**PATTON-ROBINSON
 TAKE FAIRBANKS
 MORSE PUMP LINE**

Patton and Robinson, Inc. have added the Fairbanks-Morse pump and engine line to their tractor and implement business and in this connection have also taken on the Hayes pump and sprayer line. A shipment of Hayes sprayers is now on the way and due here in a few days. As soon as these sprayers arrive, a demonstration will be held at the Patton and Robinson store, 112 South Riverside that should be of interest to all the fruit growers in the valley. Mr. Robinson says: "The Hayes pump, equipped with a Fairbanks-Morse engine, is positively guaranteed to deliver 300 pounds pressure, using two guns, and anyone who is at all familiar with ordinary sprayers, knows that this power, under such conditions, is more than unusual. Those who attend this demonstration will see the Hayes in operation and actually delivering 300 pounds or more pressure with two fruit fog guns." As soon as the sprayers arrive an advertisement in regard to the demonstration will appear in this paper.

**GODOWSKY PROGRAM AT
 PAGE IS ANNOUNCED**

- The Godowsky program at the Page Tuesday will be as follows:

 Frederick R. Leach, pastor, 16 South Laurel street.

A Woman's Recommendation
 Mrs. D. T. Tryor, Franklin Av., Otsego, O., writes: "Nine years ago I was very much afflicted with kidney trouble. I bought different kinds of medicine, but all to no effect, until one day I bought a box of Foley Kidney Pills. I realized so great a benefit from the use of that box that I feel safe in recommending Foley Kidney Pills to any kidney sufferers." They relieve backache, sore muscles, rheumatic pains and bladder ailments. Sold everywhere.

The original all-record phonograph without attachments

SUCH is The Brunswick, and part of its fame is due to this great innovation.

Until the coming of this noted instrument, most phonograph owners had to be content with a one-record instrument. Brunswick made this idea out of date.

There have been many attempts to equal The Brunswick, but devices and attachments never bring the desired result.

The Ultona is part of The Brunswick, in-built. And it plays every record at its best.

Another exclusive feature is the Brunswick Tone Amplifier, built entirely of wood. It has no cast-metal throat, as is usual.

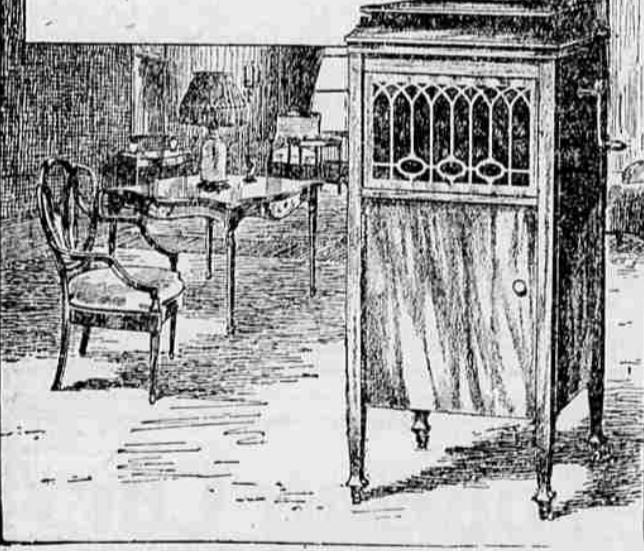

This scientific tone amplifier, built according to acoustic laws, gives truer, richer tone. It reveals hitherto lost shadings.

Hear The Brunswick before you buy a phonograph. Note its unequaled tone, its superb cabinet work, its many betterments.

You will hardly believe all the good things they say about The Brunswick until you, yourself, hear it. Come in today.
