

OPTIMISM IS KEY NOTE OF FORUM MEETING HOLLAND

The forum of the Chamber of Commerce yesterday noon at the Holland Hotel was exceedingly well attended and among the guests were Lynn D. Mowat, secretary of the Ashland Commercial Club, W. J. Moore, an attorney from Ashland, B. I. Elliott of Portland, a representative of the L. C. Smith Typewriter Co., H. C. Stoddard, formerly connected with the California-Oregon Power Co., at Medford, but now located with that company at San Francisco, Mrs. H. A. Davis of Wichita, Texas, a guest of Miss Annie Kehleher and Col. Robert A. Miller of Portland, who many years ago, was a resident of Jacksonville.

Mr. W. E. Crews was chairman of the forum and Rev. D. E. Millard led the singing of several new songs.

It was suggested that an effort be made to have the paving between Rogne River and Gold Hill completed before the contractors begin the paving of the stretch south from the Josephine county line, no action however, being taken regarding same.

Now that the county road bonds and the state bond limitation measures had been adopted, the chairman requested information regarding the road construction program and it was explained that there would probably be no work done on Jackson county roads this summer by virtue of the money voted, but that federal and state aid was now possible and this money would be spent on the roads next summer on condition that all other factors regarding same would be in conformity with good business judgment.

Mr. W. E. Liljebran gave a very interesting talk on oil development near Medford and gave as his opinion that oil was here, but as to its being in commercial quantities was yet to be determined by the drilling now going on. With a plentiful supply of water now developed, with a new powerful boiler and an experienced oil drilling crew from the oil fields of California, no further delay in drilling was anticipated.

Resolution of Sympathy
The sudden death of County Commissioner George Owen of Ashland was announced and a committee was appointed to draft a resolution of sympathy to the family and friends. The news of the death of Mr. Owen was received with regret in that he was considered an exceptionally efficient county officer.

This being "Forest Protection Week," the subject of "Forest Protection" was led by Capt. H. J. Eberly of the forestry service, who presented some very interesting data regarding the standing timber, both privately owned and that within the national forests. He warned against the loss of this timber and urged every citizen in this locality to act as an assistant to the forestry men in preventing its loss by fire. Care should be taken by every one with lighted cigars, cigarettes, pipes, matches and especially in regard to fires left by campers and hunters. Burned timber pays no wages and he estimated that for every thousand feet of timber destroyed eight dollars was lost to the community in wages.

Guard Forests
Mr. Eberly urged that every man and woman in this locality act as a self-appointed guardian to assist in the preservation of the forests against fire. Mr. Crews suggested that every automobile owner secure a windshield sign from the Chamber of Commerce whenever they intend to make a trip into the forests, so that the same may be a constant reminder to all who they may come in contact with to be careful to "Put Out—Keep Out Forest Fire."

Mr. H. C. Stoddard was greeted with great applause when called upon for a few remarks and he expressed himself as being pleased to have had the opportunity of meeting his many friends here and that Southern Oregon always had a warm spot in his heart.

Col. Miller Talks
One hundred million dollars in gold is what has been taken out of Jackson county in the early days for which the state of Oregon has never been given credit for producing, was a statement made by Mr. Robert A. Miller, who formerly lived at Jacksonville and for a number of years was secretary of the Agricultural society of this district in the early days of development. During 1851 and again in 1865 immense findings of gold were made near Jacksonville and the state of California was given credit for having produced it because it was sent to San Francisco to be melted. After the miners had left here for another newly opened gold field, more than four thousand chinamen were employed in gold mining near Jacksonville. This gold was shipped to China and no record of the amount was ever made known. Mr. Miller was a most enthusiastic Oregon optimist. His words were an inspiration to the ones who had the pleasure to hear him and his advice to not permit one word of doubt or an expression of pessimism to become public of what this southern Oregon country really is, should be followed to its fullest extent.

Beginning with next Wednesday and during the entire month of June, the Wednesday forum luncheons will be held at the Medford Hotel. The subjects for forum consideration will be announced shortly.
