

7 INJURED IN AUTO ACCIDENT NEAR ASHLAND

When the interurban Auto Company's big car collided with a telegraph pole on the Pacific highway on the outskirts of Ashland yesterday at 11:40 a. m., seven persons were injured, but none seriously, and all are now out of the hospital.

The accident was caused by a reckless speeder whose identity is unknown. The accident occurred on the other side of the Pacific highway overhead crossing about 40 yards from the crossing on the sharp curve.

The interurban car which weighs 5600 pounds without passengers, was proceeding south on the hill with about 13 passengers and a car was coming north down the hill with the speeding car in its rear, when the speeder, in utter disregard of the laws of the road and of safety cut in ahead of the north bound car and directly between it and the interurban car. In order to avoid a collision with this offending auto, Chas. Purcell, driver of the interurban car, steered to one side and the big auto crashed into a telegraph pole at one side of the highway.

The impact of the collision threw the passengers violently around the car and wrecked the front part of it. The seven injured were suffering mostly with cuts and sprains, and were hurried in autos to an Ashland hospital, where they injured were dressed. The most seriously hurt were Mrs. J. B. Wimer of Medford, formerly of Ashland, who had bad cuts about the head and both of whose knees were badly bruised, and R. Boswell, the well known Holland mining man, formerly of Medford, who has bad cuts about the head. Mrs. Wimer is at the Wimer apartments in the Hotel Holland, and Mr. Boswell was about the city today and leaves this evening for Grants Pass.

W. L. Lewis, manager of the Interurban Auto company, and Chas. Purcell, driver of the interurban car, greatly regret the unavoidable accident caused by the reckless speeder. Mr. Lewis is showing the injured passengers every courtesy. Mr. Purcell is badly bruised.

The new Imperial orchestra, "makers of music," "masters of harmony," though but a few months old, has an enviable reputation throughout southern Oregon. The personnel is made up of the following young men of Medford: Herbert Alford, "Chick" Vance, Earl Roberts, Ray Mikeche and Chas. Henselman, "Herb" Alford being leader and manager of the organization.

STUDENT STRIKE ARGENTINE HAS A FATAL ENDING

BUENOS AIRES.—The students' strike at the University of La Plata, which culminated recently in a shooting affair in a lecture room and the killing of one of a group of students taking an examination, is attributed by some newspapers to the incitement of politicians and by others to "the absorption of anarchistic ideas" by student agitators.

The tragedy was the most serious of a number of acts of violence on the part of the strikers that have occurred during the past few months. Demanding reforms in the administration of the university, including an enlargement of the rights in the control of the administration already possessed by the student body, the strikers took possession of various of the university buildings on four different occasions and ejected the faculty. The faculty have had to call on the police to oust them having been powerless to maintain discipline.

The strike was at first regarded as "college boy nonsense," but was soon given a serious aspect by the newspapers because of evidence that the ringleaders were actuated by bolshevik ideas and because it has led to threats by the federal administration to remove Governor Grotto of Buenos Aires province and appoint an "interventor" to rule in his stead. Governor Grotto is a political opponent of President Irgoyen and anti-administration newspapers have accused politicians of the president's party with inciting the students to create disorder or make an additional excuse for Governor Grotto's removal.

When the students first declared the strike by their organization, the "Federacion Universitaria," they took forcible possession of the central building of the university and hoisted the red flag on the flag staff. They were dislodged by the police and leniently dealt with. This performance was repeated in several other of the university buildings.

The violence which culminated in the death of a student occurred in the College of Medicine when a number of striking students attempted to prevent other students from taking an examination and rushed into the lecture room, flourishing revolvers. Fist fights between the strikers and the orderly students were followed by the firing of about 50 shots and Felix Viera, a youth who had come from Paraguay to take the examination, fell wounded. About 130 students were arrested in a police round-up which quickly followed and 120 revolvers were taken from them.

A NEW IDEA IN SELLING CLOTHING

"I have just seen one of the merchant tailors of this city, who I believe is inaugurating a startling idea in merchant tailoring. In fact, this is the first time that I have known this idea used, that is to make and deliver men's suits to order at absolutely cost price plus 10 per cent, which will obviously cut the cost of clothing approximately in half. The customer will have the wholesale invoice of his woollens and trimmings and the price of the labor as it comes from the workshop, and he pays the actual cost of producing the garment plus 10 per cent. If this tailor gets the support of the people, as he certainly deserves to do, he will make a success of it,—but I fail to see how it is possible unless it is by doing an immense volume of business. Time will tell and should the idea succeed it will surely revolutionize the merchant tailoring of the country."—A Chicago Wholesale Man.

CAMPAIGN COST LIGHT.

(Continued from Page One)

other wealthy men were on the Wood organization roll in Michigan.

"He was the only one who would answer that description, I think," Mr. Hitchcock replied.

Senator Reed asked how much the New York state organization spent.

"I don't know," replied the witness. "That campaign was begun long before I entered. I was informed that less than \$10,000 was spent by the local organization."

UNITED STATES IS HANDICAPPED IN OLYMPIC GAMES

ANTWERP.—Unless America is content with a possible victory in field and track events, she must send strong teams to represent the United States in military, equestrian, golf, tennis and Olympiad on points. This was the general viewpoint of European sport enthusiasts who attended the ice hockey and skating events, opening the Olympiad.

Sweden, which won the 1912 Olympiad on points, although America was victorious in track and field, will send strong teams to Antwerp, competing in practically every event.

The Swedes expect to be particularly strong in swimming and gymnastics and these sports, as well as shooting, equestrianism and other "outside" events, count just as heavily in the point totals as weight throwing, running and jumping.

Other European nations, which specialize in horsemanship, fencing, archery, wrestling and half a dozen other varieties of sports, are to send crack teams for these events.

In 1912, at Stockholm, Sweden scored a total of 128 points to America's 126, this being the count before Thorpe was disqualified on charges of professionalism, when the six points he had won for the two firs in the all round events—the modern pentathlon and decathlon—were awarded to Wislander, a Swede, making the final count Sweden 134 to America's 120.

It is realized here that the United States teams will be under great expense both for transportation and housing which may militate against the large representation necessary to win in a number of competitions outside of the track and field games. The contestants in the ice hockey and figure skating matches expressed surprise at the high rates asked for board and lodging and the Antwerp newspapers are already protesting at the increased prices of hotel accommodations which must be paid by spectators and participants in the Olympic games. The Olympic committee has arranged to control prices and prevent profiteering by individual householders who will rent rooms, under the committee's supervision, but the hotels, which naturally have the most desirable accommodations, already have increased their charges and are expected to raise prices even higher.

Stage and Screen

"The Passing Show," coming to the Page theater, Tuesday night, June 1, carries a company of 200 people, and among the names heading the cast are many of the old favorites together with a lot of new ones. Willie and Eugene Howard—those ever popular fun makers and singers so long associated with Winter Garden spectacles—head the list with a wealth of brand new comedy in which they are at their very best. Roy Cummings, a newcomer, contributes some novel and marvelous acrobatic stunts with his "cat" act; John Burke, a clever laugh promoter, appears in delightfully funny pantomime; Helen Carington and Emily Miles, two very charming young ladies of Winter Garden fame, and Leeta Corder, a Titian-haired singing beauty, so far in contributing to the musical and artistic delights of the performance.

Florence O'Denishawn, the classical dancer with Raymond Hitchcock's new Hitchy Koo, 1919 revue, came by her odd stage name through association with Ruth St. Dennis and Ted Shawn. Mr. Hitchcock first saw her in vaudeville. This is her second season with him. Her real name is Florence Andrews.

Cole Porter, who wrote the words and music of all the songs in Hitchy Koo 1919, is a New York society lad and served in the A. E. F. in France. His song "An Old Fashioned Garden" is the hit of the new show. Geo. V. Hobart, who supplied the back for the 1919 Hitchy Koo, has written several "Follies" for Flo. Zeisfeld and knows the curling scheme of such a form of entertainment.

Keep the garage floor clean of oil for oil soaks into the tires, softening them with the result that undue wear occurs when the car takes the road again.

HOUSE HOMELESS OF NEWARK, N. J., IN BIG TENT CITY

NEWARK, N. J., May 22.—One hundred and ten families evicted by landlords, are comfortably housed in Vailsburg Park today under tents loaned to the city of Newark by the War Department. It is a real Tentville, whose denizens, although temporarily homeless, are as happy as could be expected in a community forced to live outdoors. It is expected that, before the end of summer, 200 more families will have joined the little colony.

Captain Thomas W. Reilly, a machine gun man with a fine overseas record, laid out the place and gave each arrival a first come, first served choice of this canvas habitation. One of them was a young widow with four children. She received an order to vacate her apartment, after failing to defeat her landlord in a lawsuit.

The city appropriated \$25,000 for the operation of the camp and Governor Edwards donated a big tent which, in the center, serves as a community kitchen. Army food from the municipal sales stations helps further to keep down the cost of living. The new settlement is provided with many conveniences including a sewerage system, running water, a laundry tent equipped with tubs and stoves for ironing, shower baths and toilets.

The total cost of installing the improvements was less than \$500, according to Captain Reilly, the largest single item being \$120 for heavy insulated wire for electric lights. Soldiers and a number of city employees helped to put up the tents which are 16x16 feet and lay the board flooring. The tents are boarded up three feet from the ground. Most of the inhabitants of Tentville have stored their furniture in the prospect of better days and are sleeping on cots, furnished by a local hospital. The "town" is laid out in eight streets with one main avenue bisecting them.

HAMMOND, La., May 22.—The Hammond Vindicator, official journal for the Parish of Tangipahoa, City of Hammond and town of Pontchartroula, constituting the strawberry section of Louisiana is being printed on wall paper printed. And it does not in the least resemble the wall paper printed sheets of the civil war period.

Who editor Campbell of the Vindicator felt the newspaper shortage, he contracted with a manufacturer of wall paper at Atlanta for a large tonnage of a very light shade of wall paper at four cents a pound cheaper than newsprint.

Rheumatism Back on the Job

With Its Old-time Fury

No Let-Up In Its Torture.

If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will?

Do not try to rub the pain away, for you will never succeed. Try the sensible plan of finding the cause of the pain. Remove the cause, and there can be no pain.

You will never be rid of Rheumatism until you cleanse your

blood of the germs that cause the disease. S. S. S. has no equal as a blood purifier, scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system.

Get a bottle of S. S. S. at your drug store and get on the right treatment to-day. If you want special medical advice, address Medical Director, 102 Swift Laboratory, Atlanta, Ga.

NOW IS THE TIME TO SPRAY FOR MOTH SAYS PATHOLOGIST

The first brood of codling moth are somewhat later this year than usual. From the present indications the best time to spray for this brood will be from May 25th to June 5. All pears and apples should be sprayed during this period as a few eggs will be hatching about June 1st. The maximum part of the brood will not be out till about the 10th to 15th of June, when another application should be made, as one spraying will not hold for the entire time the first brood are active as they will string out for about a month. The fruit is growing rapidly and a spraying is only good for about two weeks.

Use about six pounds of powdered arsenate of lead to a 200 gallon tank or twice this amount of paste lead. All fruit should be thoroughly coated. The spray gun is good for this application if it is used with lots of pressure.

There is very little scab in the orchards and except in orchards where scab is known to be present, no lime and sulphur is needed at this time. If lime and sulphur is used, make it 1 gallon to 50 on pears and 1 to 40 on apples.

Where new blight is present it may be well to add nicotine sulphate, 1 pint to 100 gallons and 1 gallon of distillate oil emulsion to 100 gallons to the regular arsenate of lead. This will kill many insects that act as blight spreaders and is especially recommended where blight is bad.

SHIPPING STRIKE IS NEAR TO END

VANCOUVER, B. C., May 24.—Prospects appeared brighter today for the settlement of the shipping strike, which for three weeks has crippled coastwise shipping from British Columbia ports. Through the intervention of the International Longshoremen's association a committee of three was appointed to act with D. T. Bulger, fair wage officer, with a view to bringing the opposing factions together. The committee was endeavoring to get in touch with the managers of the Union Steamship company, the Grand Trunk Pacific Steamship company and the marine superintendent of the British Columbia coast service. Nothing is expected to be accomplished today, however, it being a public holiday.

MORGANATIC MARRIAGE FOR KING OF GREECE

PARIS, May 24.—King Alexander of Greece is reported here to have been married morganatically to Mademoiselle Manos, daughter of a former aide de camp to his father, King Constantine. The Greek legation in Paris has refused to confirm or deny this report.

King Alexander's marriage is said to have been the culmination of a childhood friendship. The king and his wife are living at the same hotel here.

Seaplane Found Adrift.

NEW YORK, May 24.—A hydro-airplane marked "number 826" was picked up at sea today off Scotland lights by the steam pilot boat New York. The hydro-airplane was upside down and there were no traces of any occupants.
