11 A. M.—"IS EARLY CONVERSION DESIRABLE"  
7:30 P. M.—"HEART LONGINGS"

# Studebaker

## THE NEW LIGHT-SIX

**ORIGINAL COST**

In making your original investment in this car, you receive the benefit of the manufacturing savings estimated at 20% to 25%, made possible by complete manufacture in the new modern \$20,000,000 Studebaker plants at South Bend, Indiana, because—

- (a) the price includes but one manufacturing profit on castings, forgings, stampings, motor, axles, transmission, frame, body, top, etc.
- (b) the amount of overhead expenses included in the price is very small.
- (c) excess weight is eliminated without sacrifice of durability or quality. The shipping weight of the car, 2500 pounds, is distributed equally over the four wheels.

**OPERATING SAVINGS**

In operating this car, you receive the benefit of the economic advantages arising from its superb design, skillful manufacture, excess safety factors, and high quality, because—

- (a) it will go from 12 to 15 thousand miles on the standard 32 x 4 cord tires.
- (b) it will go from 18 to 22 miles on a gallon of gasoline.
- (c) it will render from 8 to 10 years of satisfactory service.

## BECAUSE IT'S A STUDEBAKER
