

### SALES MANAGER AT LOS ANGELES IS BACK ON JOB

One of the distinguishing features in connection with the introduction and sale of Tanlac throughout America is the large number of traveling men who have been benefited by its use. From Maine to California and from the Gulf to Northern Canada, men representing almost every line of business have testified to the remarkable and gratifying results obtained by taking Tanlac.

One of the latest of those to endorse Tanlac is H. Shardlow, sales manager for the Solar Illuminating Co., of Chicago, who lives at the Hotel Stowell, Los Angeles, Cal.

"Tanlac is the finest medicine I have ever run across," said Mr. Shardlow recently. "I gained nine pounds on three bottles and have gotten rid of a case of stomach trouble that nearly cost me my life. For several months I had suffered terribly from acute gastritis and was very nervous. Everything I would eat soured and formed gas, my chest and lungs would pain me and my heart palpitate so at times I would almost faint. I have walked the floor for hours in misery and have been forced to spend days at a time in bed. I lost nineteen pounds, was a nervous wreck and had to give up all idea of business."

"I had the best treatment and medicine and was put on a special diet but got no better, and was finally told that only an operation would relieve my trouble. One day while in El Paso, Texas, I had an attack that almost proved fatal. I had been reading about Tanlac and immediately tried it. Thanksgiving Day I was sick, blue and discouraged, but since taking Tanlac I can enjoy a good meal and feel well, cheerful and happy. It gives me pleasure to recommend Tanlac and I hope all sufferers from stomach troubles may be induced to try it."

Tanlac is sold in Medford by West Side Pharmacy, and by leading druggists in every town.

### PRIZES GIVEN RURAL SCHOOLS HEALTH RULES

The actual value of systematic habits of health to be observed every day in the life of a child has been emphasized in the last five years in almost every section of the United States. The modern health crusader movement is a definite movement to make health habits a permanent part of the daily life of every child. Therefore the teachers must show their active, practical sympathy with every child who enrolls under the banner of the modern health crusader.

Much work was accomplished along this line by co-operation between the teachers of Jackson county and the Jackson county nurse in 1918-1919. Owing to the fact that the little awards which many of the pupils had earned, failed to arrive before the closing of school in 1919, enthusiasm was not so great in the city schools this year. However, on Friday the 28th, the pupils of Washington and Roosevelt schools received the awards to which they were entitled when school closed last year. When any one sees a child wearing a little pin made of gun metal in the form of a shield, it means that the wearer is a Knight of the Modern Health Crusade. Whenever a child wears a gold-washed pin, with the same device, it means that the wearer for fifty-two weeks, an entire year, has performed daily the health habits of the modern health crusader.

Perhaps adults may be inclined to scoff and make light of these efforts to build up the health of the growing child. But to be a modern health crusader requires much self-denial on the part of the child. You must not drink coffee or tea, if you are a knight. You must have ten hours of sleep, you must use your tooth-brush twice a day, and seven other daily rules for health conduct. Even the parent who most bitterly opposes the physical inspection of children in the school, who thinks quarantining quite unnecessary, cannot fail to appreciate what the modern health crusader movement is trying to teach the children.

Many of the rural schools have shown their willingness to perform the health habits every day, and much time has been spent of late by the county nurse mailing the awards and certificates to the schools where they have been earned.

The following is a list of the rural schools that have earned credits in the modern health crusader work:

- District 52, Chaparral school, gold washed pins (8).
- District 90, Roguelands school, gold-washed pins (4).
- Lake Creek school, gun metal pins (10).
- Rogue River (town), gun metal pins (12).
- Reese Creek, gun metal pins (15).
- Pankey, certificates (11).
- Savage Creek, gun metal pin (1).
- Butte Creek, gun metal pins and certificates (11).

### COL. MILLER WILL TALK WEDNESDAY

The forum luncheons of the Chamber of Commerce on each Wednesday during the month of June will be held at the Medford Hotel. Next Wednesday Colonel Robert A. Miller of Portland will discuss the development of community spirit and as the colonel has given this subject considerable study, his talk will be very interesting.

The forum luncheons will be held in the annex dining room of the Medford and arrangements are being made for its full capacity next Wednesday as it is believed that a good many of the members of the Chamber of Commerce intend to hear Col. Miller and also bring a number of out of town guests. Members will assemble promptly at twelve o'clock so that there will be no delay in starting.

### HIGHEST SHOOTING TROPHY TO TROEH

DES MOINES, Ia., May 31.—Frank Troeh of Vancouver, Wash., defeated F. B. Albert of Des Moines, 174 to 170 in the Hazard trophy, shoot yesterday afternoon. The trophy is emblematical of the world's championship doubles. When Troeh won the trophy he took the last championship it is possible for him in amateur sports as he has held all the others at various times in the past. The event was the opening of the Iowa state shooting tournament which is to continue until Thursday. About two hundred marksmen are entered in the tournament.

**The Weather.**  
Tonight and Tuesday, fair; heavy frost tonight east, light frost south-west portion; moderate northerly winds.

### "Passing Show" at Page Tomorrow

Peggy Brown, famous dancer in New York Winter Garden, with "Passing Show."

The celebrated musical extravaganza from the New York Winter Garden, "The Passing Show," will be presented at Page Theatre Tuesday night, June 1. The advance sale of seats has broken all records, and the avalanche of mail orders is said to be absolutely unprecedented. "The Passing Show" is told in fifteen colossal scenes, with twenty-two lifting, dancing musical numbers, and a wealth of scenic and colorful beauty that defies all description. The costumes and color schemes are said to be richly ornate and brilliant. The company numbers 200 people, including Willie and Eugene Howard—those ever popular fun makers and singers so long associated with Winter Garden spectacles. The curtain at the performance of "The Passing Show" rises sharply at 8 o'clock. As the opening scene is one of the most attractive of the entire production, it is wise for patrons to be in their seats at least a few minutes before the curtain rises. "The Passing Show" is a spectacle that will linger long in the memory. There is nothing like it in the world.

### ASHLAND YOUNG MAN DROWNED IN DES CHUTES

ASHLAND, May 31.—Kale Shepherd, son of Mr. and Mrs. C. F. Shepherd, of this city, was accidentally drowned in the vicinity of Bend last Saturday. The body was recovered Sunday morning. Presumably the young man lost his life in the Deschutes river, though particulars are still lacking. He was 31 years of age and leaves a wife, also a little daughter. His wife was formerly Miss Miriam Greag of Ashland. The family home is at Bend, where Kale for some time past has been engaged in the musical instrument business. Earl Shepherd, of Klamath Falls, a brother of the deceased, has gone to Bend, also Dr. Greag of this city, father of the young man's wife. Kale was a fine fellow, universally liked, and great sympathy is being expressed for relatives over his tragic fate.

ASHLAND, May 31.—Decoration Day, observed on Monday instead of Sunday, ushered in Boy Scout Week, a period replete with interesting exercises, both mental and physical, pertaining to development of the scout purposes and ideals.

On Sunday the scouts in uniform assembled at the armory and marched to the Presbyterian church in a body, where they attended morning service. Individual scouts also appeared at other churches, and in brief talks set forth the meaning and objection of the scout movement.

On Monday the boys participated in Decoration Day services, which were held at the armory in conjunction with the Grand Army and its affiliations, the American Legion and First Company of the National Guard. Tuesday evening, June 1, there is to be a public rally to which all the citizens of the community are invited.

### Do Not Get Careless With Your Blood Supply

**Impurities Invite Disease.**  
You should pay particular heed to any indication that your blood supply is becoming sluggish, or that there is a lessening in its strength and vital force.

By keeping your blood purified, your system more easily wards off disease that is ever present, waiting to attack wherever there is an opening. A few bottles of S. S. S.

It is hoped that a capable speaker from elsewhere will be here to deliver an address. Definite place to be designated later.

Wednesday is to be field day, and the afternoon is to be spent in base ball or other athletics.

Thursday evening at 8 o'clock the scouts are to assemble at the Methodist church, where light refreshments will be served and an impromptu program rendered.

Friday afternoon the scouts will be given an automobile ride by the citizens of the community. It is hoped that care enough for this purpose will be volunteered.

The following men have been chosen by the local scout masters to be the local council of Ashland:

Professor Wilson, Professor Briscoe, Rev. C. A. Edwards, V. O. N. Smith, Homer Billings, John Fuller, O. F. Carson, Geo. Icenhower, O. Winter.

Rev. C. F. Koehler and Rev. W. E. Bean, pastors of the Presbyterian and Christian churches respectively are scout masters, also Oba Rice representing the city, and all three are enthusiastic in furthering this movement in behalf of the mental and physical development of the boys. Neither is their spiritual welfare overlooked. The masters lead where the boys follow, and some athletic records are being made in connection with hikes over hill and dale, while camping experiences are as pleasing as the surrounding environment of forest and stream are evincly ideal.

### EX-TREASURER OF DAKOTA DEAD

PORTLAND, May 31.—Funeral services are to be held here tomorrow for Donald H. McMillan, former state treasurer of North Dakota, who died at the home of his daughter here last Thursday. Mr. McMillan had only recently come to Portland and his death was sudden.

### U. S. AIR SERVICE POSITIONS OPEN FOR ENLISTMENT

The air service offers to men a chance to learn and to acquire an intimate and thorough knowledge of planes, engines, electricity, foundry and machine shop work at government expense on full army pay. Enlistments are from one to three years without further military obligation. The air service trains enlisted men to become expert aviation mechanics, and prepares them for the most modern and fascinating game, which will be on a paying commercial basis in the very near future. Under the act of congress approved May 19, 1920, the new army rates of pay in the air service for enlisted men range from \$30 to \$162.30 per month first enlistment. In addition to this

the government furnishes free room, board, clothing, dental and medical attention, hospital treatment, cheap life insurance, laundry, recreation, athletics, amusements, etc.

### MILLS CLOSE FOR LACK OF CARS

MYRTLE POINT, Ore., May 31.—Three lumber and shingle mills here have been shut down because of lack of cars, many workers being thrown out of employment. At the R. K. Booth shingle mill alone 200 men are temporarily out of work. Several other mills in other sections of the Coquille valley also are said to have closed, or are contemplating such action, because of the car shortage. Bankers, the Myrtle Point Commercial Club, and other organizations, have joined in asking the interstate commerce commission for relief.

### ASPIRIN FOR COLDS

Name "Bayer" is on Genuine Aspirin—say Bayer  
Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Colds, Pain, Headache, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacture of Monoacetic-acidester of Salicylicacid.

## FABCO Universal Slip Joint

The Fabco Universal Slip Joint introduced between the Ford engine and the Ford drive shaft tube, is an exclusive feature, and the perfection of the design made possible the success of the Fabco Truck Frames. Numerous unique and important features have been embodied in the construction of this Universal Slip Joint. It provides for:

- Extension of the wheel base.
- Flexibility, to prevent twisting or torsional strains from frame to engine.
- Lateral movement of rear axle caused by flex of springs.
- Elimination of all strains and shocks ordinarily transmitted direct to the engine in the regular Ford design.

The material used in the construction of the Universal Slip Joint is the highest grade case steel, bronze and chrome nickel steel obtainable. The finish and workmanship, which leaves all parts ground to a perfect running fit, are also of the highest order.

The Fabco Frame is made from standard heavy 4-inch rolled channel sections, heavily braced at the corners and at points of connections to the Ford chassis.

The Fabco 46-inch lateral springs are of 2 1/2-inch alloy steel, designed to carry 1 ton each with a large margin of safety and are mounted laterally, eliminating the regular Ford transverse spring. The springs have bushed eyes and are secured to the frame by steel spring bolts, carried at the front end by heavy steel brackets, and are secured at the rear end by steel shackles. The springs are supported at the Ford rear axle housing by means of heavy steel saddles held firmly in place by steel U-bolts fitted with Drake lock nuts. The Drake lock nuts will not jar loose under the most severe vibrations, and are a feature employed only in building the highest grade trucks and tractors on the market.

Fabco trucks are successfully in use on the farm and in the city, in industrial plants and commercial delivery, gruelling express service and stage work. There is no place where a light truck is desired that a Fabco-Equipped Ford will not show the greatest return for every dollar invested.

Use FABCO Trucks for Quality—Reliability—Satisfaction.

If you want to increase the capacity of your Ford come in and see us.
