SHANNON BESTED BY BENJAMIN

PORTLAND, June 5.—Joe Benjamin, Portland, lightweight boxer, scored a technical knockout over Eddie Shannon of Tacoma, in the seventh round of a scheduled ten round bout here last night, when Shannon's seconds threw a sponge into the ring. Shannon had been rendered practically helpless. Shannon showed good form only in the fifth round, but he was sent to the floor in the first and sixth by Benjamin.

Results of the other principal contests included three more technical knockouts. Sammy Gordon, Portland won from Dick Brenton, Los Angeles, when the latter's seconds threw the sponge into the ring during the sixth round. The men are bantamweights. The bout between Abe Gordon, Portland, and Mike Mitchell, Seattle, flyweights, went to Gordon in the fourth round. "Red" Henry, Seattle, and Joe Swain, Portland, welterweights, fought four rounds to a draw. Jimmy Moscow, Portland, stopped "Dummy" O'Brien, San Francisco in the third round of a four round bout. The men are lightweights.

MICHIGAN TRACK CHANCES FADING

ANN ARBOR, Mich., June 5.—The twentieth annual outdoor track and field championships of the western conference were held on Ferry field here today under the auspices of the University of Michigan. Three hundred and twenty-five athletes figured in the competition.

Chief interest centered in the all-star five-man team of the University of California. Michigan's hopes were blasted through the loss of Carl Johnson of Seattle, who, because of injuries, probably will start in only one event—the broad jump.

R. A. MILLER TO TALK ON EARLY DAY MINING

One of the most interesting talks relative to the early mining days of Jacksonville will take place next Monday evening at the Library. Col. Robert A. Miller, who for many years of his boyhood days lived at Jacksonville, and knows the story from personal experience and of what was told him by the early settlers, who lived there when mining was the big industry.

Col. Miller has made several addresses before the Chamber of Commerce and is a splendid orator. He has the power to carry his audience with him and to have him tell of the "lost mine" and the reminiscences of the early days when Jacksonville was a real city of thousands of inhabitants, will be most interesting.

Although the meeting at the library will be held under the auspices of the Chamber of Commerce, the general public is invited. Here is an opportunity for the new comers to hear of the early history of southern Oregon. Colonel Miller, through his knowledge of geology is in position to tell of the vast mineral wealth still remaining in this section and what the future has in store when the same becomes developed.

Col. and Mrs. Miller now live in Portland and are here for a rest and vacation. Southern Oregon is a hobby with him and that being the case, his talk of the early days of this region will be most interesting. The Chamber of Commerce management has prevailed upon the Colonel to give this address and he has extended his vacation to enable the people of southern Oregon to hear his story.

ENGLISH FIGHTER MEETS LEONARD

PORTLAND, June 5.—Johnny Sheppards, lightweight champion boxer of England, will be the opponent of Benny Leonard, world's champion, here on June 21, it was announced today by the Portland boxing commission. The bout will be a ten-round no-decision affair. Leonard has been signed by the commission for several weeks but an opponent was decided only today.
The boxing commission at Milwaukie, Ore., near here, today announced that it had signed Mike O'Dowd, ex-middleweight champion, and Battling Ortega of Oakland, Cal., for a ten round decision bout at Milwaukie on the night of June 24. Both the Sheppard-Leonard and the O'Dowd-Ortega bouts are to be held during the Shrine convention in this city.

hour. Those who wish to hear an old time gospel message will enjoy hearing Dr. White.
E. H. Edgar, pastor.

First Baptist Church
A church with a cordial welcome.
9:45 a. m. There will be no Sunday school nor services of any kind at the church this Sunday on account of the annual meeting of the Rogue River Baptist association at Grants Pass. A large number of our people are expecting to spend the day at these meetings at Grants Pass.
8 p. m. Thursday evening, June 10, 1920, at the Baptist church there will be a special business meeting of the church for the purpose of calling a pastor. It is earnestly requested that as many members as possible will attend this special business meeting.

Catarrhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surface of the system.
We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c.

NEWS NOTES

Thirty odd years ago Edison had a prophetic vision that his newly invented dynamos would some day not only light the world and turn the wheels of industry, but would also enhance the pleasure of home life by furnishing electricity for cooking, ironing and heating.

Edison's dream is coming true. It is not generally realized that there are nearly 8,000,000 electric heating appliances used in the United States. About 75,000 Electric Ranges and Hotplates are in use in progressive centers.

Table cookery—made possible by electricity—is now the vogue, and some 1,250,000 appliances are in use. Electric irons have revolutionized ironing—approximately 6,000,000 are in use. They save many miles of weary steps each ironing day.

Electric heaters—of the Hedlite type—are making good Edison's vision of heating. More than a million have been introduced in the last three years. Our combination Lighting, Cooking and Heating Rate make the use of these appliances practical in every home. Call at our office and let us explain them to you.
