

3 LARGEST U. S. CITIES MAINTAIN PLACE IN CENSUS

WASHINGTON, May 25.—The population rank of the cities will show a large number of changes when the statistics of the 1920 census have been completed.

Several cities have moved up into the 100,000 class in which there were 50 municipalities in 1910. Some of the cities of that class, whose 1920 populations have been announced, have outgrown others in the same class while some having less than 100,000 ten years ago have taken rank well up among the country's 50 largest cities.

Akron, O., has shown the most growth among the larger cities. It has passed eight cities having 100,000 or more in 1910, whose 1920 populations have been announced.

The rank of the various cities cannot be determined until statistics for all have been announced. New York, Chicago and Philadelphia, first, second and third cities of the country, will continue to rank in that order but the rank of other cities is uncertain. From statistics announced some of the changes shown in rank are:

Washington, D. C., passed Newark, N. J., Cincinnati and New Orleans. Newark, N. J., passed Cincinnati. Toledo, O., passed Louisville and St. Paul.

Dayton, O., passed Paterson, N. J. Bridgeport, Conn., passed Paterson, Nashville and Spokane.

Hartford, Conn., passed Paterson, Nashville, Albany, N. Y., and Spokane.

Youngstown, O., passed Nashville, Albany and Spokane and a number of cities of 80,000 or more in 1910.

Springfield, Mass., passed Nashville, Albany and Spokane and a number of cities of 90,000 or more in 1910.

Camden, N. J., passed Albany and Spokane. Nashville, Tenn., and Albany, N. Y., passed Spokane, Wash.

Cities of 100,000 or more population in 1920 which have been announced with their 1910 rank and 1920 population include:

Table with 3 columns: City, 1910 Rank, 1920 Population. Lists cities like St. Louis, Pittsburgh, Milwaukee, etc.

Table titled 'PORTLAND'S POPULATION GROWTH BY YEARS' showing population from 1850 to 1920.

WASHINGTON.—The population of Portland, Ore., according to the 1920 census, is 258,283, it was announced here tonight. This is an increase of 51,074, or 24.6 per cent.

COMMUNICATIONS

Praise for Road Work. To the editor: In these days of unrest and general unsettled conditions, we hear a great deal about high cost of living, high taxes, graft and incompetency applied to everything that is in any way connected with public affairs.

JOYFUL EATING. Unless your food is digested without the aftermath of painful acidity, the joy is taken out of both eating and living. KI-MOIDS are wonderful in their help to the stomach troubled with over-acidity.

just how it should be done) and while nearly every man will allow that our roads are in better condition than common at this season of the year, the one general complaint is: that so much time and money is wasted in having laborers getting to work late and quitting early, in order to reach their homes, which, many times, are miles from the work under construction.

We farmers who have had teams on such work can speak knowingly when we say that a well organized crew, under rigid supervision could save the county fifty per cent cost and the work done better. As the outlook is for better organization along these lines, as well as to see that the man is worthy of his hire, a word of commendation might not be out of place.

When the county began tearing up the roads north of Central Point last spring with their big scarifiers, there was a howl sent up that was distressing; we all felt that they were ruined. But following it came the grader, the roller and the sprinkler; then the big trucks began hauling and spreading the surfacing, again followed by roller and sprinkler.

Not a day's layoff, but the every day steady grind. Result: The work is nearly completed, no one has been seriously inconvenienced and we have had the pleasure of seeing one road crew that earned their money. Even the men on the job say it was a pleasure to work hard when seeing something accomplished, and they proved this by their courteous manner in meeting and passing teams and cars, which has often been spoken of by people who used the roads most.

Such management and such work is to be appreciated. If the same earnest business like system is carried out all over the county we think that the old gag of incompetency and graft which has so long been applied to our supervisors will be replaced by cooperation and just compliments.

J. C. PENDLETON, Table Rock, Ore.
