday afternoon. Only three more meetings of the ladies will be held between now and June when the summer vacation period sets in.

Glidden, arsenate of lead. The best to be had. Conner's Warehouse. *
Your spring suit—best woolens, reasonable prices. Klein the Tailor, East Main, upstairs.
Hemstitching, peoting 10c per yard, thread furnished. Expert operator. Singer Shop, 10 South Fir street. 60*

Another indication of the great activity which is on in all lines of industry in Jackson county is the fact that a car load of machinery was being unloaded here today for the War Eagle Quicksilver mine in the Meadows district which is owned by prominent Medford men. The mine is being fully equipped for extensive operation. A car load of additional machinery also arrived this week, about \$5000 worth, for the Rhoades & Cottrell saw mill in the same district which is fast expanding and at which about 30 men are now employed.

Ashland Helman sulphur baths and swimming pools open for the season, Saturday, May 1st. 44
All kinds dry wood, phone 305 or 513-J. Ray Blackburn.

Notice—After May 8th Singer Shop will move to 16 South Fir St. *

Goodyear Leadership— and Tires for the Smaller Cars

Enormous resources and scrupulous care have produced in Goodyear Tires for the smaller cars a high relative value not exceeded even in the famous Goodyear Cords on the world's highest-priced automobiles.

In addition to its larger sizes, Goodyear manufactures an average of 20,000 small car tires a day in the world's largest tire factory devoted solely to the 30x3-, 30x3½-, and 31x4-inch sizes.

Last year more cars using these sizes were factory-equipped with Goodyear Tires than with any other kind.

Their extreme worth is available for your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at the nearest Goodyear Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are built to protect casings. Why endanger a good casing with a cheap tube? Goodyear Heavy Tourist Tubes are little more than tubes of \$4.50 'sac merit. 30 x 3½ size in water proof bag.
