The copious rainfall of all day yesterday and last night amounted to 1.24 inches and was the largest continuous precipitation to fall in June for years past. While it caught much alfalfa and other hay down in the valley this rain was surely of the "million dollar" benefit kind. Now if only a few warm days will follow the dormant blight in the orchards will show up so that it can be cut out.

QUACK! QUACK! QUACK! SOME DUCK STORY

Quack! Quack! Quack! Ducks do not make as much noise as chickens when they deliver the fruit but here is a duck story given us by E. D. Hill-dreth that is hard to beat, even by the festive hen.

Walter Gray of Central Point, has six ducks that layed 161 eggs in March, 164 in April and 161 in May, a total of 486 eggs in 79 days. Not counting out any Sundays or holidays the six ducks averaged 5 2-3 eggs a day. They sold the eggs at \$1 a dozen for setting or \$49.50 for the product an average of \$6.75 for each duck for the 79 days.

Don't you feel like taking off your hat when you hear a duck quack.

'BIG BILL' BEATEN BY GOV. LOWDEN

CHICAGO, June 8.—Governor Lowden goes into the republican convention undisputed master in his home state as a result of his victory last night in the Illinois caucus over Mayor William Hale Thompson of Chicago, but probably will lose the seventeen Cook county (Chicago) votes which Thompson controls.

# PRISONERS ESCAPE ON WAY TO JAIL

PORTLAND, Ore., June 8.—Federal officers, portland police and sheriff's deputies today had failed to locate E. A. Gardner and Tom Winn, federal prisoners bound for McNesland, who escaped from their quarters as their train was entering Portland last night. Several clues have proved futile. The police offered a theory that the men were being hidden in Chinatown, Wing being a Chinese, and it being thought his countrymen may be aiding the escapes.

DECLINE IN FOOD PRICES IN PARIS

PARIS, June 8.—Declines in the cost of the necessities of life, which are general throughout France, are reported by several newspapers today. Some say that the attitude of the public in buying only what is strictly necessary has much to do with a falling off in prices recently.

When Henry Ford set about building the Fordson tractor, he had a thorough understanding of just what it should be and what it should do. His early life on the farm gave him a deep insight into the daily life of the farmer; his mechanical genius saw the type of tractor needed. And for more than twelve years he experimented over more than 7,000 acres of land in different kinds of soil, with different crops.

So he built the Fordson. It is so simple that a school boy can operate it. It is low in first cost. It is lowest in operating cost and Fordson parts and Fordson service are always to be had promptly from the dealer.

The Fordson is a profitable investment. It can be used every working day in the year. It is an inexpensive power plant and it will lighten your work.

Don't delay ordering your Fordson tractor. The demand is greater than the supply.

# One Every Minute

EVERY 56 seconds a destructive fire starts somewhere in the United States. An average of 1500 fires a day the year round.

Most of these fires are in homes! Will yours be next?

It may, unless you have a flashlight in your home. For scores of "home fires" are caused by use of matches and other open lights for searching dark corners.

Franco Flashlights are home necessities. They light up the dark corners safely. Absolutely guaranteed. Give more light and last longer. Always dependable.
