HIRAM DICKERS FOR PEACE IN HIS OWN RANKS

CHICAGO, June 8.—California and Kansas delegations today reported tacit agreements to defer elections of national committeemen until after the nominations.

Friends of Senator Johnson, in a majority on the California delegation were reported opposed to re-electing William H. Crocker as national committeeman until all ballots on president at least had been cast. The reason given was that of insuring solidarity of the delegation's support. In the past Mr. Crocker has been prominent in the anti-Johnson wing of the party in California.

It also was reported that some of Senator Johnson's friends had urged supplanting of Mr. Crocker by a man friendly to William Randolph Hearst, whose newspapers are supporting the Johnson candidacy, but opposition was said to have caused abandonment of the move and the agreement to let the national committee election go over temporarily. Considerable feeling among the California delegates over the situation was reported, but members of both the old organization and Johnson faction today gave assurances that California's vote would be cast solid for Mr. Johnson until he should release them.

In Kansas the contest between D. W. Mulvane and Fred Stanley, whose term on the national committee has just expired, also was put over until after balloting. Stanley is a Wood supporter.

CONVENTION IS UNBOSSSED, FREE AND UNDECIDED

CHICAGO, June 8.—Unique in the annals of the party, the republican national convention assembled today unbossed, unbridled and with no presidential candidate having enough votes in sight to assure his nomination.

It promises to be a record breaker in all respects. It may cast more ballots than any other republican convention since Garfield was nominated in 1880 before the party standard bearer is named.

There is still such a complete absence of bosses as to leave the convention leaderless. Chieftains who spoke with authority in the days gone by are standing on the side lines having a chuckle while the delegates go through the experience of having a "peoples convention."

The situation presents an opportunity for some shrewd leader to step forward at the psychological moment and invite a stampede. Practical politicians agree that an unbridled convention is an easy mark for a runaway.

A glance at the convention records since Lincoln was nominated in 1860 discloses the unusual prospects for the present one. In those conventions the balloting was as follows:

Nominee	Year	No. of States
Lincoln	1860	3
Lincoln	1864	1
Grant	1868	1
Grant	1872	1
Hayes	1876	7
Garfield	1880	20
Blaine	1884	4
Harrison	1888	8
Harrison	1892	1
McKinley	1896	1
McKinley	1900	Ac.
Roosevelt	1904	Ac.
Taft	1908	1
Taft	1912	1
Hughes	1916	3

"DYNASTY" OF WILSON FLAYED

(Continued from Page One)

upon the government of the United States.

"They must be driven from office and power, not because they are democrats, but because Mr. Wilson stands for a theory of administration and government which is not American.

"The return of the democrat to power with Mr. Wilson or one of his disciples still the leader and master of a great party, which before his advent possessed both traditions and principles, would be a long step in the direction of the autocracy for which Mr. Wilson yearns and a heavy blow to the continuance of the free representative government as we have always conceived and venerated it.

"Mr. Wilson and the autocracy he represents, and all which those who believe in his doctrines and share his spirit represent, must be put aside and conclusively excluded from any future control.

"The defeat of the present administration and all it means, transcends in importance every other question and all immediate and dominant issues are bound up with it. Without that defeat every chance of the right settlement of the mighty questions before us, so sorely needed now and not later, will depart.

"To maintain law and order and a stable government where justice rules and the right of all men, high and low, rich and poor, shall be protected, we should have a government of the people, duly chosen by the people and never must there be permitted any government by a single man or by a group of men, or by an organized minority.

"Socialistic Free Trader"

"Many vital economic measures and especially protective tariff legislation to guard our industries, are impossible with a democratic free trader of socialistic proclivities in the White House. To accomplish such measures as these, we must have, as we intend to have, a republican president, in sympathy with a republican house and senate.

"The rise of prices, the high cost of living which reach daily into every home, is the most pressing, as it is the most difficult and most essential problem which confronts us. Some of the sources of this trouble can be reached by legislation, altho not all, but everything that can be effected by law should be done at once.

"Profiteering, charging of extortionate and unjustified prices, which is stupid as well as unlawful are subject now to ample punitive laws. Those laws should be enforced, others if necessary added, and the offenders both great and small should be pursued and punished.

"The most essential remedy for high costs (of living) is to keep up and increase production and particularly should every effort be made to advance the productivity of the farms.

"The phrase government ownership means not only that the government shall own the railroads but also, it is to be feared, that those who run the railroads shall own the govern-
