

COMING
Leopold Godowsky
WORLD'S GREATEST
PIANIST
In Recital
PAGE THEATER TUES. EVE.
JANUARY 25th

Mr. Godowsky records exclusively for the

BRUNSWICK

Godowsky's singing tone, his great power and clarity are preserved and faithfully reproduced on the BRUNSWICK. They are real piano records.

The original all-record phonograph without attachments

SUCH is The Brunswick, and part of its fame is due to this great innovation.

Until the coming of this noted instrument, most phonograph owners had to be content with a one-record instrument. Brunswick made this idea out of date.

There have been many attempts to equal The Brunswick, but devices and attachments never bring the desired result.

The Ultona is part of The Brunswick, in-built. And it plays every record at its best.

Another exclusive feature is the Brunswick Tone Amplifier, built entirely of wood. It has no cast-metal throat, as is usual.

This scientific tone amplifier, built according to acoustic laws, gives truer, richer tone. It reveals hitherto lost shadings.

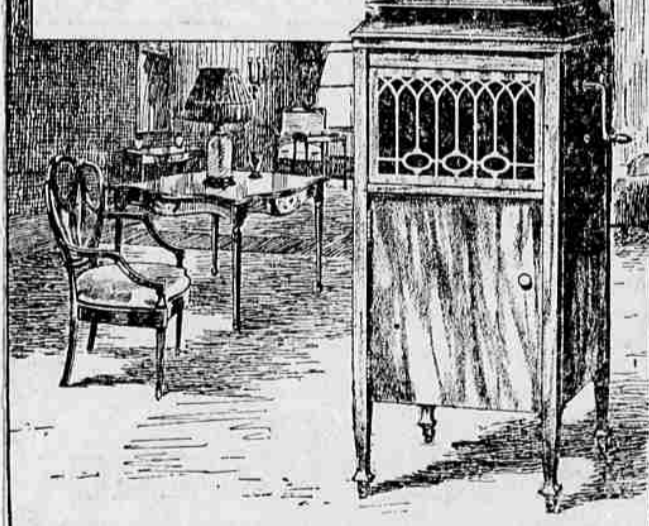

Hear The Brunswick before you buy a phonograph. Note its unequalled tone, its superb cabinet work, its many betterments.

You will hardly believe all the good things they say about The Brunswick until you, yourself, hear it. Come in today.

H. S. REGULARS DEFEAT ALUMNI, SCORE 23 TO 12

The Red and Black basketball quintet humbled the alumni hoop tossers in a 23 to 12 tangle on the Natatorium floor last night. The game on a whole, was loosely played, although at times both squads showed basketball class. The advantage of training was obvious in the performance of the high school men, an advantage that the alumni basketballers could not overcome. Both Sherwood and Prescott, playing guards for the high school, played especially well, throughout the game, holding the fast alumni forwards for few scores. Haughman at center will undoubtedly develop into a fast man in the center ring, while Coleman and Young, forwards, showed clever handling of the ball.

Klum's men deserve much credit for their first performance of the season and, although they did well last night, it is generally believed that they must improve in general team work and speed up their work considerably before the game with Etna Mills Friday night if they expect to carry off honors. This improvement is certain to come from a week's practice under Coach Klum's direction and Medford people have every reason to feel confident that M. H. S. will duplicate her football record in basketball. The line-up to start the game was: Medford—Alumni—Coleman, Fish, Young, Olmstead, Baughman, Williamson, Sherwood, Watson, Prescott, Smith. Substitutions: Alumni, Sherwood, Gentry, Narragan, Phipps, Hall, referee.

As a preliminary the high school girls and an alumni sextet played a close game which ended in a 15 to 14 victory for the high school. King's girl team played a good game and should develop into a championship squad for this section. Sylvia Hukill especially deserves mention for her work for the high school.

A good sized crowd witnessed the two contests and seemed well satisfied with the showing made by the high school teams in their initial appearance. The next regular scheduled game will be with Etna Mills at the Natatorium next Friday night.

DON'T KISS BABY POLISH WARNING

"Don't kiss the baby." The sentence is not a request of an anxious mother or of a physician. It is an order of the Polish government, promulgated for the purpose of reducing the terrific infant mortality.

In Warsaw alone, last year according to figures that have just become available 37 percent of all deaths in the child population resulted from tuberculosis. This disease has gained its foothold because the children are undernourished. It is estimated that more than fifty per cent of all the children suffer from serious ills due to partial starvation.

The neediest children are being given a supplementary meal once each day by American charity through the European relief council. This work is to be continued until next harvest out of the \$33,000,000 now being raised in a national collection under the direction of Herbert Hoover.

The number of starving children being fed in Poland is upwards of a million. The number is increasing with the rigors of the winter.

St. Mark's Episcopal
8 a. m. Holy communion.
10 a. m. Sunday school.
11 a. m. Holy communion.
Wm. B. Hamilton, Vicar.

Catholic Church
South Oakdale Avenue.

Accept the invitation to worship with us Sunday.
Frederick R. Leach, pastor, 16 S. Laurel street.

What do you need most in your home? 253*

It's Good for Children
Mrs. C. E. Schwab, 1067 14th St., Canton, Ohio, writes: "We use Foley's Honey and Tar for coughs and find it one of the best remedies on the market, especially good for children's coughs, as it does not contain any drug that is harmful." Serious sickness often follows lingering colds. Hard coughing racks a child's body and disturbs strength-giving sleep, and the poisons weaken the system so that disease cannot be warded off. Take Foley's in time. Sold everywhere.

JACKSON COUNTY BUILDING AND LOAN ASSOCIATION

The NEW EDISON

"The Phonograph with a Soul"

At last you can learn

What Edison Did during the War

YOU wondered—everybody wondered, and practically nobody knew how Edison "did his bit." At last the official announcement is out! Come in and get your copy of the bulletin: "What Did Edison Do During the War?"—or write, if you can't call.

It tells what Edison did while Chairman of the Naval Consulting Board—how he spent months at sea, experimenting and in-

venting devices for foiling the German submarines.

The bulletin also tells how Edison stood the gaff and kept the price of the New Edison down to bed-rock during the era of high costs and soaring prices. The New Edison has increased in price less than 15% since 1914—part of this increase is war tax. The bulletin also tells Mr. Edison's views on our Budget Plan which makes the New Edison easy to buy.

Palmer Piano House

234 E. Main St.

Watch for the announcement of Mr. Edison's new research!

Buying Needed Implements Is Real Thrift

AND IT ALWAYS PAYS TO GET THE BEST TO FIT YOUR NEEDS.

Doing without needed implements is like doing without needed food—it never pays

You are going to farm next year. You will want to carry on the work as economically as possible; save maximum time and labor, produce more per acre, cut the cost of production per bushel, per ton and per acre.

Good implements will enable you to do that. Give them serious consideration now.

Come to our store and look over our implements and machines. Take

plenty of time to consider them carefully. Measure their qualities against your needs. See them in their true light; as good, profitable investments; as the means by which you can make more profit from your future farming.

Don't go into the race crippled by worn-out or inferior implements. Get the best to fit your needs. These are times when a farmer should be especially well equipped with good implements that assure low production costs.

Come in and see our stock.

HUBBARD BROTHERS

A FINANCIAL ROCK OF GIBRALTER

EVERY changing condition has found the Federal Reserve System able to cope with the situation. The emergencies of war, the extravagances and speculation following, and now the reaction—have been trials which the old system could hardly have withstood without privation.

We are glad the First National contributes to its strength—and—in turn—enjoys its protective influences.
