**LUCKY MEDFORD FIRM AS A ROCK**

While other cities and towns in many states of the United States are feeling the pinch of hard times and tight money, and have been for a long period, here in Medford during the past year prosperity has reigned, and business has gone on much the same as usual during 1920. The Farmers and Fruitgrowers Bank reports that its customers are prosperous, and while others in many other places have been clamoring for credit, here in Medford and surrounding territory everybody has been taken care of. The amount of loans of the Farmers and Fruitgrowers Bank is larger than ever before, and the bank reports that its earnings last year were also greater.

During the seven years last past this bank has not lost one dollar by bad notes or otherwise.

This is certainly a remarkable record.

On December 31, 1920, the bank closed its books for that year, and in addition to providing for the usual dividend, more than doubled its surplus out of earnings. 243
