

### WEDNESDAY FORUM IS BEST ATTENDED; THE MAYOR SPEAKS

Seventy-five members and guests attended the forum of the Chamber of Commerce yesterday at their regular Wednesday noon-day luncheon. It was the best attended forum the chamber has experienced and shows that importance of the forum is being recognized by the members. A record of the attendance of each individual member is being kept, so that at the end of the year it may be shown who has taken an active part and has taken a greater interest in the welfare of the community than just paying dues to the organization.

Among the guests yesterday were a number of dairymen from various parts of the county, who were holding a conference in Medford in the interest of the dairy industry. The practice of having farmers come to these luncheons is what is desired, as it links the city up with the rural districts in a closer relationship and creates a most friendly feeling between the city man and the farmer.

The following guests were introduced: F. W. Graig, F. S. Hollibaugh, Louis Gallatin, E. P. Hughes all of Talent; Mr. and Mrs. W. E. Morris of Central Point; A. W. Morrow, who has just recently purchased the Brookhurst Orchard; Mr. and Mrs. Fred Polouze of Eagle Point; Rev. Joseph W. Angell of Phoenix; E. L. Westover of Corvallis; H. B. James, who is located just out of Medford; H. C. Williams, Jr., and Mr. Arthur W. Tvo, formerly from Seattle, but now located in business in Medford and Mrs. Jan Andrews, who is president of the Greater Medford Club.

Mr. David H. Rosenberg was chairman of the day and after a preliminary statement from him, he introduced Mayor C. E. Gates who was appointed by the forum committee to lead the discussion of the value of a modern automobile camp ground to the community and where the same should be located and what facilities should be incorporated in such grounds to make it attractive for the tourists to stop here.

Mr. Gates handled the subject in a most masterly manner and presented convincing facts which enlightened his hearers upon this subject. The committee recently appointed by the directors of the Chamber of Commerce by virtue of the talk given by Mr. Gates now have a broader vision of what is expected of them and as the sentiment for a modern camp ground is exceedingly strong in the community, they realize that the present facilities have outlived their usefulness and nothing but an up-to-the-minute camp ground would be considered.

The forum to be held next Wednesday at the Holland Hotel, will be provided over by Mr. John C. Mann and the subject to be discussed will be that of Tourist Development. No positive assurance has been received that this subject will be led by an out-of-town man, but an effort is being made to secure a certain gentleman to present the same for the reason that he has made a considerable study of the subject. Watch for later announcements.

**Gives Credit Through the Land**  
Backache, lame and stiff muscles and rheumatic pains are often symptoms of deranged kidneys. "I had weak bladder, bad kidneys and liver" writes Willie Carter, Luxar, Pa. "I could not sleep well and my back pained me awful... I had a dizzy feeling in the morning. Since taking Foley Kidney Pills I have been relieved of all such ailments." They rid the system of the poisonous acids that cause aches and pains. For sale by Medford Pharmacy. Adv.

### Strong Women

BY DR. VALENTINE MOTT.

Women and men too—are just as strong and healthy as their blood. Vigor and health come with good blood. Without good red blood a woman has a weak heart and poor nerves. In the spring is the best time to take stock of one's condition. If the blood is thin and watery, face pale or pimply, if one is tired and listless, generally weak, a Spring Tonic should be taken. An old-fashioned herbal remedy that was used by nearly everybody 50 years ago is still safe and sane because it contains no alcohol or narcotic. It is made of roots and herbs and called Dr. Pierce's Golden Medical Discovery. If druggists do not keep it in tablet form, send 60 cents for a vial to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.

### DITCH WASHOUT AT RIVERSIDE DELAYS WATER

RIVERSIDE, May 12.—The water was turned into the irrigation ditch as far as Miller's Gulch one day last week and the residents of Riverside were very much elated over the prospects of getting water on their land, when about 100 feet of the bank was washed out near the Rozalis ranch. This part of the ditch was constructed under contract by Tony Ross of Gold Hill. This will necessitate considerable expense and several days further delay in getting the water.

Mrs. F. C. Pickett entertained the ladies of the Recreation club Thursday afternoon. Visitors present were the Misses Nelly and Lyndall Jacobs of Riverside; Ruetta Boyd of Cottage Grove and Mrs. C. W. McDonald of Medford. A pleasing program was carried out. Delicious refreshments, consisting of rolls, olives, conserve, salad, maple sundae, cake and coffee were served by the hostess.

Mrs. L. H. Porter was shopping in Medford Friday. A meeting of the Riverside Community club was held Saturday evening at the home of Mr. and Mrs. R. W. Engel. About twenty-five were present and after the business session, all enjoyed a jolly social time. Lunch, consisting of sandwiches, coffee and pie was served. The resignation of W. W. Hittle as president was accepted and C. R. Boyd was appointed president. Grant Matthews was appointed vice-president.

The contract for construction of concrete bridges over Miller's Creek and Birds-Eye Creek was awarded to Messrs. Carter, Allen and Judd, and the work is well underway. Mr. and Mrs. George R. Alden, accompanied by Miss Muriel Matthews, went to Medford Tuesday evening and attended the dance at the Elks temple.

Miss Ruetta Boyd who has been visiting at the home of her brother, C. R. Boyd, returned to her home in Cottage Grove Friday.

R. W. Engel has just taken off another nice hatch of White Leghorn chicks. He hatched 345 from 380 eggs and feels quite elated with his success with the incubators.

W. W. Hittle moved his family to Gold Hill Monday, where they will live until further plans are made for a permanent home.

Mr. and Mrs. Roy Ganfield are now residents of Riverside and are getting settled at their home, purchased of W. W. Hittle.

Mr. and Mrs. George Lane have moved back to their home on Foots Creek from Ashland. Mr. Lane is very much improved in health.

Mr. and Mrs. F. E. Wahl came down from Medford Saturday afternoon, spent the week-end with Mr. and Mrs. C. A. Wahl, and attended the meeting of the Community Club Saturday evening.

Mrs. C. R. Boyd has been quite ill the past few days. A doctor was called from Medford Friday. We are happy to state that last reports were that she was very much improved.

Several of the children of the neighborhood have been on the sick list, most of the cases having the nature of a hard cold and high fever. Those afflicted were Neil Gray, Harriet Short and all four of the children at the Rozalis ranch.

Mr. and Mrs. C. W. McDonald and daughter, Woodsome were down from Medford Sunday and spent the day at the Pickett home.

Bert Corley, who has been in this neighborhood the past several months left for his home in North Dakota Sunday.

The following from this vicinity attended the field meet at Talent Friday: Mrs. Pickett, Forest Pickett, Mrs. McQuat, Ward McQuat, Muriel Matthews, Elliott Butler, Miss Alice Harper, Mrs. Gray and children, Harris Porter and Martha Porter.

### MICROBES LIVE IN AMBER SINCE THE GARDEN OF EDEN

PARIS—Living organisms, imprisoned in amber and believed to be incomparably older than the microbes found in Egyptian papyrus, have been discovered by Dr. Galippe, of the French Academy of Science, and it is thought by some biologists that these organisms may probably be among the very early elements possessing life, to inhabit the earth.

Amber is said to have been formed in the very early stages of the earth's history, but Dr. Galippe is convinced the micro-organisms could only have been imprisoned in the amber while it was in course of formation. As soon as these organisms were set free from their prison they are said to have manifested very evident signs of life and, when carefully cultivated, developed great activity. The organisms are of course very elementary, but this fact detracts little from the marvel that they are living survivals from a period far earlier than that of prehistoric man.

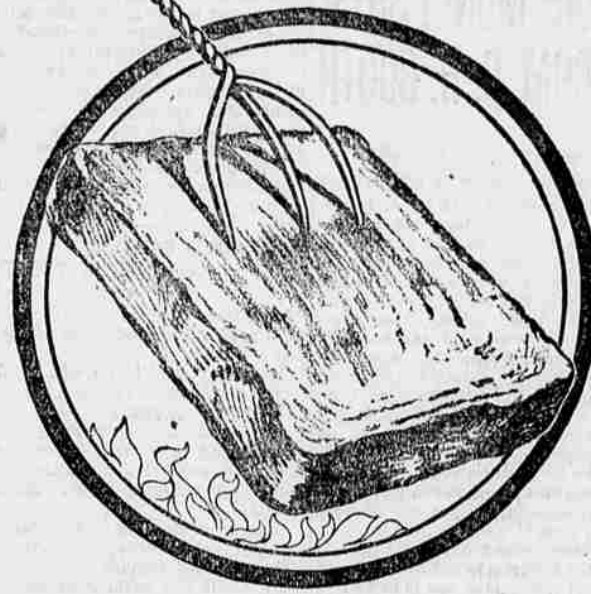

# It's toasted

**TOASTING** makes the Lucky Strike cigarette delicious.

You like to spend your money in exchange for real facts. We give them to you about Lucky Strike.

Lucky Strike—it's toasted. It's toasted to improve the flavor of the Burley tobacco. The result is perfect. You cannot obtain this delicious toasted flavor in any other cigarette.

Are you a pipe smoker? Then try Lucky Strike pipe tobacco. Made from the finest Burley tobacco that money can buy. The toasting process seals in the Burley flavor and takes out every bit of bite. It's toasted.
