

Local Briefs

That Medford is both prosperous and growing is shown by the records of the Home Telephone company. Never before has the company been so busy in putting in new phones and taking care of removals as during the past 90 days. Over 100 new phones have been put in in that time, many for new residents and the remainder for old residents who had not hitherto had phones in their homes. And during the past 90 days over 100 phones have been changed over to removals in the city. Orders for new phones and removals are received daily.

MISS KATHRYN SWEM

Vote for the County Good Roads \$500,000 Bond Measure

Because: It will build permanent roads in the rural districts, and not on the main highways, without adding any tax above the present rate

Because: If the \$500,000 issue is voted, we will get \$900,000 Federal and State money, and positively will not get this \$900,000 unless we do vote this county issue.

Vote for the 4 per cent State Road Bond Limit

Because: Only by its passage can the State have the money to match the county and federal money for road work in this county.

Because: The auto and gasoline license fees will pay the principal and interest of the entire issue, without any increase in either, and will not require one cent of direct tax, property tax or additional tax of any kind

By voting for and carrying both of these bond propositions is the only way the rural roads will be built and road building continued.

The carrying of these bonds means progress along all lines. Defeat of the measures mean the slowing down of road improvements and delay in improving rural roads.

THERE'S GREAT NEED FOR THRIFT

THESE abnormal times are due largely to carelessness in investing and recklessness in spending. Money has come easy and gone without a struggle. It has caused extravagance and speculation, the two greatest dangers in the path of permanent prosperity.

As our customers know, we had last fall a small assortment of Roycroft things on display for sale, obtained through acquaintance with Mr. Elbert Hubbard II. Rather an unusual thing, as the Roycrofters do not commercialize their product. Buyers appreciated so much being able to obtain these things locally, we have persuaded Mr. Hubbard to send us more. As the display coming includes their wonderful leather work as well as the Hammered Copper, Sheffield Plate and Books, we feel the two lines conflict. We do not wish to depreciate Cordova goods, but simply to give the public a low price to close out quickly.
