T THE CLOSE of the recent holiday season, thousands of Ameri- ${f A}$  can children required the attention of physicians, because they had eaten too much.

\$10 TO SAVE A CHILD'S LIFE.

At the close of the holiday season in Central and Eastern Europe housands of Polish, Hungarian and Slovak children required the attention of physicians, because they had nothing to eat at all

These sharply contrasted statements are supported by official staistics, the first from an American medical journal the second from the European Relief council.

But there were no physicians to cure the ailing children of Enrope. No physicians can cure them. Their only cure is food,-and is it the only country capable of supplying this food is the United States, \*: :\*

The resources of the American relief were exhausted the first of the year. Early in November Herbert Hoover issued an appeal for con-tributions to a fund of \$23,000,000 to save these three and a half million children from death by starvation. In many parts of this ountry, and many parts of this state, the response was immediate and generous; but for some reason, not clearly explained nothing us been done in Medford and Jackson county.

We can't believe that the people of this community wish to be left out of this great humanitarian movement entirely. We believe there, are hundreds of people, who if they knew where the money should be ent, would be glad to contribute to such a worthy and appealing cause. In lieu of any local organization or any individual willing to take the responsibility of leadership, The Mail-Tribune has decided to start a Jackson County fund with a contribution of \$10, and provide a medium through which other contributions may be made.

From day to day a donation blank will be printed in this paper, until a fund is secured, or until it is finally demonstrated that no fund can be secured. There will be no limit to these amounts, they may be as small or as large as the donor desires. The blanks may be signed or anonymous. Our only interest in this movement is to see that this community does something to avert the greatest tragedy of writing paper is made. Cotton seed oil and cakes are made from the modern history, the death of millions of helpless children.

The people are tired of war drives,—and with reason. They are tired of requests for money. But this is not a war drive; it is not in the ordinary sense a drive for funds. It is essentially a drive for life against death, during a supreme crisis in the world's history. And Matches came into general use about 1834. finally it is a drive for children.

It makes no difference to what race they belong. Children are not "racial." They are not national. They are merely children. And today they are unclothed and unfed,-millions of them. The small sum of \$10 will provide the coat and boots and stockings and one meal a day for one child this winter. Not a square meal, not what most children would consider a decent meal, but enough nourishment to keep body and soul together,

Is it necessary to compose a sob story with all the tremelo stops out, to impress upon anyone, the reality of the emergency that exists. and the genuineness of the obligation upon every well-to-do- well-fed and well-clothed American? We think not. Herbert Hoover is sponsor for it. Every charitable organization in the country is behind it. The Red Cross, Y. W. C. A., Y. M. C. A., and Knights of Columbus all endorse it.

We believe all that the people of Jackson County need is to know the facts and know what they have to do to help. A large sum from this community is not expected. All that is expected is something, from every individual who is willing and able to give to children who are starving, whoever they are, wherever they are. This paper is merely affording them, through its columns the opportunity and the privilege.

### NIGHT COMETH.

THE NIGHT is coming on apace, when I shall quit the road, and seek my final resting place, my daisy-strewn abode; and so the little ills of life don't fret my ancient heart, night cometh, with the end of strife, and every sting and smart. It isn't worth my while to weep or sing a doleful tune; for all life's troubles end in sleep, and sleep's the greatest boon. It isn't worth my while to hate the man who does me wrong; far better keep my smile on straight, and chirp my cheer-up song. It isn't worth my while to swat the man who punches me; far better keep my timbrel hot beneath the sunset tree. My autumn day will quickly pass, the sun's low down the sky, and stormy passions cut no grass when it is time to die. And hates and grudges look so cheap when night is drawing on, and it is time to think of sleep, of dark without a dawn. I haven't time to mope and brood o'er some small passing woe, and in a glad and cheerful mood I watch the bright days go. Why taste the wormwood when the prunes are wholesome, sweet and cheap? The night is coming on eftsoons, when I lie down to sleep.
