# DANIEL WEBSTER'S TREE GIVEN PLACE IN HALL OF FAME

WASHINGTON.—In celebration of the birthday anniversary of Daniel Webster the tree, on which he as a youth hung his scythe upon deciding to go to Dartmouth college, has been given a place in the Hall of Fame for trees with a history. The nomination of the tree was made by Frank N. Hancock of Franklin, N. H., which, then know as Salisbury, was the birthplace of Webster on Jan. 18, 1782. Mr. Hancock has lived near the tree for sixty years.

The path from the tree led Webster to congress and to the office of the secretary of state. Webster never reached the presidency but he twice refused nomination for vice-presidency and in both cases the head of the ticket on which he would have been elected died in office.

Another nomination of a tree for the Hall of Fame announced by the American Forestry association is the Wesley Oak on the Island of St. Simon off the coast of Georgia. This tree was nominated by James R. Joy, of New York City, editor of the Christian Advocate. John Wesley and his brother Charles arrived in America on Feb. 5, 1736. Charles Wesley served as secretary to Gov. Oglethorpe and went to the island to help lay out the town of Frederica. As there was no meeting place both Charles and John Wesley preached their first sermons on this continent beneath the Wesley Oak which is still standing.

A great grandson of Dr. Samuel Johnson, the first president, in 1754, of King's college, now Columbia university in New York city, once owned the land between Stratford and Bridgeport, Conn., on which stands an oak nominated for a place in the Hall of Fame by Miss Helen Harrison of Bound Brook, N. J. According to experts this tree is 500 years old.

One hundred and fifteen years ago the Lewis and Clarke expedition camped beneath the Council Oak at Sioux City, Ia., and held council with the Indians. This bur oak is nominated for a place in the Hall of Fame for trees by Mrs. Susie Brown of Marion, Ia., whose data sent to the American Forestry association shows the tree was 150 years old when Lewis and Clarke pitched camp beneath its shade.

Soil from every state in the union and from each of the allied countries has been placed about the roots of a maple tree planted by the Daughters of the American Revolution at Arkadelphia, Ark., as a memorial to the men who answered their country's call in the world war. The tree is nominated for a place in the Hall of Fame by Mrs. Thomas Sloan, historian of the Arkadelphia chapter of the D. A. R.

Nominations for places in the Hall of Fame for trees are made to the American Forestry association accompanied with photographs and historical data. More than 300 trees were filed with the association up to the close of 1920.

# GREAT BRITAIN IS OPPOSED TO NAVAL COMPETITION U. S.

LONDON.—Any attempt by Great Britain to build a big navy in competition with the United States would be "absolutely disastrous," say some of the leading weekly periodicals of London, in commenting on the naval estimates for the current year As presented in the house of commons these estimates were fixed at 90,872,300 pounds sterling.

The Spectator condemns the post-war recrudescence of "navalism" under the caption "The Naval Skin Game." "Against whom should we be building?" it asks. "Either against America or Japan. We should not be building against both for an alliance between them against Great Britain is inconceivable.

"We want to say most emphatically that in our opinion a competition with America would be absolutely disastrous. We hope the nation will never consent to it."

Any suggestion of a "two keels to one" naval policy as directed against the United States the Spectator dismisses as ludicrous, and it underscores the phrase: "We must not form our policy on the possibility of a war with America."

"If ever we joined with Japan against America, we should have sounded the knell of the British empire," the paper concludes.

The Nation, which brands big navalism as sheer lunacy, also strongly opposes naval competition with the United States which it says will have a navy superior to the British in 1924.

"We cannot successfully enter on a shipbuilding competition with America which has twice our population and four times our resources," this paper says and it continues:

"Our navalists have put another nail in the coffin o fthe league of nations. Unless this policy is repudiated at once, it will do more than anything else to keep America out of the league, to impel her to a political and economic isolation, developing her full powers of military and naval defense, drawing the South American states into a Pan-Americanism, fatal to the larger internationalism, and depriving the broken countries of Europe of the economic and financial aid that they badly need, and that only the trade credit of America can supply. That way lies neither peace, nor economic recovery, nor financial salvation."

## PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look.
